PLAY With TYPE

Project: Brochure About Drinking and Driving

Type as Image

Project: Design New Typeface

This new typeface has the characteristics of this new typeface has the similar feeling with the Art Deco, which is the thin and thick stroke in each of the letter.

Web Design • TIFF Site

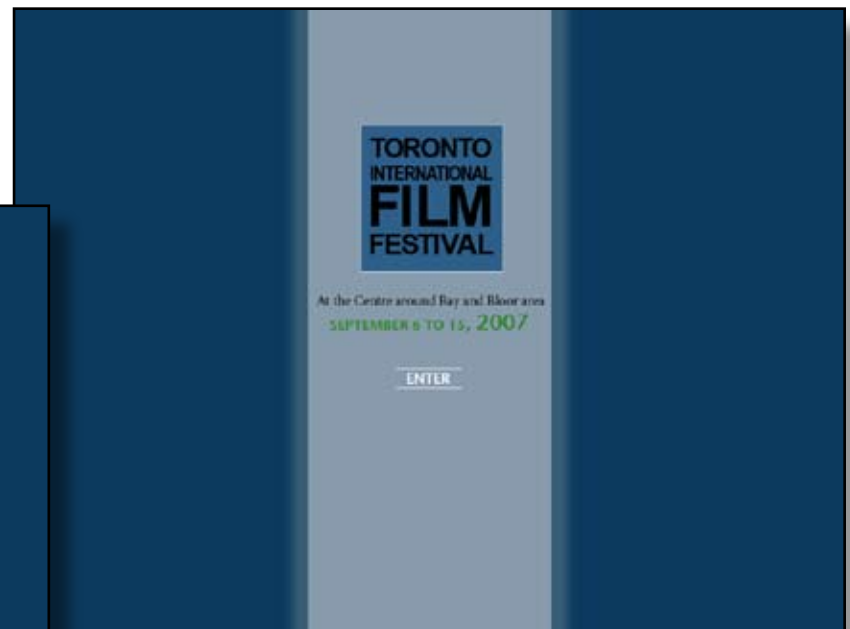

The design features a large white semi-circle at the top and a green semi-circle at the bottom. The text 'Web Design • TIFF Site' is centered within the white area. To the left of the text, several thin green lines radiate outwards. Below the text, three thick green lines curve downwards and to the right, creating a sense of motion or flow.

