How to Recruit Thousands of Daily Visitors to Your Website for
FREE.....AND GET PAID FOR DOING IT!

Okay, now let's get back to my secrets to generating **explosive internet traffic** for **FREE**, and **getting paid for doing so** at the same time!

By the time you finish reading this report, you will be banging your head against your computer monitor, wondering “Why on earth didn't I think of this?!” I will tell you why, and it's very simple: **Most of us don't think in terms of effective advertising when new to internet marketing. We learn through trial and error!** Even those who have been at this a while don't always realize immediately that their marketing efforts are not bringing the results they are after **until they go broke trying (unsuccessfully) every avenue of advertising known to man and still do not make any real profit!**

Perhaps they make just enough money from their marketing efforts to keep them coming back for more, trying this and trying that, each time believing that “this time the dam will burst and the money will come flowing!” -- only to find themselves depleting their advertising budgets once again! Answer yourself honestly, has that happened for *you* yet? I am willing to bet **not**, or you wouldn't be reading this report.

The secrets I reveal to you in this report are responsible for netting me a healthy income of (on average) **\$1,200 per day**, and could do the very same for you if you put them into practice for yourself immediately! Could you live off of \$1,200 per day? Most people could! In fact, for most people, that sum of money would change the entire course of their lives! I know it certainly has for me! This one little **FREE** report very well may be responsible for changing the direction of your life and your internet marketing, so it is critical that you read the contents very carefully, taking time to really absorb the information. Feel free to read it over and over if necessary, until you fully understand the methods I am going to share with you that bring thousands of eager-to-buy visitors to each of my websites on a daily basis.

Before we dive head-first into the solutions to your website trafficking problems, we first must take a brief look at the ineffective advertising methods you may be currently practicing. The purpose for this is so you can clearly understand how this internet marketing game really works, how the “big players” are making their money, and the reasons that what you are currently doing in your marketing efforts are not working to bring you the profit that you desire.

Ineffective Advertising

When I first hit the `Net, I tried every form of marketing on the internet known to civilized man. The only thing I gained for the longest time was a headache, an inbox FULL of spam, and a shaken sense of belief that it is really possible to make any money online. Boy, if I knew then what I know now...! I nearly broke the bank trying to “make it big” online, and when that didn’t bring me results, I resorted to all kinds of “free marketing” attempts by posting ads on free classified sites and FFA pages. I probably don’t even need to tell you – those advertising attempts brought me NOTHING but frustration. And then, I discovered the secrets I share with you in this report that “broke the dam” and brought so much traffic to my websites that I wasn’t sure that my server could handle the stampede!

Don’t get me wrong – I am not complaining and I have never since looked back! My income has just continued to skyrocket since I put the advertising methods contained in this Special Report into practice for myself. They could do the same for you as well, if you put them in place immediately!

Before I disclose my secrets, however, I will review with you what I have found to be **ineffective, expensive, time consuming and very stressful** in the way of advertising methods that brought me nothing of value in return. I am hopeful that by comparison of this information to your own current marketing efforts, you will recognize

“Classified Secrets to EXPLOSIVE Internet Traffic!”

FREE.....AND GET PAID FOR DOING IT!

what you may be doing to keep yourself from making any real money in your internet business.

I. SEARCH ENGINES

Do you have a top ranking in all of the search engines? Of course you don't! And why is that? **Because the search engines are strategically designed so that no single website can be listed on the 1st page of all engines under all the keywords you choose.**

If you have heard that the search engines are the best, easiest and most inexpensive way to advertise your website, my friend, you have been **SADLY misinformed**. Chances are that you already know this is not true from your own level of frustration and drained advertising budget just from trying to get premium placement of your website on all of the major search engines. While pay-per-click programs, such as **Google Adwords**, can be **very** effective because they allow even the “small guy” to place his website in front of millions of search engine users, they can also be incredibly expensive and burdensome to the internet marketer who is not yet generating any **real money** due to competitive bidders on your relevant keyword selection! Now, there are some methods through which search engine submission can be **very** effective, and we will review those later on in this report, but for the most part, if you are trying to get your website to the top of each of the major search engines manually, you are wasting your time and are very likely going broke at a rapid pace.

Think for a moment about what search engines are really designed for. A search engine is the internet version of the yellow pages in your local phone book. For a person trying to find something on the net, obviously they just go to their favorite search engine and type in what they're looking for and press the enter button and **“Presto!”** You are given a list of websites that are a close relationship to what you are looking for. *Yeah, right!* Such would be the case in a perfect world! Not only are there thousands of different search

“Classified Secrets to EXPLOSIVE Internet Traffic!”
How to Recruit Thousands of Daily Visitors to Your Website for
FREE.....AND GET PAID FOR DOING IT!

engines on the internet which all produce different results, what you really end up getting is **tons of advertising from other marketers** who are also “trying to make it big!” The competition is mind-boggling, and the chances that your ad will be clicked on and read are very slim **unless you are paying a fortune for your listing!**

You have probably heard all of the hype that search engines are your ticket to unlimited **FREE** traffic to your websites, and that is simply a bunch of malarkey so put that idea out of your head right now! While the search engines **can** provide you with more traffic than most other forms of advertising, the price you pay to get that traffic can put you in the poorhouse nearly overnight. The more marketers that submit their sites to the search engines, the more your site becomes “just another advertisement” in a never-ending cosmos saturated with advertisements for yet another “must have” product. The internet market is growing daily by the hundreds of thousands, and this can put search engine advertising completely out of reach for you.

If you’ve already tried to get a website listed on a search engine, then you are probably aware of the stress and failure that they can bring to the internet marketer on a limited budget who is just trying to make a buck. Again, I have discovered a solution to the search engine dilemma, and **one from which you can profit richly!** We will touch on this later, but for now let’s move on to review more of the common, yet ineffective methods of advertising.

II. EZINE ADVERTISING

Ezines, abbreviated name for “electronic magazines” can provide for effective advertising, however, this form of advertising can be **incredibly expensive**. The cost to advertise to a targeted audience in a good ezine, one rich in content and not just a cluster of marketer’s advertisements, can run you an estimated **\$2 to \$7 per visitor!** Further, statistics reveal that only 8 out of approximately 100 people who visit your website from an ad in an ezine will buy, so as you can see, this form of advertising can be very costly with minimal return.

