BRIEF HISTORY

We, at DDX Construction, are committed to provide our clients with the highest level of service in supplying their building, design and construction needs. At the heart of our business is our desire to develop and maintain lasting relationships through honest, fast, and efficient service and a proactive management style, encouraging close and constant consultations with our clients throughout the duration of every project.

DDX Construction started operations in 2014 and established its first office in Quezon City. In 2016, the main office was transferred to Las Pinas City where its main offices are still located today.

The company's first project was relatively small, involving the installation of specialized frameless glass windows, doors and aluminium windows for the 8 residence units of the 2-Storey Dona Carmen Building in Quezon City in 2014. This was followed

by similar small projects within the area; until later on DDX contracted more glass installation works for some well-known construction development projects, such as the Land Cris Condominium in Parañaque City in 2015; the Puregold Branch in Imus, Cavite in 2016; and, the Luxury Flats San Juan in the City of San Juan, Manila in 2017.

To date, DDX construction has also completed various projects in other parts of the country, like Bulacan, Cavite, Iloilo, Palawan and Cotabato.

Under the dynamic leadership of its CEO, Charlie Qin, DDX Construction continues to add to its list of satisfied clients from throughout the country.
