Whereas, the Student Union is intended to serve as a hub of campus social, recreational and cultural life; and

Whereas, the "Rocky's Attic" facility is currently under-utilized; and

Whereas, the re-establishment of a restaurant serving alcohol in the "Rocky's Attic" location will help to complete the ambiance of a building intended to foster community on campus; and

Whereas, student health and safety is promoted by offering regulated facilities on campus that serve alcohol; and

Whereas, the absence of such facilities on campus has contributed to a culture of unregulated high-risk alcohol consumption, and by extension to undermining student health and safety, degrading neighborhood relations and exacerbating off-campus policing problems;

Therefore let it be resolved, that the Student Government of The University of Toledo supports the establishment of a restaurant serving alcohol in the Student Union's "Rocky's Attic" facility.
