

God created Adam from clay, Angels from Light and Jinn from Fire. In Paradise, Adam ate the forbidden fruit and was descended to Earth by God. We are all descendent of Adam.

The prophets are to protect mankind from the evil Satan whom wanted to bring all of us to Hell. The Abrahimi religions are 1/ Judaism (Moses-Jews), 2/ Christianity (Jesus–Christians) and 3/ Islam (Muhammad-Muslims).

Human are created with greed. Even the Holy books are changed and manipulated to win the hearts of Human Being. Holy wars like the Crusades were fought between these religions.

Which Religion then shall bring Mankind to Heaven? After all the Earth is just a temporary place to live, after earth would be forever.

Towards ONE Religion

by Hassan Endan

The **Torah (Judaism-Jews-Moses)** describes the 13 principles of faith, but the JEWS simply rejected the one that told that Muhammad is the last prophet,
 The **Bible (Christianity-Christians-Jesus Christ)** has changed many times and the concept of TRINITY is rejected by many Christians,
 The **Quran (Islam-Muslims-Muhammad)** is The One and ONLY ONE QURAN.
 The Quran as a book is the result of:

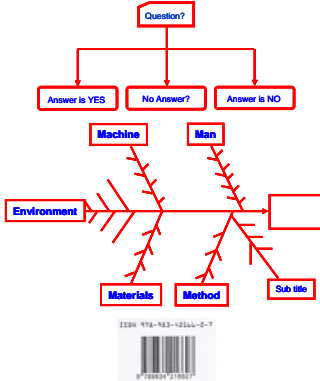

- 1/ Revelations given to Muhammad (pbuh) in the period 610 - 632 (Muhammad's death),
- 2/ Writing down of these revelations by people around Muhammad (pbuh) in a period probably starting some years after 610 and ending a couple of years after 632,
- 3/ Compilation of these writings stretching from mid 630s and perhaps until mid 650s,
- 4/ Backed up by hadith on some events as Muhammad (pbuh) revealed the words of Allah,
- 5/ Memorized by people all over the world. Even the slightest change has been detected,
- 6/ Kept and preserved by Allah thru its angels,
- 7/ The Quran found at Masjidil Haram and Mosque of Nabawi is truly the words of Allah (please confirm your publications with the relevant authorities),
- 8/ The followers of Muhammad (pbuh) shall be able to detect any changes in the Quran. It is well protected until today.

Self Motivation

This is a 10 steps methodology towards motivating our self and a continuous technique on self improvement.

There are so many problems and happiness that we face daily. The happiness we can share together, similarly we can share our problems with our love ones. By sharing our problems, we actually release the major problems. Then by motivating our self using these guidelines, we may be successful in our life.

This methodology and technique will guide you through a happy family; reduce the risk of road accidents and create a safe manufacturing environment towards continuous improvement. There is no one perfect solution to motivate us, it's a continuous body and soul.
