

FBI Mails Scare Postcards

Pictured on this page is a post card which has been mailed out to Klansmen all over the South. We have received reports from Klansmen in Alabama, Georgia, Florida, North Carolina and Louisiana about receiving these things openly through the U. S. mails. We have run into a few FBI agents who are the type of 'fanny boys' who would dream up this type of trick.

FBI agents and paid pimps go around to Klan rallies and meetings to write down license numbers of cars. About a week later they mail the auto owners one of these post cards. Of course this is a lewd and underhanded trick to try and intimidate the Klansmen into quitting the super-secret organization.

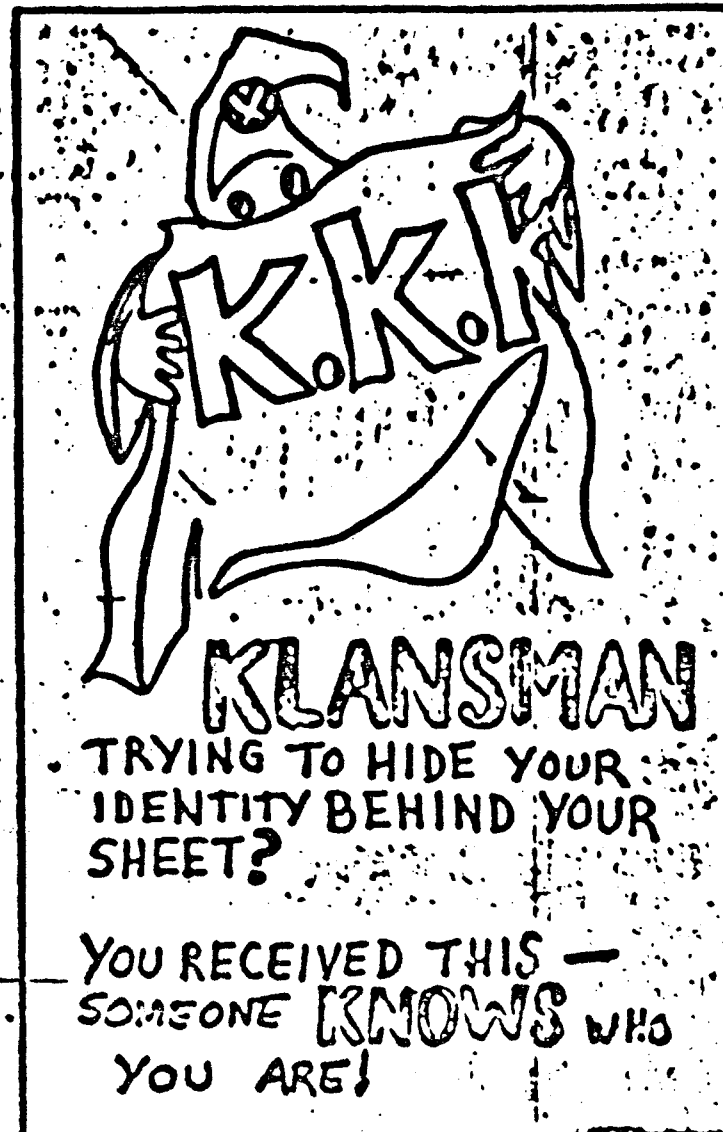

The Oct. 1, issue of "The Southern Review" published in Jackson, Miss., reports that one of its reporters saw a stack of these unmailed post cards on a desk in the local FBI Headquarters. KKK leaders have been charging that FBI agents have been behind this illegal harassment, but have been given the usual FBI "no comment" run around. It is against the law for FBI agents to use taxpayers money to send unsigned harassing post cards through the U. S. mails.

They do not treat the members of Negro and communist organizations this way, but are hell bent on breaking up all White Supremacy groups. The best way to combat these race-mixing federal snoopers is to keep them off your property and NEVER answer any of their questions. The best way to stop this post card business is to have members and supporters park their cars on private property and then post guards to prevent any FBI punk or pimp from copying down license tag numbers. With this

White Blacklash growing more powerful by the day, these federal rat flank agents will become more desperate to stave the tide of the right wing. If you order

them off your property in strong enough language — they will not be back. Fundamentally they are a bunch of cowards. That is why they always come in pairs.
