

# FRISON DESIGN SERVICES

## CONSULTING

Innovation through diversity-creating new insights

- Frison Design Services can help you with developing new products and Ideas for your business.
- We are fast, effective and creative. try to find this combination elsewhere!

## Frison Design Services Consulting What can we do for you?

If you are developing a new product or want to redefine an existing product, but you need assistance in finding answers on questions such as:

- What is actually needed to make this a useful product for our customers.
- How can I translate the customer's wish into a economical viable product.
- I want to add something that is really different from what the competition is doing my products are changing but what about my image and identity?

## We have experience in

Product Design  
Furniture Design  
Exhibit Design  
Graphic Design & Signage  
Computer Modeling & Animations  
Sculpting  
and we have vision

## What is our strength

We look at your products or concepts and approach it from all kinds of angles to see if something needs to be added or modified.

Because we are active in so many fields we can offer other perspectives, the necessary ones the other companies cannot help you with.

## Contact

Feel free to contact us with any questions. This page will stay abstract and perhaps cryptic, maybe in the future we publish examples of our findings. Till that time you can send us your problems and questions and we can show you what we can do.
