

Skill: Adding and Subtracting Decimals**Investigation 1****Bits and Pieces III****First estimate. Then find each sum or difference.**

1. $0.6 + 5.8$

2. $2.1 + 3.4$

3. $3.4 - 0.972$

4. $3.1 - 2.076$

5. $8.13 - 2.716$

6. $5.91 + 2.38$

7. $3.086 + 6.152$

8. $4.7 - 1.9$

9. $9.3 - 3.9$

10. $5.2 - 1.86$

11. $15.98 + 26.37$

12. $9.27 + 15.006$

13. $5.9 - 2.803$

14. $15.7 - 8.923$

15. $4.19 - 2.016$

16. $14.75 - 6.9264$

17. $5.1 + 4.83 + 9.002$

18. $3 + 4.02 + 8.6$

Skill: Adding and Subtracting Decimals *(continued)***Investigation 1****Bits and Pieces III****Order each set of decimals on a number line.****19.** 0.2, 0.6, 0.5**20.** 0.26, 0.3, 0.5, 0.59, 0.7**Use the table at the right for Exercise 21–23.**

- 21.** Find the sum of the decimals given in the chart.
What is the meaning of this sum?

**Age of Workers Earning
Hourly Pay**

Age of Workers	Part of Work Force
16–19	0.08
20–24	0.15
25–34	0.29
35–44	0.24
45–54	0.14
55–64	0.08
65 & over	0.02

- 22.** What part of the hourly work force is ages 25–44?
- 23.** Which three age groups combined represent about one-fourth of the hourly work force?
