

EXPLORER HORSE & PONY RECORD BOOK

7 Year Olds

EXPLORER HORSE PROJECT

Requirements for Explorer Notebooks

Explorer notebooks should be designed as a "cut and paste" project that is appropriate to the member's age. Some suggestions are to use photos, hand drawings, magazine pictures or coloring book pictures.

Mentors and/or parents are encouraged to help but Explorers must do the work. Suggestions to encourage learning, personal experiences, fun and creative ideas are using the storybook format and/or scrapbook. We discourage including very technical information and narratives.

Remember children in the Explorer age range possess a short attention span and their motor skills are not fully developed. BE FLEXIBLE, HAVE FUN, AND BE CREATIVE.

THE EXPLORER NOTEBOOKS SHOULD REPRESENT THE MEMBERS' KNOWLEDGE, ABILITIES, AND EXPERIENCES ACCORDING TO THEIR AGE LEVEL.

COLOR THE PICTURE.

COLOR THIS HORSE FAMILY.

DRAW A LINE FROM THE NAME TO THE HORSE IT DESCRIBES.

Foal

Stallion

Mare

COUNT THE NUMBER OF HANDS ON EACH HORSE.

Horses are many different sizes. The size of a horse is measured from the top of his withers to the ground.

4

Years ago, men used their hands to measure horses. The average man's hand was 4" so this became the standard measurement when buying a horse. Today we still use the "hand" to measure a horse.

PONY

_____ hands

Ponies
Light Horses
Draft Horses

Under 4,2 hands
4,2 to 6,2 hands
6 to 8,2 hands

Under 58"
58" to 66"
64" to 72"

300 - 800 pounds
800 - 1200 pounds
1400 - 2300 pounds

DRAFT HORSE

_____ hands
