Chess Coaching in Schools

Dear Chess Manager,

Chess coaching in your school:

The single biggest obstacle to having more chess in Schools is a lack of Chess Coaches.

If your school would be interested in possibly receiving some coaching, please let us know using the form below.

Looking for part-time Chess Coaches – beginner or experienced:

If you know of a Teacher/s who is interested in being a Part-time chess coach, please pass along this sheet. This could be a Teacher who is full-time, working part-time, or on leave.

The single most important skill in being a schools chess coach is class control. It doesn't take that long to actually learn how to play.

If there is sufficient interest, we would train you up and help you find work.(for a fee!)

Best regards to all

John Alfred, m.eng, mba
