Inside this issue:

Let's get Organized !

Team Enduro results !

Rumor Has it

Track Roadster Race ?

Organized Racing ?

If this month's swap meet is successful we'll schedule them more often. Stick to Vintage Stuff Only Please !

Several members including your author have purchased Vintage Track Roadster kits from The Race Place. Nothing certain yet, however it could become a monthly run class of car.

A stamped heavy brass chassis powered by , yes the famous "Royal Bobcat 36D" black foam rears with 3/4" o-ring fronts, all topped of by a '27 "T:" body ! The other optional body is a Super Mod. Oval Racing anyone ?

As this is being written, plans call for a TWO TEAM ASSAULT by the C.A.R.S. club in the NOVICE PARTNER event scheduled for Sat. April 7, 2007 at 7PM. Club members include Bill W., Mike D., Glenn O. and Pete L.

Your author has temporarily shelved his Barracuda skinned hard body racer project in favor of a '49 Ford Club Coupe that will be finished off as a jalopy racer thanks to the inspiration of member Ed W's '56 Ford jalopy on slotblog!

Annually May signals the opening of the Indianapolis Motor Speedway. Will we see some Indy type slot cars at the May meeting ? Can we schedule an oval track get together at the auction site ? Let's not forget Monaco's F-1 event usually held in May. How about some F-1 cars ? I know Armand's car really hauls ! Any others ?

Any interest in running modified coupe bodied cars at the auction site ? Champion has reissued several of the old favorites. Check 'em out !

Can the club support a 3Hr. Enduro on the Red Lightening with vintage type bodies ? Maybe headlights ...

About the Club

- * No Dues !
- * No membership fee !
- * No officers !
- * No Rules or by-laws !

An informal gathering of enthusiasts

Collecting And Racing Slotcars

The first controversial article perhaps ...

Several members have expressed interest in running organized racing events in conjunction with our meetings. This effort would

mean an entry fee, race director, and marshals. It seems however that the club has yet to come up with a full field of cars for any one particular class ! A discussion is needed !

The Race Place's enduro

turned into quite an event for the C.A.R.S. team as from the start we were playing catch up ! What with the only blown motor in the race being ours, and a "Too Tight " set up on the car hampering our progress we soldiered on to a fine 5th place finish !

We Need to Get Organized !!!