The 3 different kinds of ezine ads are:

- 1. Classified ads.** Classifieds usually appear with other ads just as they do in traditional print newspapers. Classifieds are usually limited to around 4 or 6 lines, and they are cheap. I've never had good results with classified ads in ezines, and I don't recommend that you waste your time placing them.
- 2. Top Sponsor ads.** These ads are similar to classified ads because they are also small (about 4-6 lines). The difference is that top sponsor ads are displayed at the very top of the ezine, so they are seen first by all subscribers who open and read the ezine. There is a better chance of your ad being seen as a top sponsor ad than just about any other ezine ad, however, with this benefit comes the associated expense. Top sponsor ads will cost more for you to place, however, they are recommended over classified ads if you choose to engage in this form of advertising. Still, ezine advertising is not likely to make you rich. In fact, you could go broke placing this type of ad!
- 3. Solo ads.** This kind of ad is sent out alone. They don't appear in the ezine at all. This has its benefits, although you run a major risk that the ad simply won't be read at all and will simply be sent to the reader's "trash bin."

III. OPT-IN LISTS

“Opt-In-lists” are one of the earliest forms of advertising in internet history. An opt-in list is usually just a bunch of people that share the same types of interest. Email is the ideal way for them to exchange ideas and share information related to the topic of the opt-in list. Because the subscribers have chosen to be included on these

"Classified Secrets to EXPLOSIVE Internet Traffic!"
How to Recruit Thousands of Daily Visitors to Your Website for
FREE.....AND GET PAID FOR DOING IT!

lists, they have agreed to receive email from the other people on the list.

There are two different kinds of opt-in lists: The free kind and the paid kind, commonly referred to as "Safe Lists." In the past, free opt-in lists were highly effective and you could expect some good response from them, however, that is no longer the case. Sadly, this type of free advertising has just become a thing of the past and completely ineffective. They don't get many responses and will not serve to create an income for you.

Further, you should realize that this type of free marketing source only attracts individuals **who are in search of FREE information!** The proverbial "freebie seeker" is **NOT** the type of traffic you want to attract in the first place, as they are highly unlikely to purchase your product or service! People who are not willing to invest in themselves and/or their own business are even less likely to invest in yours by purchasing your product or service that will help them succeed in their business! ***This is precisely why they make no money!*** This is a good rule of thumb to go by, as **there is always some expense**, albeit nominal, to running a successful internet marketing business. You need to keep this in mind to fully understand this extremely effective system I have discovered and the reason for its effectiveness in creating the solid, **high six figure income** that I enjoy in my internet business today. I'm sure you have heard the term "Nothing worth having in life is free." There is a great deal of truth to this statement, but fear not! We will get to solutions to this problem in a bit.

IV. FFA and CLASSIFIED AD SITES

"**F.F.A.**" is an abbreviation for "**Free For All.**" An FFA site is simply a website where you can go to "post a small advertisement for your website." The ad is a one-line "headline," which is a hot link to your main website. In other words you are "posting" a small, one-line ad that is a link to your website.

- 12 -

“Classified Secrets to EXPLOSIVE Internet Traffic!”

FREE.....AND GET PAID FOR DOING IT!

Most FFA websites have several hundred of these listings. In some cases they'll have thousands of these listings. Since it is free for all to post their ad headline on these sites, they became known as Free For All, or the abbreviated term, “FFA sites.” “Classified ad sites” and “FFA sites” are basically the same, with some minor differences. On Classified ad sites, you can actually include more of a “classified” type advertisement consisting of a few lines of text, together with your hyperlink to your website. They are both a free form of advertising, and can result in your ad becoming lost amidst the thousands of other ads on these sites. Plus, your posting to one of these “FFA sites” only remains on the page for approximately **one hour**, and is then rotated off the page when others come along and post behind you within the same category. Needless to say, it is very ineffective and not likely to bring you any meaningful profit to your business. For reasons that I simply do not understand, the majority of the internet marketing community has not yet figured this out, and thousands upon thousands of people continue to post to FFA sites every day. In my humble opinion, it is about as effective as nailing Jell-O to a tree, yet people just keep on wasting their energies on this kind of advertising and making *no* money! I just don't get it!

What Works!

At this point, you are probably wondering “Okay, **then what on earth DOES work**, Stephanie?” Well, let's look at this FFA thing just a little closer.

You might be wondering why anyone would bother going through the hassle of setting up this type of FFA website for you and hundreds of other people to post their ads if it's free? How do they make any money? It works like this: As a condition to you posting your ad on one of these FFA sites, **you must first agree to receive an email confirmation. You are required to click on a confirmation link inside the email which proves that your email**

address is, in fact, valid. This email confirmation may contain advertising inside it from the FFA site host. Now, if you think about it, this is an **ingenious form of advertising** for the FFA site host! Why? Because it is a **requirement** for all who wish to post at the site that **they open the confirmation email sent to them by the FFA site host before their ad will be placed.** The following language was copied directly from one of these “confirmation emails” to demonstrate for you how this works:

Thank you for adding your link, <http://TrafficExplosion.eBookCosmos.com>, to our FFA Network.

We hope our network will bring you a lot of traffic.

In an effort to avoid spamming and provide only the highest quality advertising, we are asking that you confirm your post by CLICKING ON THE LINK below, before we can add your link to our network.

This will help to avoid mistaken posts, or the possibility of someone else using your address in our system.

In return, the owner of this FFA page will be sending you an official invitation to review their business or services.

We hope you will find this to be a valuable service and will return to <http://www.trafficwave.net/ffa/nojobneeded.html> to post often!

Essentially, the FFA host is receiving **GUARANTEED** massive advertising by including their own advertisement in the confirmation email! Further, the individual posting the ad must confirm his or her desire to post by clicking on a special link and then **entering a confirmation code** provided within the email to confirm that they are a live human being and not a software program. **This is an automated way to gather double opt-in leads who are agreeing to receive your ad, and for FREE!** Do you know how much double opt-in leads cost?! I will tell you: **an arm and a leg!** By using this system, you are creating them for **FREE!**

“Classified Secrets to EXPLOSIVE Internet Traffic!”
How to Recruit Thousands of Daily Visitors to Your Website for
FREE.....AND GET PAID FOR DOING IT!

Once the individual posting to your FFA site has clicked the confirmation link and entered the special code, they have made themselves a **double opt-in lead**. They are also fully aware that, in exchange for posting to your FFA site, they have agreed to receive an official advertisement from you.

