20 October, 2007

Welcome to the 2007 – 2008 Season!

The Annapolis Valley Minor Hockey League is excited to be entering the 2007 – 2008 hockey season. The last two seasons have been very successful, with our regular and playoff schedules becoming very popular. Last year we had two great season-end parties where awards and prizes were given out to all of our players.

The team banners, as well as gold and silver medals were awarded to the top two teams in each level. We have continued to provide a website with updated standings and information on League activities.

The following benefits of membership in the AVMHL continue, as well as the addition of **new championship trophies** that will be awarded to the top team in each level at the end of this season!

- Full regular season and playoff schedules provided to your team
- A dedicated league website with updated standings each week
- Travel permits provided for all league games
- Organized outings for league members with discounted group tickets where available
- A championship banner awarded to the top team in each level to keep for your home arena
- A championship trophy awarded to the top team in each level for display in your arena for one year
- Gold and silver medals awarded to the top two teams in each level
- A league lapel pin for every team player and official
- A year end party with refreshments and prizes

This year's league fees have been set at \$15.00 per player. This revenue covers the purchase of the banners, medals, pins and the year end parties. No other expenses, other than minor administration costs such as bank fees and postage are incurred.

Your League directors are responsible for putting together this successful package for you. We are always looking for new volunteers to serve on our board and your participation is welcome. All team members and officials can attend any of our meetings, the dates and times are posted on our website. If you are interested in becoming a director, it requires only a small commitment of one meeting each month during the hockey season, and our meetings are completed within 1 to 1-1/2 hours. Please contact us to lend your support and provide your input into this year's league activities.
