As of March 1, 1989, the New Jersey DEP Pesticide Control Program instituted a new program that requires us to provide customers with information about the materials that we will be using as a part of the pest control program for your property. We will apply the pesticides listed below to your property within 14 days of the date(s) listed:

## PESTICIDES TO BE USED DEPENDING ON WEED PROBLEM

BRAND NAME	CHEMICAL NAME
KARMEK	DIURON
TELAR DF	CHLORSULFURON
ROUNDUP	GLYPOSATE
ENDURANCE	PRODIAMINE
OUST	SULFOMETURON METHYL
	METHYLBENZOATE
TALSTAR	BIFENTHRIN

(WEATHER PERMITTING)

APRIL	1st, 15, 15th, 30th
MAY	1st, 15, 15th, 31st
JUNE	1st, 15, 15th, 30th

CONTRACT ENDS SEPTEMBER 30

**"DO NOT ALLOW ADULTS, CHILDREN OR PETS ON TREATED AREAS UNTIL SPRAY IS DRY"**

**\* CALL FOR FREE SPOT SPRAY \***

You will also notice that, following each application, at least one sign will be placed on your property that says TREATED AREA and contains the international signage for keep off the grass. We are required to do this as part of the new program. The sign(s) must remain in place for at least 24 hours following the application and no longer than 72 hours. As the customer, you should also be aware that you may request notification, in writing, of the exact date(s) of our applications and or a copy of the label for each pesticide that we will use.

We are also required to provide the following phone numbers:

New Jersey Poison Information & Education System: 1-800-764-7661 (Emergencies)

National Pesticide Information Center: 1-800-858-7378

Pesticide Control Program: 609-530-4070

"This number for pesticide regulation information, pesticide complaints and health referrals."

Sanitation as well as physical and biological control measures, should be considered as a part of a good pest control program. Pesticides may be used as another part of a good pest control program. Pesticides are substances used to control living organisms and vary in degree of toxicity.
