

**NEW LIVING FORM Founded By Me-Myself(ATEP NURDJAMAN, PROF. DR™.)
As Contribution of NEW GROUPING In BIOLOGY
NEW CLASSIFICATION IN BIOLOGY BORN,
The New Living Form Is FluoroZipMove CreatureAN**

Author: ATEP NURDJAMAN, PROF. DR™

*Researcher-Independent for revealed unarranged theory in fields of organic chemistry and biology, 2007 in month of February and the date 17
in do doing for title up*

The finding of FluoroZipMove CreatureAN give impact to redefined the position of all of living form who exist in book of classification to new classification. The FluoroZipMove CreatureAN is new living form who found by me-myself(ATEP NURDJAMAN, PROF. DR™). This living form or this creature shown as animal who can move just like zip movement, very fast, in air. The creature shown also as animal who produce the light just like fluorescence, and the size isby bare eyes the creature can not see but the trace of light we can see clear by eyes. The FluoroZipMove CreatureAN can found in location of light when bright, and also the most I found this creature is in middle of street in daylight at noon usually in clear weather.

The FluoroZipMove CreatureAN definitely found by me-myself(ATEP NURDJAMAN, PROF. DR™.), no one has been publish this mighty creature.

Because the existing of FluoroZipMove CreatureAN in nature definitely, we should accept the existing and the appearance of them in anykinds of ways, one of is by do put in book of classification. Based on this explanation, I have consideration for put this creature, new living form, in existing of book classification, I have no found the group for them, definitely the FluoroZipMove CreatureAN different from the group that exist in book or in your knowledge, because that I have an idea to make new grouping including group for the new living form that is for FluoroZipMove CreatureAN. The new grouping in term the grouping in Biology fields has name **THE GROUP OF BIOLOGY INCL. BIOLOGY X-TERM**, and are:

1. **Misokrobio Group**
Is living form who know now as bacteria and microfungi
2. **Enteromobility Terol Group**
Is living form who know now as virus
3. **Exobiology Group**
Is living form who coming from out of space
4. **Creaturomill Group**
Is New living form who identify as The FluoroZipMove CreatureAN, and others
5. **Magnesiumiphylum Group**
Is living form who know now as Plant who has chlorophyll and look see-in the green feature or containt in inside the chlorophyll
6. **Mushroom Group**
Is living form who know now as mushroom, divided into Macro Mushroom (exp: *Pleurotus* sp.) and Micro Mushroom (exp. Yeast)
7. **Animal Group**
Is living form who know now as animal, divided into:
 1. Pisces (Fish)
 2. Caraptill (Snake (incl. blood sucker animal and worm) and Turtle only)
 3. Mucusa (is all of animal who has mucus on surface of skin)
 4. Aves (Bird)
 5. Mammalia
8. **NoelNoretZoelmol Group**
Is living form who know now as Human, only human, just human, without mix with others of living form who shown the shape not like the human.

Note: Human that produce from the human and animals will give in special position but still human.

9. **Solera Monopigmen Group**
Is living form who know now as seaweed, only.
10. **Calcitorerata Group**
Is living form who consist the most part of body build by CaCO_3 (exp. Coral)
11. **Planktonhor Group**
Is living form who know now as zooplankton
12. **Plaktonhor Group**
Is living form who know now as phytoplankton
13. **Conellariazoo Group**
Is living form who has cone that made from CaCO_3
14. **Feetoneotoirodplank Group**
Is living form who walk by do move part of body in crawl (exp. Crab, insect and etc)

Highlight for no.4 in the grouping of Biology aboved is that make the different from now. The classification should follow this grouping of Biology, how to determine the species will adjust to this also the grouping of Biology, definitely.

Sincerely with respect, I publish now the NEW GROUPING OF BIOLOGY to you, you will judge and decided the who will be as the winner as Biologist or the looser.

Keywords: FluoroZipMove CreatureAN, human, new living form, grouping of Biology

Introduction

Note: Introduction and summary-conclusion same in explanation
