

Testimonials

Kristina and I have worked together since 2014. We have both worked within the marketing arena for quite some time. Kristina's primary talent is in graphic design and advertising creative. She currently performs various digital marketing tasks for TOCmedia. I enjoy working with Kristina for many reasons. Her aptitude for marketing combined with her attention to detail and dedication for client satisfaction makes her an ideal fit for any marketing or graphic design project. - *Tracy O'Clair, President/CEO TOCmedia*

I've known Kristina for more than 10 years and we have collaborated on several projects where I needed a 'true artiste' to lend a hand with hand drawn sketches and designs. Her knack for organized, effective and eye-catching design would be an asset to any individual or organization who needs a graphic designer to take them to the next level. I couldn't think of any designer I'd rather work with than Kristina. – *Cory Courtois, Owner/Operator Pages Plus*

Kristina has done all my graphic design for over 10 years. She has designed logos, flyers, pamphlets and many ads that go into the newspapers and newsletters. Whenever I need graphic work, she is the first person I call. No matter how busy she is, she always turns out my project in a very timely manner. She has a very pleasant personality and no matter how many changes I may want to add or subtract from a piece it is always done quickly and with a smile. She is self-motivated and I never have to call her to see how my work is progressing. I recommend Kristina to all my business associates and all have been thankful and pleased with her work. – *Randall Cook, Owner Radio Communications, Aqua City Scuba & Adventure Climbing*

Kristina's is helping Activity Maine reach the next level. She consistently turns basic information and material into intuitive marketing design for our advertisers. When we send Kristina material for print, web or social media design, she always over delivers! – *Stanley J. Rintz, Publisher of Activity Maine Magazines & Digital Media*

Lila and I have been acquainted with Kristina Roderick for several years, first coming into contact with her through her position as the Art Director for The Maine Sportsman magazine. Kristina's work has consistently been innovative and through her creativity, our business, Fins and Furs Adventures, has benefitted tremendously. Kristina has always been able to find the "niche" that we were searching for with our advertisements. Ours is a multi-faceted business which brings us into contact with potential clients with various interests. She has repeatedly demonstrated the unusual ability to present advertisements that appeal to everyone from the occasional sportsman, taking that once-in-a-lifetime adventure, to those who travel extensively and annually. Kristina's always bright, sunny disposition and dedication to her customers advertising successes have made our relationship with her a distinct pleasure. Lila and I consider ourselves and our business very fortunate to have had Kristina's abilities and skills to call on. – *Carroll & Lila Ware, Fins & Furs Adventures*