Within a short time of clicking the link contained in the confirmation email, that individual receives a “confirmation” email which is automatically generated by your FFA page. This confirmation email will tell them that their link has been successfully posted to your FFA page. Now, what if you were able to place a small ad in the signature of this confirmation email? Do you think at least a small percentage of the people posting to your FFA page would see it? **The answer is YES, giving you FREE advertising!** But this is not even the best part! Let’s take this even one step farther so you will have a clear picture of the power of this method of advertising!

We know that the marketer posting to your FFA page has **agreed to receive an official ad from you in exchange for posting to your FFA page.** And we know that you have conveniently “tucked” a small ad into the **confirmation email** that they will receive automatically when their posting has been completed. However, let’s not mistake this “confirmation email” with the ad you are actually entitled to *send* them! The confirmation email is something they will receive whether or not you include a small ad in the signature, and therefore, **does not count** as your one-time *official* ad!

Think about this for one moment: What is on the mind of the marketer while he or she is posting to your FFA page? Do you think that their attention is centered upon receiving an advertisement from you? **The answer is NO! The only thing that person cares about at the time, is getting their link posted to your FFA page where they believe it will be seen by millions and make them a fortune!**

Sadly, this is the mindset of those who are still posting to FFA pages! It has not yet occurred to them that nobody is ever going to see their

“Classified Secrets to EXPLOSIVE Internet Traffic!”

FREE.....AND GET PAID FOR DOING IT!

link and, if by mere chance anyone does, it would be nothing short of a miracle if their link was actually clicked on among the hundreds (or even thousands) of other links on the same page! There is a certain psychological element involved with this medium of advertising, which will naturally serve as your largest asset.

Let me explain:

I have found that the response rate to my advertisements is **significantly higher when I wait for a full 24 hours from the time a person posts to my FFA page, to when I send them my advertisement.** Why, you might ask? Because the *last* thing on this person’s mind as they are posting to your FFA site is what *your* advertisement has to offer them! They only care about one thing - **getting their link posted.** Be that as it may, they will still see a brief advertisement from you in the “confirmation” email. Whether or not they pay it the attention it deserves is anyone’s guess – but I can assure you, **they will not forget it!** That is how the subconscious human mind works! **The human mind records things that we don’t even realize it has involuntarily absorbed and processed.**

Now, 24 hours later, when this person is *still* waiting for one visitor to his or her website...and your advertisement showing them why they are wasting their time and energy posting to FFA pages shows up in their inbox...**what do you think they will do?** I will tell you: **Eventually they will open it.** Eventually, they will pay attention to your ad’s headline and begin to think “Hey, maybe he’s got something here...” They will then download the FREE Special Report you are reading right now, sign up for the programs contained within the report, and you will make money. They will take the same information and share it with other individuals still posting to FFA sites. The process then begins all over again with that person **and** you making money! **This, my friend, is a classic example of Viral Marketing and the fastest way to get wealthy in any form of marketing on the internet!**

“Classified Secrets to EXPLOSIVE Internet Traffic!”

FREE.....AND GET PAID FOR DOING IT!

So what about the person who doesn't "get it" right off the bat that FFA advertising is worthless? Is it, then, a waste when you continue to advertise to those people who repeatedly post to your FFA site? No, it is *not* a waste. **It is even better.** You see, it is scientifically proven that the human mind works on repetition. It takes the average person **seven times** of seeing or hearing a commercial before they will go look at that new car. It takes the average person **seven times** of hearing how wonderful the new local restaurant is before they will try it themselves. This form of advertising works the very same way. It is not enough to put your advertisement past someone once or twice. They must see it multiple times before they will take any action! After seeing your ad a few times and realizing that they are getting nowhere with their advertising methods, the average person **will** download this **FREE** Special Report to see if they can find out why they are not getting results.

Let's take a closer look what successful marketers do:

In exchange for these guys letting you post free ads to their site, they are setting themselves up for thousands of people to see their advertisements daily! They make their money through **permission based advertising** by first including their advertisement in their mandatory "confirmation link or email!" This form of advertising is referred to as "reverse advertising" or "confirmation advertising" and this is exactly what the big players on the internet do to rake in thousands of sales every month! Now, is it any wonder they are making a fortune? This form of advertising allows you to then email your ad to **hundreds of thousands** of people at **no charge** and without ever being accused of spamming!

In the remainder of this Special Report, you're going to find out the secret to having **your own FFA website** and exactly why many thousands of people a month will go to your FFA site to post their free ad. Not only do you stand to make a fortune by using this method, people are going to LOVE you for your generosity in allowing them to post free ads on this new site! This system makes you the winner all the way around! Not only will these people love you for providing them

with a means of FREE advertising, but they also will actually **read** your confirmation email, *and* your one time ad. They will therefore see your advertisement, not once, but twice!

There are a couple of reasons why your advertisement is guaranteed to be read. First, the people posting their ads to your FFA site now like and respect you because you just gave them **free advertising**. But more importantly, they are literally **forced to read your ad** because **their free ad will not post on your FFA site until they open your confirmation email and click a special link inside your confirmation email!** In other words, their ad does not get posted until they have **proven** that they read your email confirmation by clicking on the special link inside the email message. And of course, since you will have your advertisement inside your confirmation email, they will also be compelled to read your ad. Now that’s powerful! It is undisputed that “reverse advertising” is, hands down, the single most powerful method of marketing ever invented and **it’s sure to bring you results!**

Okay, let’s take this up a notch so that you can get a clear picture of how you would put this all in place for yourself. We already know that posting to “FFA sites” is an ineffective form of advertising for those posting, but very effective for those who own the sites. So, when we think in terms of “reverse advertising”, the equation is so very simple:

THE ANSWER IS HOST - DON’T POST!

The advertisers that keep posting to your FFA site are the ideal prospects for your business! Because they are posting ads of their own, you know they are already active internet marketers. This means they will certainly be interested in the marketing tools, products, and services you're offering to them. But even if you're not selling marketing tools, products, or services, the fact is this:

"Classified Secrets to EXPLOSIVE Internet Traffic!"
How to Recruit Thousands of Daily Visitors to Your Website for
FREE.....AND GET PAID FOR DOING IT!

These people that post to FFA sites have a history of being the most responsive to advertisements and purchasing whatever it is that you are offering.

