

**Changes in 3.0b3 (16-oct-05)**

46	All	GoldVarb Help now opens page on Sali's website.
156	All	No Recode needs to insert a carriage-return before the comment
157	All	Generate Factor Specifications doesn't update the number of groups on the factor dialog.
159	All	I notice there are two apersands in the cross-tabulation window.

**Changes in 3.0b2 (9-oct-05)**

7	GoldVarb/X	Scaling issues with about-box image.
52	GoldVarb/Win	Character-mapping problems when reading in files created by GoldVarb/Classic.
141	GoldVarb/Win	Characters like $\sqrt{\quad}$ and $\dagger$ aren't displaying properly. Looks like a font issue.
150	GoldVarb/Win	GoldVarb/Win fails to exit when all windows have been closed.
151	GoldVarb/Win	Need to be able to create a new document off the top.
152	GoldVarb/Win	Character-mapping issues when opening files created by GoldVarb 2001
153	GoldVarb/Win	Closing the token window doesn't close the factor dialog.
154	All	After opening a new token file, the factor dialog still displays the old file's factors.
142	GoldVarb/Win	Closing the Token window leaves the Factor dialog open.

**Changes in 3.0b1 (25-sep-05)**

89	All	Finish implementing Recode Setup dialog.
115	All	Move text of progress-dialog into caption.
116	All	The regression runs very slowly! Can this be fixed to go faster?
143	All	When I try the re-code, numbers turn up on the recode box, which disappear if I type something in. That shouldn't happen.
144	All	When I copy this cell file you can see the lines going across the top of the bottom and top of the table. But inside GOLDVARB, the line goes half way across.
145	All	Crashed when I was closing the Scattergram window. I had run the Binomial 1-Level (which generates the Scattergram), and then immediately run a Binomial Up/Down. I might have then gone back and forth between applications for a bit, copying numbers from th
147	All	Add extra decimal place to marginal percentages.
148	All	PictDoc should show modified dot.
149	All	Sali didn't like $\neg H$ for non-app values.
146	All	New about-box text.
