

## MALFA AND NYSAA MEMBERSHIP

MALFA is a New York State Chartered Educational Institution, and a not-for-profit organization. As such, we rely on our volunteer members to carry out the work, such as artifact preservation. We offer free lectures and demonstrations, walks and tours of historic and pre-historic sites, plus the companionship of like minds who want to know more about this old earth of ours and those who came before us. For example, Croton Point Park, where MALFA has headquarters provided by Westchester County, was a Native American site dating back more than 6,000 years!

We hope that you will find our news and materials interesting and useful. We welcome you to become a member of MALFA at any time.