TIFF Website

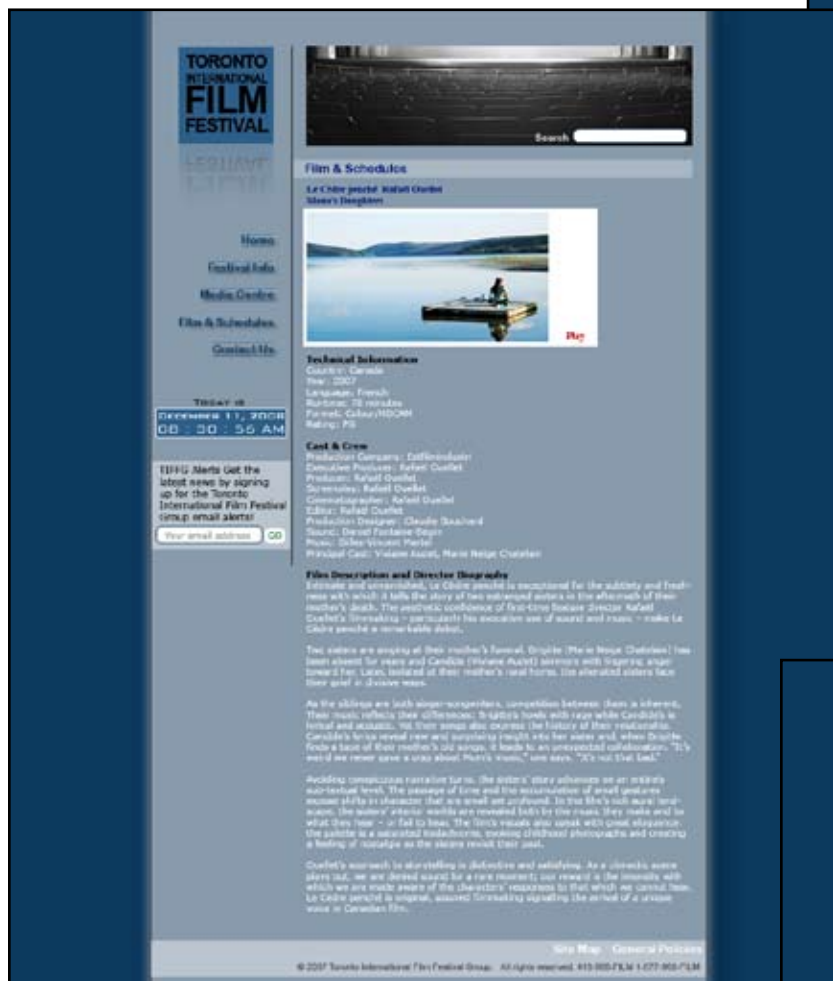

Project: Design Toronto International Film Festival website

This was a school project to redesign TIFF website. The new site has most of the link on TIFF current website, but in a better composition for the new site.

Packaging

• Peek Freans biscuits

PEEK Freans BISCUITS

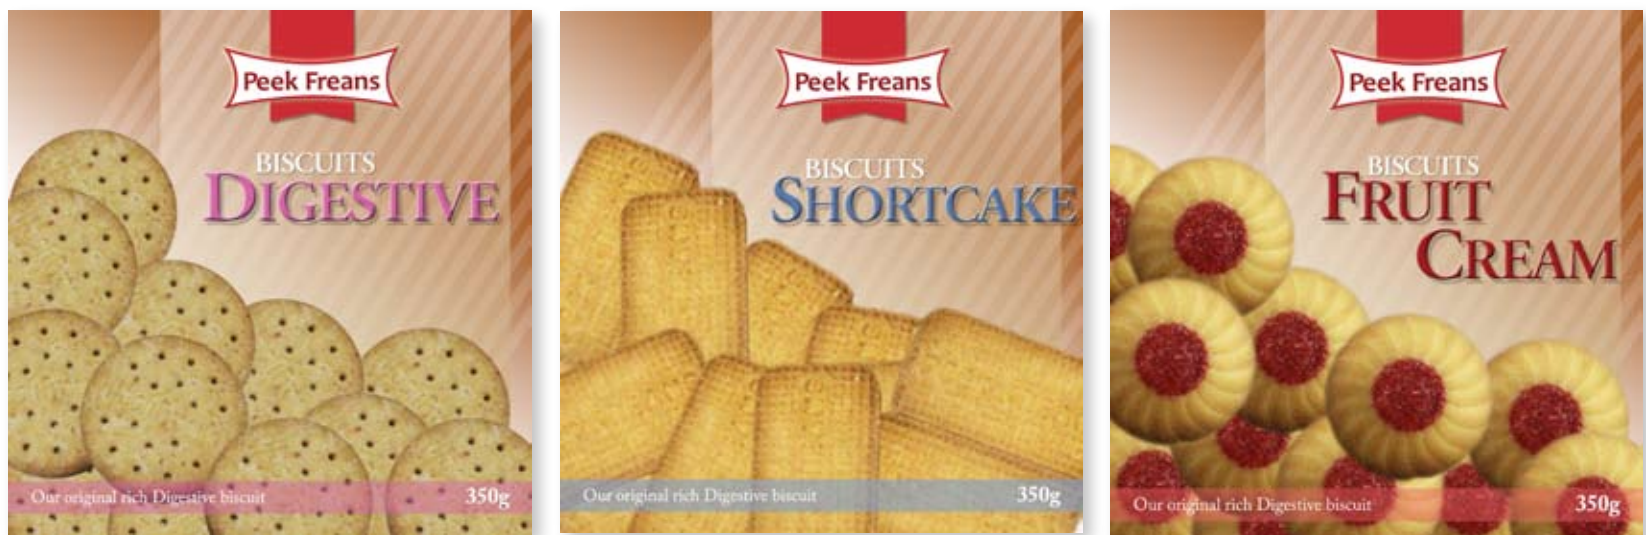

Project: Redesign Grocery Package

Peek Freans has the longest history in the biscuits industry since 1857. They were the first company to introduce the cream sandwich biscuit. They have the best taste of biscuits in the century ever, but not their package. We think the Peek Freans biscuits will be accommodated with the new package design.
