

TIME BEGATS CHANGE

Time was, when she was a youthful twenty-three, a wonderful and beautiful woman living in Madison, Tennessee!

Time was that a Sailor man was assigned duty in Nashville, Tennessee, and he was blessed to meet the beautiful woman from Madison, Tennessee!

Time was that no time was wasted and that Sailor man talked the beautiful woman from Tennessee to say the BIG words....."Yes, you can marry me - I want to marry you"

Time as you can see, "**BEGATS CHANGE**", and change driven by change gets the job done!

Time was and change was getting things done and the old time proverb goes something like this, "Nothing is done until it is done"! Which is akin to the saying, "It not over 'til it is over"!

Time was and this Sailor Man, that's me, and my duty assignment in Tennessee was done; Think about it..... Proving the thought that nothing is done until it is done!

Time was and the first seed was planted in the good year of nineteen and fifty-three; that's when Baby Ruth's belly begins to grow!

Time was and William T. # III was born in the good year of nineteen hundred fifty-four; more proof that "Time Begats Change"! The country folks say, "That just goes to show you!"

Time was, and there was born to Bobbie & Bill two baby girls and that increased our family for a total of two boys and two girls equals four. There again another way which time and change is the formula or causes in making things grow.

Time was and changes continue to happen to me; beautiful blessings which begat memories and they have been recorded in what I call "My Writings".

Time was, and if changes come as they have of late, and my batteries continue to make my facilities operate; I really hope (with my fingers crossed behind me) it won't be too late!

Time was and continues to be and I'm still doing the best that I can, however the 'News Media' tells that the Universe is out of order, out of control, and it is time to get out of town 'cause there is no need of hanging around!

Time was.....and my two cents' worth has not ended and it has not been counted as yet; it is safe to say, "It does not go as far as in yester-year!"

Time was and politicians say that change is in the air, "we can smell it" they said! This philosophy does not add...or win the game, however if at first one does not succeed, wise is he to try again!

Time was and it can be said, knowledge with ingenious use makes up the mix; and promote on a daily basis of Christlikeness, then by keeping on keeping on is how battles in our lives are won!

Time was and it is the need for man, woman, and child to grow. Necessary for each to do that which is commanded; nothing is done until it is done. Know this also... if you don't try you can't fail. To fail is not the goal; just remember the sum of one's life is his/her actions!!

William T. (Bill) Richardson, Jr.
