Home Based Earning Opportunity

START EARNING UNLIMITED INCOME IN INDIA

What is Google AdSense and why would you want Google AdSense website?

It's a program by Google through which you plug into any website and Google shows some text advertising on the website. Whenever some visitor clicks on an Ad, the owner of the website (You) get paid for every click.

Express AdSense Cash [EAC] is a medium which helps Advertisers all over the world to promote their Business & Products in the Online Internet Market throughout the world. Today Online Internet Marketing is the toughest Business on the earth. Using Internet Marketing one can reach any customer in any part of the world. But there is a long queue of his advertisers & each wants that their Ad should come first in the online market.

The only way to reach customers is to put Ads in any of the search engine like Google, Yahoo, Alta-Vista, MSN etc. Today Google is the World's No.1 search engine. Daily Millions, trillions of Advertisers from all over the world use Google search engine to promote their Business and Products.

So Express AdSense Cash is in a contract with Google in promoting the Ads of their Advertisers.

What is home based earning opportunity?

You can earn unlimited income from your single website. Here we place their Advertising banners, Ads on your website.

What is the role of Google, EAC and we the customers? How everyone is benefitted from it?

As Google is the main search engine for any type of details, Google search engine is filled with millions of Ads on every topic. Whenever a visitor searches for something on Google site, millions of search results are displayed (you can check at www.google.com). Now the main part is whenever a visitor clicks any Ad & surf it for around 3-5 minutes, the advertiser of that Ad is charged some amount & that amount goes directly into Google's Pocket. It means Google get payment only when somebody clicks the Ad.

Now Google has given a big opportunity to everyone and anywhere in the world to earn the same amount from the Advertiser. Because now its not possible for Google to display trillions of Ads at a time, although each Ad is a bucket full of money. But Google can't take it unless someone clicks the Ad. So here that money is getting wasted in front of Google's eye which Google don't want.

So here Google is taking help from us, by displaying these Ads on our website, rest of the game is simple-visitors visit your website, where Ads are displayed by Google, when they click on it, Google will get money from those Advertisers. Now all this happened or took place just because of your website, that is you are helping Google in promoting the Ads. Google will not make you upset, for every Ad that is clicked on your website Google will pay your commission for that click which ranges from 0.20 cents to \$10 (means from Rs.8 to Rs.400).

EAC ROLE: - EAC plays a vital role between you & Google. To get started with Google is not an easy task. One should have the following things: (1) A personal website, (2) Knowledge and Idea to create webpage with html code and JavaScript's, (3) Credit Card, (4) Keywords which displays high paying Ads.

In India, not every person is having the above things, even though if you have all the above knowledge but keywords play a vital role in getting high paid ads.

So to avoid all these problems and to make the Google AdSense business acceptable to everyone EAC acts as a mediator. EAC provides you a ready-made website in your name with complete web designing filled with Google's Ads. EAC provides your Google AdSense Account's User ID and Password for checking your daily transaction and income details up to date in your account. Your payment makes in Indian Currency. With EAC you don't need any Credit Card.

In short EAC sets the platform for you; just you have to collect money as much as you can. No one will stop you.

Who else can start? Is there any age limit?

Anyone can start with basic knowledge of Internet surfing & English. There is no Age limit.

Yes! Wow that's quite interesting tell me how to get started with EAC?

Good! To get started is very simple to fill-up the registration form and send it to us alongwith registration fee.

Why should I pay for the registration fees?

EAC takes **Non-Refundable Registration Fees** Rs. 2500/- (\$100) for providing you a website + designing of your website loading of interesting articles + daily account maintenance + making your transaction in Indian currency and different 6 special softwares for advertising your website + 3800 free classified websites + 1 crore e-mail ID + e-mail Blaster Software + Three Google AdSense Books and step by step working instructions.

Is the business a genuine one? Am I receiving my payment in time?

Yes, of course its genuine one, no doubt about it. Here you are working for Google World's No.1 website for search. Google is having its offices in India, too. There won't be any problem in payment; you'll get the payment in time.

We give 100% guarantee about it until and unless you work as per the terms and conditions and the working policy of Google and EAC.

The business is legal, because it helps everyone in the market. The advertisers are happy because their Ads are being viewed by millions of viewers across the world. Google gets their money from Advertisers for their support & atlast we get our commission from Google for our work.

After getting my website with all Ads on it what will be my job?

As soon as you pay the registration fees within 20 working days we'll create your website with full designing and complete Ads on it. We'll create the full money making platform for you. Now you can start making money 24 hours a day. All you have to do is get as much click on Ads as you can on your website. Your job is only to promote your website. How? We will teach you. Your website promote by different 6 types of softwares provided by us. You will take efforts for more and more visitors visit your website. Means you advertise your own website. When visitors visit your website it means more earning for you.

How should I make the Advertiser feel that my click is a genuine click?

