Steven,

Thanks for your email and I would be more than happy to put my position in writing for clarification.

My position regarding Home Depot:

I support the concern of the residents that Home Depot should not come to the Cambridge and Country Club area. I take this support one step further and say that I don't support the current request for rezoning to bring Home Depot and gas station to that area (as I mentioned at the meeting on Saturday). The proposed site is too close to residential area and we should not approve additional zoning for retail commercial. I plan on working with the residents to bring the right development to the community.

At our meeting on Saturday, I have provided information about the current status and history of this project to the group. I have also provided information on what the residents want to see in their community from the survey that was conducted by the local Chamber of Commerce in 2006 and suggested that the group contact the local Chamber to voice their concern about this project. I supported the "Scoping Hearing" as next step.

Ms. Frentzen,

I would be pleased to forward a statement of your position on the proposed re-zoning of the Cambridge and Country Club property to allow a large retail shopping center be built on it. If I have forwarded incorrect information, I will make it a priority to correct that error.

Bob Dorr told the president of our homeowners association that he did not support the development "because the infrastructure is not there to support it." What a politician! He knows darned well that the developer would promise to build the infrastructure. Sadly, El Dorado County residents have become accustomed to their elected officials saying one thing and doing another, I think we would welcome a fresh face who will say what she means and will deliver on her promises. I hope you can be that person.

If you are, I suggest you post a clear statement of your position. There are many residents who would like to hear from you. I promise to spread the word. Many of my neighbors who are opponents to the proposed development have been asking me which candidates are for it and which ones are against. It is obviously high on their priority list. I would like to be able to enthusiastically support a candidate who is for maintaining the character of our small-town and who will work to prevent large retail centers from bordering residential neighborhoods.

Thank you for writing me,

Steve Anderly

Steven,

The information that you are circulating about the meeting is inaccurate. I appreciate it if you can contact Don Nicodemus who organized the meeting on Saturday for clarification before further circulation of this information. Please let me know if you have any questions.

Sincerely,

Shiva Frentzen

I would like to help Barbara Smiley in her campaign, then.
