

**CEDAR ISLES DEAN NEIGHBORHOOD ASSOCIATION
RESOLUTION REGARDING REMEDIATION OF ASBESTOS SOIL
CONTAMINANTS AT 2626 W. LAKE ST.**

September 6, 2005

RESOVLED THAT, while the CIDNA board does not oppose remediation in general, the CIDNA board currently objects to remediation of the site at 2626 W. Lake St., because there is not yet an approved project, and the scope of the proposed remediation is undefined.

Chad Larsen, President
Cedar Isles Dean Neighborhood Association

This resolution was moved by Kathy Hendricks, seconded by David Shirley and passed unanimously by the CIDNA Board of Directors with no abstentions.
