

Never Leave Children Unattended in or around Vehicles... Not Even for a Minute

Many caring and responsible parents have left their children alone in a car, not realizing the risks involved. Some parents think it is okay to leave a child alone in a car while they run to an ATM, quickly drop off dry cleaning or while dropping off another child at school. The results of leaving a child unattended in or around a vehicle can be deadly.

- The temperature inside a car can reach deadly levels in minutes
- Children can set the vehicle in motion
- Your child can be abducted
- Drivers have difficulty seeing small children when they back up

Remember...

A car is not a toy...

A car is not a playground...

And...

A car is certainly not a babysitter.
