America4Obama Admins Issue No. 1

Date 02/21/08

What other groups are doing

Obama Rapid Response is urging members to create on-line petitions asking local leaders to endorse Barack Obama for President. You can create a free petition for your own state at:

www.petitiononline.com/create_petition.html. Thanks to **ORR** for being kind enough to include a sample petition for members to use. Here it is:

Petition to endorse Senator Barack Obama for President

Today, we, your constituents from the great state of XXXXX, are writing to you concerning the upcoming presidential election in 2008. This election will, no doubt, be the most pivotal election in America's history as we currently stand at a crossroads. We face new challenges in the world today. Challenges brought about in large part by poor leadership. With the war in Iraq taking a turn for the worse, and violence in the region seemingly increasing each day, we need a President that will take a stand to bring our troops home. With partisan bickering at an all-time high, we need a President that will find areas of common ground and bring both parties together, to work towards common goals for the American people. With political action committees and lobbyists corrupting our government we need a President that will create an honest government; an ethical government that answers to its citizens.

Today, we are asking you to publicly endorse Senator Barack Obama for President of the United States of America. America is in need of a new direction and we believe that Senator Obama is the only candidate with the ability to take this nation in that direction. It is a new generation, a generation that should be built around the citizens of this country. We need a new type of political leader. One that is ready to put aside partisan politics and work towards making this country what it can be and what it once was. We need a President that can build bridges and not burn them. We need a President that is respected in the world and can bring sensible solutions to Washington. We need Barack Obama.

The residents of XXXXX are asking you to go on record and publicly endorse Senator Barack Obama for President of the United States of America.

Macs for Barack is collecting Apple computer equipment and donating it to the campaign for use along the campaign trail. If you have any computer equipment you wish to donate, please contact Phy One - Macs for Barack group administrator.

Families for Obama is currently seeking volunteers to head up local chapters for Families for Obama. If you are interested in organizing a local chapter in your region contact familiesforobama@gmail.com.

Also check out America4Obama's store at CafePress.com. Get your custom-made America4Obama tee-shirts and lots more Barack Obama merchandise. All proceeds - that is all proceeds AFTER CafePress gtheir cut - will be donated to Barack Obama's campaign. America4Obama will NOT make any profit from the sale of merchandise.