It's just common knowledge among marketers that the easiest people to sell to are other marketers. You wouldn't think so, but marketers not only like to write their own ads, but they love to read other people's ads. I have always found that I do indeed get my best response and take in the most income right from my fellow internet marketers. This is precisely the reason I have written two ebooks, ***No Job Needed! Your MAP to Online Wealth*** and ***Muscle For The Affiliate Marketer!*** that are specific to successful online marketing – ***because I know how to market successfully!***

I especially find that people who post to FFA sites are very responsive to my ads ***because they are looking for an advertising method that works.*** They haven't found one yet, and by posting to FFA pages, they are merely hoping that someone will come along and see their ad. They are not, however, filling their bank accounts because they are using ineffective advertising by posting to FFA sites. Therefore, they welcome the marketer who comes along with a solution and shows them what actually does work to bring results and commissions.

At this point, you are likely wondering just *how* I know what is frustrating these people, and what they are truly looking for. I will tell you, very simply:

***I used to be one
of them myself!***

That is, until I discovered that I was doing things backwards.

“Classified Secrets to EXPLOSIVE Internet Traffic!”
How to Recruit Thousands of Daily Visitors to Your Website for
FREE.....AND GET PAID FOR DOING IT!

The paid “Safe List” form of advertising has proven to be every bit, if not **MORE** effective as the Free Opt-In method was in the past. The good news is that it **DOES NOT** cost an arm and a leg to buy the tools that will generate an explosion of **FREE**, effective and targeted traffic to your website!

This new advertising medium is gaining popularity by the day, and can equate to **very large** streams of income for you if properly structured! **In fact, this new “Members Only” list mailing system is far more effective than any other kind of advertising on the internet today!** So what are these new “Members Only” lists, and why are they so effective? Please allow me to explain.

The typical paid list requires a very small fee to join, somewhere around \$19, and will cost approximately this much on a recurrent monthly basis to maintain your membership. That is **dirt cheap** when you consider all of the *other* forms advertising that will practically cost you your first born child for minimal response and very little return (if any) on your investment.

The upside is that even this small fee is enough to discourage most of the “freebie-seekers” who will *never* buy your product or service anyway. The bottom line is that the average member of a paid list is a **far more serious marketer**. And that means you will be able to focus your advertising dollar on **serious buyers only** and you will eliminate all the “Freebie Seekers” that are only looking for free information.

There are literally thousands of these “members only” lists on the Internet and because of their popularity and effectiveness, more are surfacing every day. **As a paid member** you are typically permitted to send out your ad to the rest of the membership **on a daily basis**. The members are business minded people who actually do read the ads of their fellow members. However, this can be a problem for you if you do not pay very close attention and structure this properly. Allow me to explain:

“Classified Secrets to EXPLOSIVE Internet Traffic!”

FREE.....AND GET PAID FOR DOING IT!

With “Members Only” paid safe list advertising, it is not only YOU who is allowed to send your advertisement to everyone on the list, but all of the other members are allowed the same privilege. This can create quite the “email blizzard” and result in a giant mess with reduced chance of your ad actually being read by the other members as the number of list members increases. However, by using the method I am about to disclose to you, your advertisements are **guaranteed to be read!** Okay, so you must be wondering “How do I get my sales ad inside these confirmation emails?” I am about to let you in on a little secret that will bring this all home for you and help you to see how this can be even more profitable than you can even imagine!

Most of the other members of these paid lists have not read this Special Report so they don't know about the methods I am about to teach you! So let's see if we can demonstrate for you just how incredibly effective and profitable this form of advertising really is! Now that we have reviewed problems associated with ineffective advertising, let's talk solutions!

Right now there are around 40 FFA companies that will, for a small fee, give you an FFA website of your own so you can potentially receive postings from up to **50,000 people per day**. This means that you will be able to send your ads to **all 50,000 of these people and they will ALL be required to read your ads in order to complete their postings to your FFA site.** These FFA companies will provide you with your own confirmation email auto-responder that will send out your confirmation message automatically, which of course will contain your sales message!

This will allow you to reach up to 50,000 TARGETED leads per day with your advertisement and you won't even have to lift a finger! You will just sit back and watch while thousands of people begin posting to your very own FFA site. Then you can continue to watch while your built-in auto-responder begins automatically emailing your confirmation email to every one of them. And of course that means this powerful system is effectively sending out thousands of email ads for you legally, ethically, legitimately, and honestly. This can

never be called spam because each of these FFA posters agree to receive an email confirmation from you for allowing them to post an ad to your site, and are **double-opt in leads** from having clicked the confirmation link and entered the confirmation code provided in the email. They not only agree to receive your email, but they welcome it because they know and understand that their own ad will not be posted until they read and respond to your email confirmation. Not only do these people agree to receive your confirmation email, which will contain your first “teaser” ad, but they have agreed to receive your official advertisement for your business as well!

Imagine having thousands of people that actually are eagerly waiting for your emails. This my friends, is what we call a “captive audience” and it just plain works! Then, of course, you will watch some more as your bank account begins to overflow from all of the sales you will generate using this ingenious form of advertising! But even that’s not all! We haven’t even gotten to the best part yet, so keep reading!

You now understand that “reverse advertising” can serve to bring you massive daily traffic to your website which will naturally result in a skyrocketing of your income. But let’s take this up another notch to show you how you are **really** going to profit by using this method!

Most of the FFA companies on today’s internet have two very basic things in common:

1. Most FFA companies will set you up with your own FFA site for a small monthly fee so that you can begin profiting immediately from marketers who are posting to FFA sites on the World Wide Web.
2. Most FFA companies also should be giving you an auto-responder that will automatically send your email confirmations with your sales message inside to all your ad posters for you.

But you should know that there are only a certain type of FFA

companies you should be looking to join – **SPECIFICALLY THE FFA COMPANIES THAT WILL DELIVER A LARGE COMMISSION CHECK TO YOU.** That’s right – you read correctly. Not only can you develop your own massive website trafficking system using this type of advertising, you can also make yourself a very comfortable living doing just that! **The only condition to you receiving commissions from each of these FFA programs is that you are a paid member yourself!** Now what other form of advertising can you think of that will not only generate leads for free, but also pay you large streams of income in the process? I can tell you – **there are none.**

First and most importantly, the only FFA companies we care about are the ones that will pay you a large commission for referring others to the company.

