

Application for Affiliate Status with the Texas Coastal Bend Section of the American Chemical Society

The Texas Coastal Bend Section of the American Chemical Society (ACS) invites you to join as an affiliate member for \$5 annually. **YOU MUST HAVE A WORKING E-MAIL ADDRESS** to receive section notices, and you may not hold a sectional office with this membership. All other sectional and national ACS rules apply. Please read and fill out the remaining portion of the form and submit it to a section member or mail it to the address shown below. Checks should be made to The Texas Coastal Bend ACS. All affiliate memberships are subject to acceptance by the Texas Coastal Bend Board.

Thank you,

Texas Coastal Bend ACS Section

Vision and General Guidance Statement for Affiliate Membership

It is the belief of the Board that chemistry plays a central role in many professions and that the National ACS is a valuable asset to our profession. Because of its central role in science and engineering, chemistry critically influences other allied professions, not strictly chemists. To those professionals or individuals we offer affiliate membership in the hope that you will find value in our organization and later request full membership. Affiliate membership is not intended for the avoidance of national dues by chemists or similar professionals. Therefore, the Board must approve all Texas Coastal Bend section affiliate membership applications.
