Coalition to Wage Peace – a Voice Against Violence

We, the community of the University of Colorado at Boulder, **condemn the bombing of Afghanistan**, by the USA and Britain, and the suffering and loss of civilian life it is causing.

We believe

◊ that military action will not generate a lasting peace – it harms national security by increasing the chances of further attacks, and risks further, tragic, loss of life

◊ that the current bombing is illegal and that action should not be taken without the agreement of the United Nations

◊ that America should pursue justice through due judicial process, not violence

We call on UCB and UCSU to publicly condemn the bombing
