

THE NON-PARTISAN POLITICAL MOVEMENT
OUR 2ND REVOLUTION FOR INDIVIDUAL SOVEREIGNTY

INDEPENDENT VOTERS ALLIANCE
UNITED STATES OF AMERICA (USAIVA)

NATIONAL PURPOSE

Sovereignty will rest in every citizen as intended in 1776 in our Declaration of Independence. No power will be above the rights of natural citizens to life, liberty and the pursuit of happiness.

The ultimate IVA purpose is to give all citizens equal ballot access under federal election law and under election law in each of the fifty states. IVA participants will accomplish ballot access for and Election Day support of non-partisan candidates and issues. The IVA will publish ballot access petitions. Published petitions, available for download, will be petitions for *independent* candidates, minor political parties, and pro-reform referendum issues in each state. Each IVA certified petition circulator will choose which ballot access petitions to circulate. Successful petition efforts will give voters more ballot choices to initiate governance from the bottom up. Active citizenship, our participation, will lead to *government of, by, and for the people* at the local, state, and national levels.

The National IVA will support establishment of an IVA *non-partisan independent* coalition political party in each of the fifty states in agreement with state law in each state. IVA coalition participants will circulate petitions in each local IVA web page area to provide ballot access for all qualified non-partisan independent and minor party candidates for all national, state, and local elections for public office. IVA web pages will be established in every local electoral area in every state to provide local, state, and national communications and information for every IVA participant. **REQUEST your free no cost USAIVA.ZIP web pages file by Email attachment. CREATE AND MANAGE the IVA STATE WEB PAGES for your state. (The free OHIVA.ZIP is for persons who live in OH.)** ([TOP OF PAGE](#))

Each State IVA will consistently seek non-partisan coalition candidates who are in the moderate range on all political issues. The only requirement for all IVA participants and IVA candidates for public office is support for our democratic republic. *Liberty, justice, and a more democratic republic* are constant IVA goals.

Success depends upon participation by large numbers of non-partisan independents, who are a super majority, as IVA web page managers and as IVA certified petition circulators. The average IVA participant would need to donate ten to twenty hours of public service time per year to transform our political system. *Liberty and justice for all in a more democratic republic* is the overall IVA goal.

Continuous IVA ballot access as a *coalition political party* will be obtained in each state when supported by growth in the number of IVA participants. Continuous IVA ballot access will be maintained by petition or as otherwise provided by the provisions of election law in each state.

Continuous ballot access for all minor parties will be a required concurrent IVA petition goal in each state. IVA participants will work to place all non-partisan and minor party candidates on the ballot for the national offices of President, Vice President, US Senator, and US Representative to Congress in all fifty states. Each IVA coalition participant, individual voter or minor party, will then decide which Presidential pair, or other candidate, to vote for or endorse, as the non-partisan independent candidate most likely to win each public office. Each non-partisan independent and minor party public officeholder helps to eliminate the pointless bipartisan power struggle that now interferes with good government at all levels.

All IVA coalition candidates must support basic electoral and political reforms to return control of the political process to the American people.

Each IVA coalition candidate, usually one per public office, could be a non-partisan independent candidate with a well-defined individual platform on issues. If not, an IVA coalition candidate can choose to run his/her campaign on the well-defined platform of one or more of the minor parties, such as Green, Independence, Libertarian, Natural Law, Reform, or We the People parties — in alphabetical order.

Non-partisan independents and minor parties using IVA ballot access will agree to choose one coalition candidate from all possible candidates to stand for any specific public office, especially on the state and local levels. Other promising coalition candidates will choose to run for another office where an IVA coalition candidate is needed to provide an alternative to the monopoly bipartisan two-party system. All endorsed candidates will be selected to provide the best-qualified candidate for every public office in every election.

In the event the IVA *non-partisan independent* coalition political party has actual ballot access and can field a full set of candidates for public office, and there is still more than one candidate standing for the same office(s), the IVA will participate in primary elections as provided by state law to select one candidate to stand for the office(s) in the November general elections.

One central IVA coalition guiding principle is to provide opposition and alternatives to the monopoly bipartisan two-party system in order to win local, state and national level public office with non-partisan candidates who will provide government of, by, and for the people.

BRIEFLY, the IVA provides a moderate *non-partisan independent* coalition political party organization used by non-partisan independent voters to maintain open ballot access for all public offices with the least effort possible in each state. With state ballot access problems solved the non-partisan independent political movement can devote major time, effort, and money to the business of winning the election of non-partisan candidates who will represent every person in the moderate independent super majority. Elected non-partisan IVA candidates will govern for the common good of all citizens in all fifty states. [\(TOP OF PAGE\)](#)

The non-partisan political movement can become strong enough to overcome the bipartisan (two-party) left/right stranglehold on our political process. Divided, non-partisan independents will continue to be factional and marginal. Together, the non-partisan independent super majority can move toward a more *democratic republic* of, by, and for all the people of the United States. Support your local IVA. [\(TOP OF PAGE\)](#)

Ballot access petitions will be available on IVA web pages and other web pages for use by non-partisan independent voters. Freedom is participation in power.

Be an active petition circulator and Election Day participant.

Be an Active Citizen in your voting precinct.

A LITTLE EFFORT — A LOT OF LIBERTY

Welcome to the non-partisan political movement.

LEGISLATION: Develop and promote model legislation for ballot access and election laws for use in all fifty states. Model legislation must honor the equal protection provisions of the US Constitution in both the letter and the spirit of the law.
