

EMF Protection Products for You and Your Family

AC Electric/Magnetic Digital (Gauss) Meter

Accurately measures frequency range from 16Hz to 2Khz.

The Digital Dual Function eME3030B sets new standards for accuracy. Measures both AC Electric and Magnetic fields. Comparable performance features can only be found in high-end professional measuring technology. Developed and manufactured in Germany by GigaHertz Solutions measuring frequency range 16Hz to 2Khz.

Technical specifications:

Magnetic Field Range: 2000 nanoTesla (20milliGauss) -
Resolution 1nT (0.01mG)

Electric Field Range: 2000 Volts/meter – Resolution 1V/m

Accuracy: +/- 2% @ 50hz, 20 degrees Celcius, 45% relative Humidity

Frequency Response: Flat Frequency Response from 16HZ to 2000Hz at -2db

(Ground cable included)