Below, I have listed FFA companies which will **pay you** on every new member you bring in **and they pay you BIG!** The income you receive from these FFA companies is a **residual income** which means you'll be receiving this income for the rest of your life, as long as you remain a paid member yourself. You literally get paid real cash from these traffic generating FFA companies while you are promoting your primary business! Imagine getting to advertise using your own FFA page and collecting paychecks at the same time! **I am just about to show you how you can get paid from NINE (9) different streams of income, every single month for the rest of your life, while you generate all of the FREE website traffic that you will ever need!** You **CANNOT** lose by using this system, and you will continue to get paid over and over for the remainder of your natural life, **as long as you remain a PAID member with each of these companies!** So let’s take a look at these companies and see what they can do for *your* bank account!

Main Benefit: Lead generation plus extra income.

Cost: \$17.95 per month

Payment Plan: This company pays **up to 100% of all profits** to you! You can read the full details about their commission Payment plan at their website listed at the end of this book.

As you visit each of the companies I list on the following pages, you will be amazed at how the payment structure keeps getting better.

TrafficWave has been voted by Cutting Edge Opportunities Magazine to be one of the top ten marketing programs, not just ONCE but SEVERAL times!

In setting up your confirmation email, you have the option to use the Trafficwave "Set-And-Forget-Emailing" system. Simply input your subject line and your ad, and that's it! The only time you need to return to the site is to change your ad.

You can have your leads provided to you each day, copy and paste them into a Group Mailer, and send out your sales message whenever you want to! *I personally prefer to wait for 24 hours after I receive the leads from Traffic Wave, as I have found the response rate to be much higher for my Group Mailer message than from the initial confirmation email.*

And Trafficwave's **three-part compensation plan is unbelievable!** You definitely won't want to miss their "Fast Track"

The screenshot above reflects my own personal Traffic Wave affiliate account as of **March 23, 2005**. But here's the best part of all: **This FREE Special Report was just released for the very first time, ever, on March 10, 2005!** So do the math, and you will discover that this accumulation of bonuses from Traffic Wave alone occurred **in a matter of just thirteen (13) days, and all just from sharing this FREE eBook with others!** This does not even account for the commissions I am receiving from the other eight programs we will review next, or from the sales of my own eBooks! So as you can see, I have not only covered my membership fees to each of the paid

programs so that I can qualify for commissions, but I have made a very nice profit from this one company alone!

2. FFANET

Main Benefit: Lead generation

Cost: \$29.00 per month

Comp Plan: Pay on this plan has no limit. **People just like you are making up to \$1,473.00 per week with just this one plan!**

The screenshot shows the FFAnet.com website interface. At the top, it says "FFAnet.com The world's largest free for all page network". Below this are navigation buttons: "Get your FREE Page", "Upgrade to FFA Pro", "FFA Pro Members", and "Free Members". A central banner reads "Paid Genealogy List for nojobneeded". Below the banner, a text box contains the following information: "This is your downline of Pro members as of Thursday, March 24th 2005 6:44 PM CST. See the [Commission Charts](#) for every detail of FFAnet's commissions structure. You have 43 signups this month. You qualify for the **ADVANCED** commission structure! Estimated commissions with this downline and commission structure: \$144.54." A red arrow points to the right of the \$144.54 figure.

FFANET was the first of the FFA networks and, with over a quarter of a MILLION members, still ranks among the BEST!

Not only is it the oldest network on the internet, it is by far the *largest*, with several times more members than the NEXT largest network! The FFANET emailing system is "**PC-based**," and each morning you'll receive a list of hundreds of VERY high-quality targeted leads in your email box.

As an FFANET ProMember your ad is made "sticky." This means that your ad stays on the network pages longer – MUCH longer – as long as

five HOURS! Add to that the fact that the FFANET network is just so dog-gone **H-U-G-E!** These factors make an enormous difference!

3. Monster-Traffic

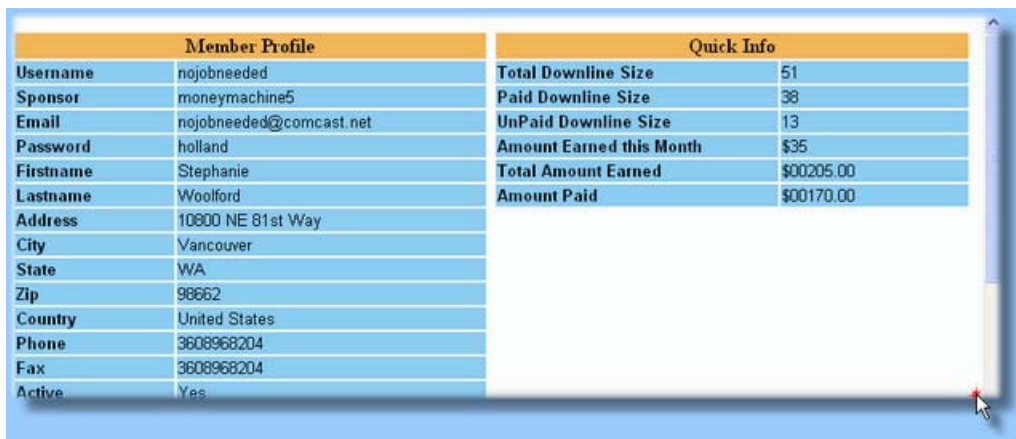

Main Benefit: Traffic generation

Cost: \$10.00 per month (payable monthly, quarterly, semi-annually, or annually)

Payment Plan: This one pays out like a winning slot machine!
Top performers are pulling in up to \$8,430.00 per month with this one traffic generator.

For a mere **ten bucks** a month, the Monster-Traffic FFA network is one of the biggest bargains on the net!

Below is another screenshot (from my own Monster Traffic account) to show you the power of this system:

4. ProspectResponse

Main Benefit: Lead generation

Cost: \$14.50 per month (payable monthly by automatic credit card draft)

Comp Plan: Unlimited commissions from this one! This single company has the potential of bringing you an **easy \$1,200.00 per month!**

You may have heard of Simon Macharia before. He is the gentleman who is responsible for the SuperPromoter program that has been an icon on the Internet for a number of years, so he DEFINITELY knows what he is doing!

His newest Venture, "**AdSaturation.com**," is destined for the same greatness, and supplies you with not just one or two, but THREE sources of VERY responsive leads.

What's nice about AdSaturation is that their two emailing systems automatically ACCUMULATE your leads until you are ready to use them. In other words, if you skip a day or two or three, your leads aren't deleted - they're all still there waiting for you until you are ready to use them. You can even take a few days off and not lose out on your leads!

