Student Placement

If you have information that you think might be relevant to your child's classroom assignment for the upcoming school year, please stop in the office for a form to fill out and return.

Our primary responsibility is to create classes that will maximize learning for all students. Each year the staff and administration give a lot of time and thought to balancing the class lists for the next year. We consider such factors as a balance of boys and girls, matching teaching style with children's learning styles, avoiding certain student combinations, distributing and clustering students who need special services, class size and information from parents.

We will use the information you provide to help us make the best possible placement for your child. Requests for specific teachers will not be considered. Thank you for your cooperation and understanding in making these important decisions.

5th Grade Parent Info

Our Board of Education has approved a program of instruction in human growth and development for our fifth graders. As a component of this program, introductory lessons in reproductive health are offered to students. A district committee composed of parents, clergy, teachers, and administrators developed this component. Curriculum and films that are used will be available and shown for all district fifth grade parents at Cedar Crest on May 8th at 6:00 p.m. and at Lincoln Heights on May 10th at 6:00 p.m.
