You receive mails and new opportunities everyday and read mail order publications and other periodicals about new businesses, MLMs and several programmes and products. If so, I am sure that in your recent mails, you might come across about **NFB-1161 Plan** - a special programme for the welfare of the blind. This new programme is organised by the **National Federation of the Blind (NFB)**, Admin. Office in Bahadurgarh (Haryana) and Regd Office in New Delhi. To provide several welfare activities for the poor blind and disabled people in the country, the Federation needs to raise funds from the general public, hence they've started this **NFB-1161 Plan**. If someone who donates something for the blind, he or she joins the programme and is entitled to get very good incentives from the Federation. The point is this - *if you donate something in the name of the blind, you can enjoy incentives, even a good lifelong income from the Federation without any further efforts.*

The popularity of this network programme is increasing day-by-day because of two pleasing tastes: **its strong establishment and attractive financial benefits of the plan**. So, here we bring it for you to lift your financial status forever.

In everyday life, we come across lots of network programmes, MLMs, Quick-Rich-Schemes and other good looking programmes. Some of them are originated from India itself while some others are from Multi-National Companies (MNCs) coming into the country. Few among them are started by a single person from his home, designed on his own and run it almost on his own. Quickly they spread their programmes across the country, then disappeared soon after some time. I think you've seen it actually! *Lack of financial security, unnecessary productline, organisational irregularity and, more importantly, lack of possible monetary benefits.* Most of them started their programmes without any legal formalities. Before death, they allured people and forced to join. Some time later, as we see frequently people could not recover even their amount invested. Those programmes died and no longer returned.

On the contrary, because of the morality and good income benefits of **NFB-1161 Plan** now more and more people are rushing to join it. Because of its increasing popularity, our just senior member, S Ramachandran of Coimbatore has recently reached the income mark of Rs. 1 lakh per month within a very short time. **THIS AMAZING EVENT CAN DIRECTLY COME TO YOU IF YOU JOIN NFB-1161 PLAN THROUGH OUR TEAM.**

The **NFB** has obtained all legal formalities and all its running programmes and projects are 100% legalised. The Federation is affiliated to **World Blind Union** and its projects are aided by **Ministry of Social Justice & Empowerment, Govt. of India**. Its accounts are controlled and audited by Govt. of India. The Federation has a brilliant history shared with from Late PM Smt. Indira Gandhi to former PM Shri Atal Bihari Vajpayee among respected personalities of top offices including presidents of India and many eminent international personalities. Running from the heart of India, it is a well-established, strong organisation with eventful past since its inception in 1970. Branches of the Federation are all over the country serving for our ill-fated visually impaired people. **Now, NFB is No. 1 in the industry in India.**

Don't join any network programme of high investment. You'll face serious problems in generating downline to downline in the long run. Similarly, also don't join any of too low investment. You will require the same amount of time and labour in both but without much earning for long time. **It's a point to look into.** We recommend a programme of a financially strong organisation/company to join at an *affordable fee* to suit for most people. **NFB-1161 Plan** is that to join! It is a new programme after NFB-1000 Plan.

So, you will have a high potentiality of success. The programme has also a good morality - **"Donate Something and Earn Everything."** Donate a fixed amount ONCE and spend sometimes with the programme, then the Federation pays. The more you work, the more you get (*if you do so!*). Beside several other benefits, the Federation also offers an opportunity of getting Rs. 1,00,000/- insurance *in care of* your life.

Life is full of hardships - debts, disappointments, socially parting etc. Everyone needs money. So, we should do something for a smiling future. The beauty of **NFB-1161 Plan** is **ONCE YOU COMPLETE THE PERFORMANCE YOUR LIFETIME MONTHLY INCOME IS ASSURED WITHOUT FURTHER EFFORTS.**

In case you joint it already, that's excellent! Enjoy the benefits. If not so, you are welcome to this India's greatest network programme. Join us as soon as possible and live a respectable life with a handsome lifelong income.

NOT SO MUCH TO DONATE! NOT TOO HARD TO COMPLETE THE PERFORMANCE!! We are always there in support and co-operation with our team for you till you succeed, once you join it. Now for the amount to be donated and all about this opportunity, continue reading on the next page. Read each and every word slowly, very carefully once to the end. If you're confused somewhere, go there and read slowly, then slowly all over again. If you have any question, feel free to call, email or write to us without delay.

This contribution of you would be very useful for the Economic Rehabilitation of the people with visual disabilities as they would not be a liability on the society.

Please join this "Special Programme for Welfare of the Blind" as a responsible person of the society and get handsome incentive. Ask more and more people to join this programme and participate in Social Development Schemes.

S K Rungta
Advocate (B.A., L.L.B., L.L.M.)
General Secretary,
National Federation of The Blind

Population of visually impaired persons has been increasing which is evident from the latest Census Report. Further, the availability of financial resources with the Government is not compatible with the resources required for running programmes and schemes for rehabilitation. Moreover, the Government has categorically stated in the National Disability Policy that the Government will not be able to provide financial support to any project beyond ten years. Keeping all this in view and in order to fulfill its objectives and run various welfare programmes, the Federation has been implementing a programme called "Special Programme for Welfare of the Blind" to augment its financial resources. This is a unique programme where one can devote his energy for social work by soliciting donations for the Federation on one hand and on other hand, earn his livelihood through incentives under the programme.

One may join this 100% legal programme by donating Rs.1161/- (One Thousand one hundred sixty one Only) (NON-REFUNDABLE) and get attractive incentives against the donation solicited by him or by his team. Thus, while the donor contributes towards the self-reliance of the blind individual through his/her valuable contribution on one hand, he/she also earns incentives by soliciting donations from others and by enrolling them in this programme. Donations made to the Federation are exempted Under Section 80-G of Income Tax Act. Additionally, following are the sources of incentives as a result of ones efforts for getting donations from others under the programmes.

The National Federation of The Blind came into existence in the year 1970 with the philosophy "Let the Blind Lead the Blind". The objective for which the Federation was founded include to strive for equality of opportunity for the Blind in the field of Education, Training and Employment etc. The Federation is serving the blind community through its various Welfare programmes run by 51 branches/affiliates and units throughout the country. It has total strength of membership of over 25000 and it is affiliated to World Blind Union.