This is very important, to make your click look genuine is very simple. On your website when ever a visitor clicks any Ad, a different website will open as per the Ad content in the same window, next what the visitor has to do is just surf that website for at least 3-5 minutes. It means the visitor spends at least 3-5 minutes that's it... And you are paid for that click. So isn't it very simple, exciting & funny? Of course a bucket full of money, too!

Which types of earning?

Suppose 100 people visit your website everyday, minimum 50 will be clicked on google ad then you will be paid for 50 clicks' amount from Google. It will be deposited in your account on the same day. You can check it.

Can I click my own Ad from my personal computer?

No, you can't click Google's Ad from your own computer. It is cheating with Google.

As it has been mentioned this is a 100% genuine and world's number 1 business today and you are working for top rated company. Google pays 100% surely until and unless you go as per their conditions. Google is having very hi-tech technology and server that can easily detect if somebody is cheating Google. Google only wants is a genuine click from your website that's all, if you maintain this, then there won't be any problem in generating 1000's of rupees daily.

What is meant by a Genuine Click?

Every one wants to earn more and more, which can be easily done by clicking Ad's. But here if you only go on clicking your website Ad's then you won't be earning that much money. Because what happens when you click any Ad on your website your computers IP Address (for ex. 59.142.102.1) gets registered with Google & you can't change your computers IP Address. So when you repeatedly click Ads from the same computer, same IP Address will get registered again and again and Google will come to know that here Ads are clicked purposely to generate money. So there are chances that Google will close your Account.

Actually what happens when a click is made from a different PC a new IP Address gets registered with Google and instead of Rs.20/- you will get Rs.150/- . Even if any visitor visits your website and doesn't click then also you will get paid, because that Ad has been viewed by someone, more details of this after getting registered with EAC.

Can my friend click Ads on my website from other computers?

Yes, your friend can if a different Ad is clicked from a different computer it will be counted as a genuine one and you'll get the money in your account.

What if somebody else visits my website from a different place?

There is no problem, and it's very good, the more the Ads are clicked on your website by any one and from any part of the world; more amount will come to you only. (You don't tell your friend that to click Google's Ad). For more details read the topic: MULTIPLE EARNING below.

Can I ask my friends, relatives, colleagues to visit my website and click Ad?

Yes, of course you can, as I said earlier more the Ads are clicked on your website more will be your earning. Let the Ad be clicked by anyone. You can even earn Rs.10,000/- in a single day.

How much money will I get paid for every Ad clicked on my website?

The amount per click is fixed by the Advertiser. The more the advertiser put money the more frequently his Ad will be displayed. Some Advertisers put Ad ranging from \$1 to \$10 [means Rs.40 to Rs.400]. Amount fixed by Advertiser is not visible on Ads.

Do I need Email Id?

Yes, you need one E-mail Id which you can get free from EAC. It is for delivering you with immediate daily result and income details and to avoid bulk and junk mails from other parties. You can use that Email ID for your personal use, too.

I liked this business very much, and like to earn more & more. Just give me a brief outline about my monthly income and different ways to get more clicks. What is the estimated monthly income?

Suppose visitors click 25 Ads daily.

For every Ad imagine you get paid atleast Rs.8. Than $25 \text{ Ad} \times 8/- = \text{Rs.}200/-$ daily.

So monthly income will be (30 days) = $\text{Rs.}200 \times 30 = \text{Rs.}6000/-$ *But this is for lazy men*

For hard working people's website visitors click 50 Ads daily.

For every Ad imagine you get paid atleast Rs.8. Than $50 \text{ Ad} \times 8/- = \text{Rs.}400/-$ daily.

So monthly income will be (30 days) = $\text{Rs.}400 \times 30 = \text{Rs.}12000/-$.

Note: The above calculation is made with consideration of minimum Rs.8/- . You can earn Rs.8 to 400 per click.

There are different ways to earn money (1) Getting your Ads clicked from other people from any country. (2) By pasting your websites Ad at different Blog website and search engine by using our special software. (3) By pasting your websites Ad at different free classified websites, we will provide you 3800+ websites for pasting your Ad. (4) You can send your ad matter by email to anyone. classified section. (6) You can ask your friends', relatives by phone, mail, online chat to visit your website. You can try all the above steps. You can only promote your website by using different ways then people will visit your website and similarly increase your earning. You can use only your home computer. This work is not allowed in any **CYBER CAFE**.

Important: (1) You have not permitted to click your own website's Google Ad.

Now let's go to the second way of earning from Google without ever clicking a single Ad.

This second way is very simple and more profitable than the above. Now you'll think that if no Ad is clicked how the money will be generated, that's very simple as your website will be having details of articles which will attract visitors. As we'll be providing you a list of 3,800+ classified websites, Ad Blaster software using these softwares, you can promote your website. Internet is very wide, just imagine on average if 1000 people visit your website daily and from that at least 800 people click that too one Ad each then in a single day your website will have 800 Ad clicks, that too, all genuine clicks.

Benefits: Here there will be no hard work from your side, no internet charges, monthly income will be 10 times more compared to the above one. After all, everything is in your hand, we just gave you the techniques on how to generate more money.
