Character
Antigone

Antigone is a family person. She don't want nothing to go wrong w/ her family. Antigone who ~~is~~ dedicated to her family tries to comfort Ismene and keep their family perfect. Ismene don't wanna break the rules and Antigone is trying to keep the family on top. At the end of murder if Antigone is still going to be a family person or is she going to be a person who don't care about her family.

Antingone

wild, family person

- MASK DESCRIPTION - FINAL DRAFT

My character who I chose was Antigone. My emotions on my mask represent her as being a good family person, which she wanted everyone to believe she's Ms. Perfect, and care for the family to make Ismene look as the bad one. Antigone, the wild sister who tries to be perfect and quiet, but the whole time she's a rebel. Antigone wants everyone to think she's Ms. Perfect, to get more attention than Ismene they both look quiet, but Antigone at certain points, which she's a quiet sneaky girl. Antigone personality isn't that strong but she's intelligent, smart, quiet, sneaky, caring and loving.

My mask is skinny and long but very creative and pretty at the same time. The colors on my mask are green, grey, goldish (brown), purple reddish orange around the eyes of Antigone with to show her left eye, another to under her right eye. My mask features are the colors, the over and under the eyes and the shape of the mask.

The mask represents me, Antigone and creations of the mask. I used my imagination and creation to make the mask unique with all different colors and creations. The features of my mask describes Antigone a different split personality as it quiet and sneaky, maybe and also. The colors of the mask shows emotions on Antigone split personality and her ways. My mask itself shows affection to my creation, the character by the colors and in all the face of the mask.

I think this project was very nice and creative to do. By following ~~the~~ the directions (steps) related to this project to create a mask of a character and the color, emotions of the mask and the character who it describes.
