

**OUR SOLUTION TO CLIMATE CRISIS  
is NOT for money.**

**We Help SAVE  
the Biosphere and  
our HOME, the Planet**

26 April 2026

**The FILIPINO Energy System  
HELPS the Planet by releasing only  
188 grams of Carbon Dioxide per kWh of work,  
compared to  
1,118 grams of CO2 per kWh of work  
in the United States of America (as reported by EIA)  
from the same amount of energy from the fuel  
for work that is done by the gasoline engines.**

# **REPLACE Fossil Fuel with home-grown Methane Gas (CH<sub>4</sub>).**

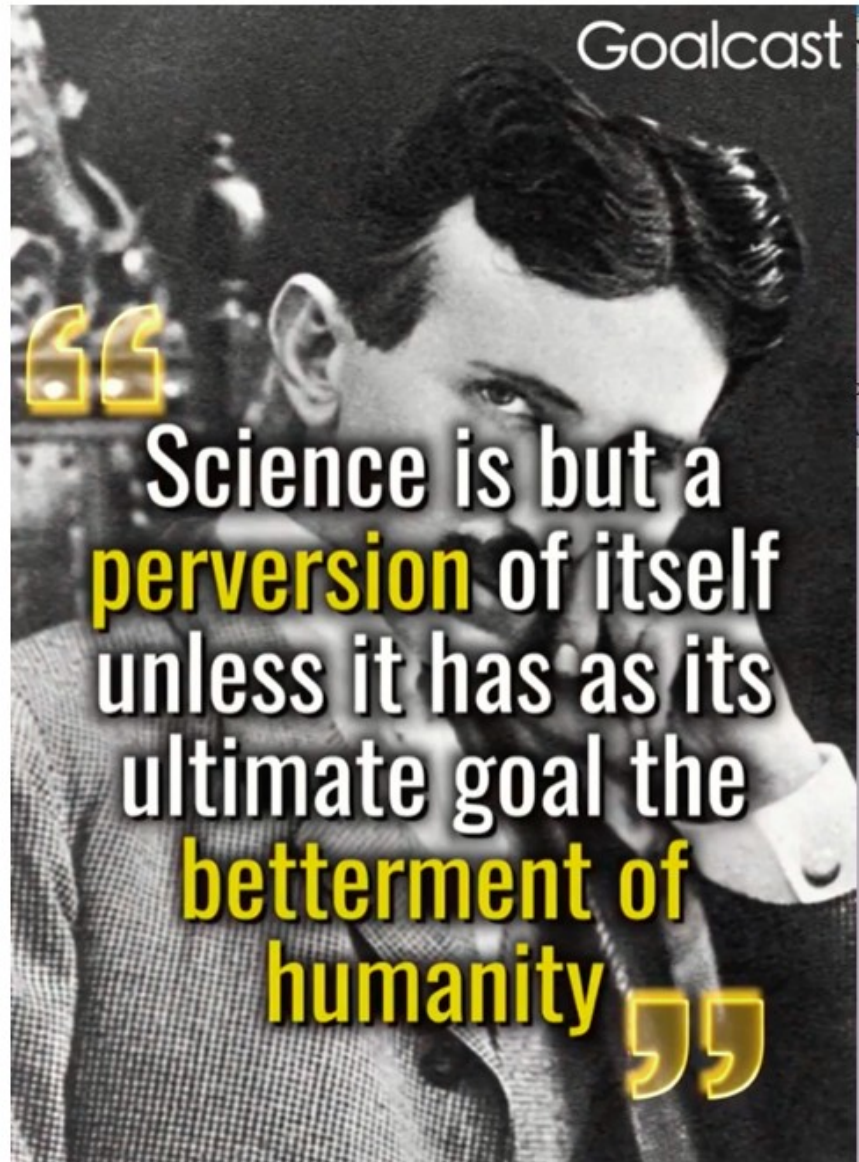

**Neutralize the properties of CH<sub>4</sub>, which is 80 times more harmful than Carbon Dioxide thru**

**to do Work in our internal combustion engine.**

**CH<sub>4</sub> is Gift to the Filipino Energy System from Manure and Rice Stalks.**

Goalcast

“

Science is but a  
**perversion** of itself  
unless it has as its  
ultimate goal the  
**betterment of  
humanity**

”

# **We SERVE Our People and Communities**

**Pope Francis said in “Laudato si” paragraph 52  
“In different ways, developing countries, where the most important reserves of the biosphere are found, continue to fuel the development of richer countries at the cost of their own present and future.”**

**(NOTE: Whatever religion we belong to)**

**Some countries, cities, residences, farms, etc., are already being erased by Climate from the map**

**The Philippine Government has published that Sea Level in Manila has risen 2.6 centimeters in one year. If this continues, where will our Descendants in Manila be after 50 or 100 years?**

=====

**At the time that the United Nations sees this  
Technology in the Philippines, it is  
NOT FAR-FETCHED that the Philippines would  
become the CENTER OF GRAVITY for the Care and  
Protection for the Biosphere and for the Planet, as  
this System multiplies around the world.**

=====

**I have DETAILS gathered with defensible  
Energy, Power, and Economic Calculations.**

**Filipino Engineers learned these from the MIT  
Dean of Mechanical Engineering  
Domingo S Mendoza.**

**The Professional Regulation Commission Board of  
Examiners showed that Filipinos are capable of making  
Engineering Decisions.**

**We Resuscitated the Power System  
of the Philippines from BLACKOUTS**

The Details are WITHHELD for now