The third source of leads is the TOTAL membership of the AdSaturation directory, which is HUGE. At present, it numbers over 170,000 members and you can send your sales message out to all of them for a VERY small additional charge.

5. 123 Clicks

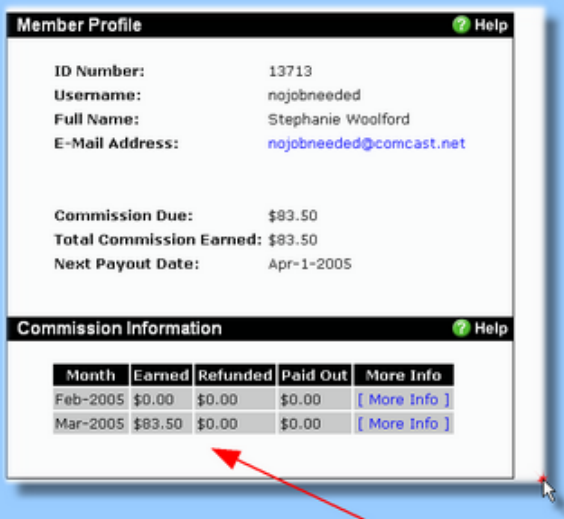

Main Benefit: Lead generation

Cost: \$25.00 per month.

Comp Plan: The Payments aren't quite as large with this company as

some of the others that I list, but their traffic is *massive* and you practically **don't even have to do anything** to get paid from these guys. 123Clicks is primarily a traffic exchange program, and your site is *guaranteed* to be seen! Plus, when you set your homepage to 123Clicks, **you get paid just for opening your browser!** The screenshot below reflects what I have earned in thirteen days **just by setting 123 Clicks as my start page on my browser!** Not bad, for doing nothing but opening my browser, eh?!

8. Infacta Group Mailer

Main Benefit: The Group Mailer enables "one-click sending" of messages to large groups of prospects

Cost: A one-time \$99.95 fee

Comp Plan: **40% commission!**

This is a **MUST HAVE** program, and essential to unleashing the power of this internet trafficking system! Attempting to market on the Internet without Infacta's Group Mailer is almost like trying to drive a car with no wheels! It is **THAT** necessary.

The Group Mailer is what all the pros use to mail their sales messages to their lead lists. THIS is the program into which you will be downloading your daily leads from the traffic programs outlined in this report that use PC-based emailing systems. Group Mailer allows you to form your own databases, and you can send highly customized messages, including personalized message bodies and personalized subject lines from your own PC.

In addition to emailing your ads to the leads these companies give you, there is a second, EVEN MORE IMPORTANT REASON why you **NEED the Group Mailer...**

It doesn't happen overnight, but over a period of time **you must work to build your own mailing list!** Your mailing list is a list of current and previous customers, clients, downline members, friends and associates with whom you have had some sort of previous contact. These are the folks with whom you should be maintaining CONTINUOUS contact - through a regular mailing, a newsletter, or even your own ezine. **Once you have established an ongoing relationship with these people, they will become your most important source of continuing business.** Once again, it takes time to build your list, but when it reaches a certain size - "critical mass" - you will never have to worry about having prospects again! Group Mail is your key to building your list!

“Classified Secrets to EXPLOSIVE Internet Traffic!”
How to Recruit Thousands of Daily Visitors to Your Website for

I personally use Group Mail to blast my monthly newsletters for each of my websites. *I would be dead in the water without it.*

Infacta offers three versions of Group Mail. They are: Group Mail Free, **Group Mail Pro**, and **Group Mail Plus**. I do not recommend that you attempt to use the free version for any type of internet marketing, and I will explain why.

The following excerpt was taken directly from the Infacta website:

The Free Group Mailer is not designed for business use:

Group Mail Free

Ideally suited to the home user who only intends to send to smaller groups. This version of Group Mail has all the features you will need to get you started with group messaging. Powerful, yet easy to use, and if you ever need to upgrade your data will be maintained and ready to use in the Pro or Plus edition.

Although free is a great price, it's free for a good reason. It is only designed for the home user to send to small groups (family, friends etc.) You need a mailer that will handle the job and the Group Mail Pro is the best one to start with. You can always upgrade to the Group Mail Plus when your mailing requirements increase.

Further, when I initially released this **FREE** Special Report, a couple of my affiliates attempted to “shortcut” the system and save money by using the Free version of Group Mail. These affiliates learned the hard way after losing valuable time *and* sales that the FREE version **does not operate identically to the Pro and Plus**. Instead, it sends the emails through the user’s smtp server (email provider) which overloaded the affiliates’ email servers. The end result – they were locked out of their email by their internet service providers for suspected spamming. To this end, I have included the following excerpt directly from Infacta’s website:

“Classified Secrets to EXPLOSIVE Internet Traffic!”
How to Recruit Thousands of Daily Visitors to Your Website for
FREE.....AND GET PAID FOR DOING IT!

- **Bulk Send** via ISP provided Mail Server
This is up to 10 times faster than personal sending. However one down side is that you cannot send personalized messages using this sending mode. Bulk Sending or BCC'ing only ever sends one message to your SMTP server and then it sends the list of addresses to distribute the message to. **This sending mode is only available in Group Mail Pro and Plus.**
- **Direct Send** straight to your recipients email accounts
With direct sending modes you are sending in Personal Mode - however instead of sending your message through your SMTP Mail Server you are sending it directly to your recipients mailbox. **This feature is ideal if your ISP doesn't provide an SMTP Server that you can use or if your ISP has limitations on their email service, an example of this is where some ISPs only allow you to send 100 messages per hour.**

It works just like Personal Send mode - however it can be slower because it needs to talk to each recipients mail server directly. However it will greatly reduce the number of possible bounces that you receive. **This sending mode is only available in Group Mail Pro and Plus.**

Because I wrote this **FREE** Special Report to show you how you can generate thousands of visitors to your website on a daily basis, and as a result, make very good money online, I am obligated to tell you what *will* and *will not* work to make this system successful.

If you are unwilling to invest in yourself and your business by using the recommended tools to do so, I would ask that you re-evaluate and give serious consideration to your level of commitment to online marketing and your own success.

