

Arriman & Deckans

Solicitors

121 Midguard Terrace, Bath

Telephone : Bath 176

23rd April 1923

Dear Crimson League Member,

I am writing to provide you with an amended copy of the constitution and an initial document outlining the activities, Research and holdings of the Crimson League. Please find these enclosed.

The Record is far from complete.

If you were left a bequest whose text has not been included in the Record, and you are prepared to have that text as part of the Record, then please arrange a meeting with Miss Teal for transcription. Alternatively, forward the document to Miss Teal and she will return it by return of post.

It would be useful for the Record to have a photographic copy of those documents and items that are non-textual, such as the map and the necklace. Facility exists at both the London and Bath offices of Arriman & Deckans.

A permanent record of the activities of the League is almost essential for the continuation of the Research. Mr Vorster has agreed to write up the activities of his group last month. If one of the other group could similarly volunteer that would be most useful. Please forward transcripts to Miss Teal.

Finally, if there are any other documents or items that may be of interest to the Research then descriptions, transcripts and/or photographs can similarly be made part of the Record. Please forward to this office at the easiest convenience.

I look forward to seeing you at the next opportunity.

Yours faithfully,

Oliver Black
