Continuing improvements to your low down ride!

- Eliminates the need to cut your OEM bump rubber
- Application specific and improves ensures the proper ride and performance of your low down vehicle
- Ensures the proper volume and stroke
- Made of a special durable rubber to ensure durability

ACTIVE SUPER DOWN

A thorough lowering, 30mm to 70mm drop that is paired with a spring rate increase of 20% to 30%. This ACTIVE SUPER DOWN is the sports spring that makes your car look great with aftermarket wheels. The ride is kept comfortable - There is no other spring that can compare.