If you try to save money and headache by marketing this program using the Free version of Group Mail, ***you are going to end up with a migraine and lose sales.*** In fact, you will be lucky if you get **any traffic at all.** You *cannot* effectively run this program for massive website traffic generation without using the appropriate tools, period! Otherwise, you are *trying to fall a mighty oak using only a*

fingernail file! Infacta Group Mailer is the “hub” of this entire program, as it allows you to process massive amounts of advertisements to your leads on a daily basis.

I dread more than *anything* the aspiring online marketer who comes to me and says “But I have tried and tried and nothing works!” **only to find out they have failed to follow the system.** Due to the overwhelming number of emails I receive that say “Yeah, but what if I just...” trying to save a couple of bucks, I have decided to simply shoot straight from the hip. Here it is, folks - it has been tried, tested and proven:

If you want the system to work for you, you must work the system.

SPECIAL NOTE: *If you are unwilling to do so, please **DO NOT** email or call me with complaints that you are getting no traffic and making no money!* I invest a *significant* amount of my time in my affiliates’ support and success, and I simply **do not** have time to spend on someone who *refuses* to follow directions. ***If this is offensive to you in any way, I apologize.*** However, I am fed up with individuals who will not follow instructions to **simple and proven techniques**, yet want to complain when the system does not work for them. Having said that, let’s get back to Infacta.

The Plus version, at a cost of \$199.95, (for a limited time it is on special at \$179.95!) is a **beautiful piece of work**, which includes a *high speed sending engine* that uses up to **64 connections** simultaneously, allowing incredible sending speeds! The mid-range Pro version, at \$99.95, **is adequate for the needs of most Internet marketers, and performs beautifully as well.** However, the Pro version does take longer to process emails than the Plus version. I personally recommend the **Plus** version, as it features **much higher**

“Classified Secrets to EXPLOSIVE Internet Traffic!”
How to Recruit Thousands of Daily Visitors to Your Website for

sending speeds than the Pro version, and it is the version I personally own and use on a daily basis. I do **NOT** recommend the free version for anyone who is serious about putting their internet marketing business in gear and making real money. Those who have attempted to use the free version found they were unable to market with it, and have inevitably purchased the Pro version *because they were left unable to market at all*. If you are unable to make the investment in the Plus version, you should absolutely purchase the Group Mailer Pro. You can always upgrade to the Plus version later on as your business grows and you require faster sending speed due to the volume of leads you will be sending email to.

To upgrade from the Pro version to the Plus at a later time, you will simply pay an upgrade fee (currently \$80) instead of duplicating your purchase of the software. The investment for the Group Mailer is worth every penny spent, and with a compensation plan like Infacta’s, you will make **every dime back** and then some in no time at all! Within the first week from releasing this FREE Special Report, I more than doubled my investment in the Group Mail Plus, and it will pay for itself over and over for years to come.

9. My Mad Mailer

Main Benefit: Safelist Submission

Cost: \$25.00 One-time set up fee, \$10 per month thereafter

Comp Plan: **50% commissions on TWO LEVELS!** (\$5 per referral)

I have saved the very best for last. Can you say **m-i-l-l-i-o-n?** That’s right – for **\$10 per month**, you will be able to market to **1,564,662+** members of the My Mad Mailer community **every other day!** This system is like no other – it consists of more than 2,318 safelists with a combined membership of more than **1.5 MILLION people!** **And you can send ads for multiple programs all with the click of one button!**

"Classified Secrets to EXPLOSIVE Internet Traffic!"
How to Recruit Thousands of Daily Visitors to Your Website for
FREE.....AND GET PAID FOR DOING IT!

This program is, ***without the shadow of a doubt***, the BEST online advertising bargain I have ever seen!

Plus, you will earn 50% commissions on two levels! You can earn an easy \$2,000 per month with this one program! You would have to be insane not to join! I personally have collected more than \$200 in two weeks in commissions from My Mad Mailer, and I joined less than one month ago!

Naturally, there is no long term commitment with any of the programs - your commitment is month-to-month, and you may cancel your membership at any time.

The Bottom Line

So what does this all mean to you, bottom line?

Your combined **monthly** investment for ALL of the resources that are part of this program **is less than \$150**, and you will be sending YOUR sales message to as many as **ONE HUNDRED THOUSAND** targeted leads **EACH DAY** - that's three MILLION every month!

Now you may still be caught up in that Internet frame of mind that says everything on the Web should either be free, or at least very, very cheap. If this is you, I will say this as gently as I possibly can:

If you believe that you are going to make any meaningful money online with no expense or effort, I have ocean front property in Arizona I will gladly sell you for dirt cheap!

This belief is precisely what has kept you from succeeding this far! The good news is: you can market successfully online without selling your first born child or mortgaging your home.

“Classified Secrets to EXPLOSIVE Internet Traffic!”
How to Recruit Thousands of Daily Visitors to Your Website for
FREE.....AND GET PAID FOR DOING IT!

If you are willing to invest a small amount of money on a monthly basis in your *own* success, I can assure you that using this system is the fastest and cheapest way that you will find on the internet to generate the same massive amount of traffic to the website or product of your choice that I have introduced to you in this **FREE** Special Report. *It will bring results.* I am here to tell you that \$150 a month for an advertising budget that will provide you with explosive website traffic is *dirt cheap!* You could easily spend \$150 in **one day** by running one *Google Adwords* campaign to get only a fraction of the quality website traffic you will receive by using this system!

You could start out with only one of these companies and only pay \$19 per month. *I don't recommend that you do so, however, because you'll want to kick yourself later for not signing up with more of them.* When you see the kind of income that \$19 can bring you, you'll literally want to bang your head into a brick wall. **This system can turn \$19 in to \$400 to \$700 a month with no problem, and that's just by using ONE of the programs I have reviewed with you above. For that matter, this system can turn \$19 into \$700 per week, as it has for me!** Imagine the income you could be making next month if you joined all nine of these companies! And when you think about it, the cost to join all nine is less than the cost to place one tiny classified ad in the back of a business magazine or to run just one *Google Adwords* campaign!

The amount of fresh new traffic and leads you'll get from these companies makes a classified ad look like a *joke*. As you can imagine, I don't run classified ads anymore. I only pay \$150 and I get as much traffic to my websites as many search engines get! Rest assured, \$150 wouldn't even buy you a banner on a popular search engine, and you certainly wouldn't get paid cash commissions by the search engine for advertising with it! The only advertising sources that I know of that **pay you back** in major dividend checks are those companies I have listed above!

