

This promises QSD to his customers

Mahersol is one of the construction companies of QSD (information of QSD)

We supervise the construction of your home, just as you would.

In QSD Group we know that it might be difficult for you to come from your country to see your future home. You have no need for concern, because our after-sales staff will visit your home regularly, taking photographs of the construction as it proceeds and supervising each phase, informing the developer if any sort of anomaly is detected.

Together with our welcome letter to the after-sales service, you will receive your personal entry code. From then on, all the information relating to the construction of your future home will be permanently available to you.

We are monitoring the construction phase from your house

And that is the result:

the list of complaint encloses 2 pages
here you can see some examples:

In the whole house the floor is polluted with cement
There is no possibility to clean the floor with normal cleaning material

The worktop in the kitchen is flecked.
Cannot be removed by cleaning.

That`s the result of the final cleaning.
The kitchen became mounted on the dirty ground.

In the bathroom the tiles are tiled in waved line.

The attractive terms you can see here: cheap plastic..

The shower must have been finished by an amateur's do-it-yourself enthusiast.

The exactly work from Mahersol you can see here.

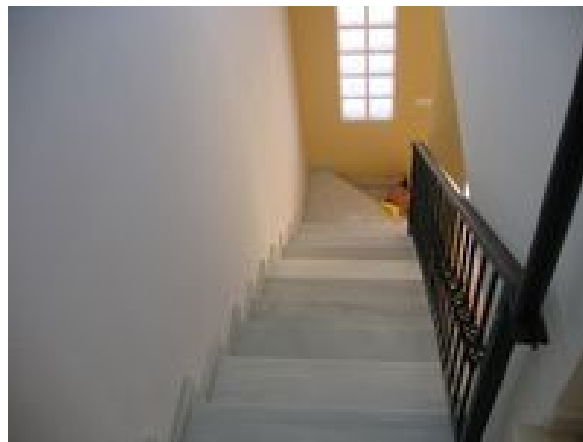

Under the cement layer the banister should be black...

**Cement layer likewise before the front door
With water and cleaning material no cleaning possibly.**

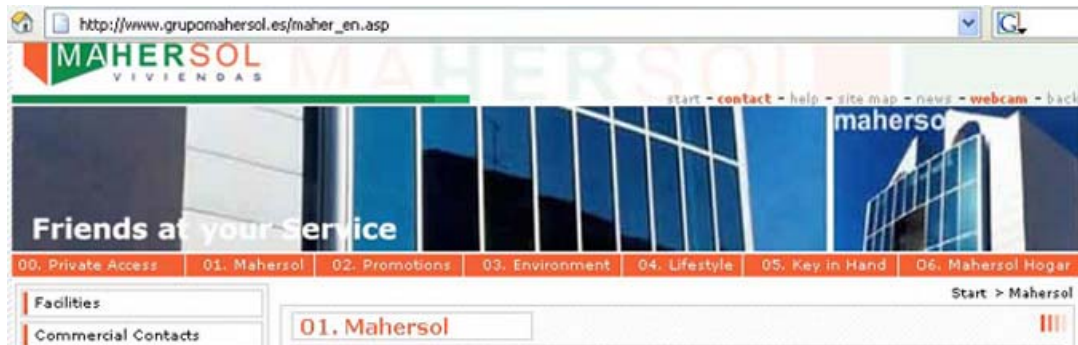

**Should most defects be removed sometime once, the bright stairway step reminds the
"happy building owner " certainly remembers the promises from QSD:
*We supervise the construction of your home, just as you woul...***

Mahersol works "excellently" ... almost like on the web page promised....
