

## **REALITY OF LIFE**

*Life is a real event. It is something that happens. It takes place. It is an event traceable to a cause, and applicable to the whole human race.*

*Life has its commencement...actual existence for each of us, and that is true. Life's beginning however is not something we ask for as if it is our right or due.*

*Life must not be taken for granted ...when it began it became a fact. Life is an occurrence, which is irrevocable, something that you and I cannot retract.*

*Reality of life is living...it is the vital quality which makes it go. Events, occurrences, and conditions are ingredients that make the living grow.*

*Success and a good life will be determined by what we do. Knowledge effected with wisdom and enthusiasm will produce the proper affect in life for you and me.*

*A good life is a blessing ...but that's not to say there won't be obstacles along life's way. So let us be the servant that we must be, and we shall receive that promised reward someday in eternity.*

*By: William T. (Bill) Richardson, Jr.*

*PS: Some words of a song, which I love:*

*"Sing them over again to me, wonderful "words of life";  
Let me more of their beauty see, wonderful words of life..."*

*I'm willing to say, that you have probably sung those words! God bless... I love you!*
