CUS shows Jersey that we Care

Newark, NJ April 28, 2007 – On a beautiful Saturday morning sisters from Omega Gamma Graduate chapter and various local undergraduate chapters showed Jersey that we care about our communities. Over 20 sisters attended the event hosted by Jersey Cares, where volunteers came together to provide services at different locations throughout Newark.

The CUS team made up of sisters from Alpha, Delta, Kappa and NY chapters along with the members of the Omega Gamma Graduate chapter spent the morning helping out at the Martin Luther King Jr. Elementary School. The tasks included painting murals created and designed by the students at the school as well as providing them with a new basketball court and track.

Yasmin Cuevas, Omega Gamma Vice President, loved the experience because she was able to “see the expression on the younger students’ faces and hearing them say I can’t wait until I’m in 8th grade so I can see this painting everyday.”

Omega Gamma looks forward to working with Jersey Cares in the future. Jersey Cares is constantly looking for volunteers, to find out about ways you can contribute and give back please log on to their site www.jerseycares.org.

Omega Gamma will be participating in the AIDS Walk NY on May 20th. Please visit our team page by logging on to our website www.geocities.com/cusomegagamma. Join our team or donate, help us make a difference.
