### **A little about me...**

Like the great designer Milton Glaser said, "There are three responses to a piece of design - yes, no and WOW! Wow is the one to aim for." As a designer, I strive for the WOW in any concept I create. That drive has afforded me the opportunity to analyze myself and the industry, which has given me endless insight into what makes good design. Your ideas and my designs can only equal

**GREAT RESULTS!!**

**BUSINESS CARD**

**RESUME**

**LOGO DESIGN**

Understanding of design theories and of branding plays a big part in the successful creation of logos, along with strong knowledge of software. Being the creative mind behind the development of company branding and visualizing the use of the branding is something I find greatly rewarding.

**APPAREL DESIGN**

There's nothing more satisfying than seeing one's work on display, especially when someone is wearing it. Creating design with the intent to screen print them on various styles of apparel is a truly gratifying experience.

**PRINT DESIGN**

Page layout, whether it be for a magazine layout, third page ad, a flyer, or a poster, is the ability to bring images and text together to deliver an intended and specific message. Defining the look and feel of the design brings true joy to my love of design.

**PHOTOGRAPHY**

Understanding of light, motion, and camera function provides ample opportunity to artistically capture the world around us. Through landscape, still life, and portrait photos, I find pure pleasure in capturing life in still images and telling a story with my camera.