“Classified Secrets to EXPLOSIVE Internet Traffic!”
How to Recruit Thousands of Daily Visitors to Your Website for
FREE.....AND GET PAID FOR DOING IT!

To most businesses, \$150 a month is pocket change and most would consider it too small for an advertising budget.

A recent survey revealed that 96% of all those people you see pushing products and services on the net are spending more than **\$1,100.00 a month** on average and **not making much, if anything**. *I am in the 4% of the online population who actually does make a healthy living on the internet!* I hope I can reach the other 96% with this Special Report to let them know there is a much better way!

If you're not currently spending at least \$150 per month advertising your website or business, **then that is part of the reason you're not making any money**. I have said it before, and I will say it again:

Treat your business like a business and it will pay you like a business.

Treat your business like a hobby and it will take your money faster than your teenagers!

You **must** invest in advertising in order to make money online. But the key is not to just go spend hundreds of dollars on ads, but to carefully place a small amount of advertising dollars into the right place. **Advertise with companies that pay you back!**

Now, I am going to take this even one step further and show you how, by using the information contained in this very same **FREE** Special Report you are reading at this very moment, you can create **multiple streams of MASSIVE leveraged income which will pay you over and over for life!**

At the beginning of this report, I showed you five (5) of my own digital information products, each of which I pay 50% affiliate commissions for! For every sale you make through your affiliate link, you would

“Classified Secrets to EXPLOSIVE Internet Traffic!”

make \$23.50 (for all but one of the eBooks)! For all of you that don't have a hot selling product or service to sell, consider this:

Now you do!

And you don't even have to do any selling! I *hate* selling!

The beauty of this whole system is that this little FREE ebook does all of the work for you, just by signing up to each of the paid service programs I have listed above and by sharing this FREE report with others! Bottom line, the more people you share this eBook with, the more money you will make!

By using the information I have outlined for you in this report, you can simply sign up for my affiliate programs, build your own traffic generating machine using the programs I have outlined above, and **“Shazam!” The sales will come pouring in!** And even *that* isn't all! There is still so much more that will make you **UNLIMITED STREAMS OF INCOME!** In order for you to *clearly* understand the power of this system, I will break it down for you in mathematical terms, and then we will move on to discuss how you can get started immediately and begin receiving multiple streams of income through using this simple system.

As I indicated in the beginning of this report, the following five eBooks are my *own* products for which I have affiliate programs:

***"I'm Still Standing – A Comprehensive
Survival Guide for Victims of Domestic Abuse"***

www.DomesticViolenceSurvivor.com

All of these eBooks are in high demand and four of the five sell at a cost of \$47, which would equate to **\$23.50 to you per sale.** The fifth eBook I sell for a lesser price of \$17, so that I may share my personal story with others suffering from the torture of domestic violence and help them to move on to a better life. Because of my personal understanding of the financial limitations placed upon victims of domestic abuse, I have placed a reduced price on this eBook so that everyone can afford it.

Now, let's assume that you sold just *two* of each of the higher priced eBooks per day by using the **massive traffic generating system** that we have reviewed in this report, and two of the lower priced eBooks, for a total of ten eBooks sold through your affiliate links:

8 x 23.5 = \$188.00 affiliate commissions to you per day for the higher priced eBooks!

“Classified Secrets to EXPLOSIVE Internet Traffic!”
How to Recruit Thousands of Daily Visitors to Your Website for
FREE.....AND GET PAID FOR DOING IT!

2 x 8.50 = \$17.00 affiliate commissions to you per day for the lower priced eBook!

\$188 + \$17.00 = \$205.00 affiliate commissions to you per day for eBook sales

\$205 x 365 = \$74,825 per year, or \$6,235 per month!

What this means is that by spending **only \$150 per month** to generate thousands (if not millions) of hits to your affiliate links through reverse advertising, **you have just made a monthly NET profit of \$6,085 just by promoting my eBooks!** And that's nothing! There is *still* so much more money to be made!

Now, let's assume that you opt to join each of the paid listing services that I have reviewed with you at the total cost of \$150 per month. You have not only paid for your entire month's worth of traffic in one day, **you have also made a profit of \$55 for that day just from the sales of my eBooks alone!** And keep in mind, this doesn't even account for the commissions you will receive from the paid programs!

You and I both know that you want to make more than \$6,000 per month, and realistically, **you will sell far more than just ten eBooks per day using the massive traffic generating system we have reviewed.** But even so, for the sake of this example, let's not rely upon more eBook sales to generate a massive income for you. You want money, and you mean *BIG* money, right? **No problem!** What about the **residual commissions** to be paid out from each of these traffic generating programs? **Take a look again at pages 24 thru 41 in this report to see what I mean!!** I will tell you exactly what this equates to:

"Classified Secrets to EXPLOSIVE Internet Traffic!"
How to Recruit Thousands of Daily Visitors to Your Website for
FREE.....AND GET PAID FOR DOING IT!

UNLIMITED STREAMS OF LEVERAGED RESIDUAL INCOME!

Your earning potential using this system is literally *unlimited!* When you share this information with the millions of other people online who are advertising ineffectively and frustrated over not making any money, they will be lining up to sign up for each of the programs I have introduced to you on the previous pages! So how does that mean money in your pocket, you may be wondering?

I want you to think for a moment about how you came to find this Special Report you are reading. You received this report for **FREE**, correct? And you and I both know that **FREE** is a **very good price!** People in general, and especially people on the internet, love anything they can get their hands on for **FREE!**

I want you to imagine what would happen to your income if you shared **this very same report** with other marketers who are still posting to FFA sites, **and branded inside this report were your affiliate links to not only my five (5) eBooks, but also each of the traffic generating programs I have listed above.** Any clue what would happen? I will tell you:

Your income would explode!

Not only would you make a very nice living from your affiliate sales of my eBooks, you would also receive **residual monthly commissions** from each and every individual who signed up for the traffic sources through your affiliate links, **as long as you remain a paid member to each of these programs yourself!** Now, if you choose to join as a FREE member to any of these programs, you will still receive the benefit of the **FREE leads**, but who in their right mind wants to miss out on the healthy commissions each of these companies will pay each and every month?! And how many programs do you know of that not only generate traffic, **but also residual income?** **Every one of the companies listed will pay you a steady monthly commission check – serious commission checks - as long as you remain a paid member of the programs yourself and others sign up through your affiliate links!**

Please let me know if you find another single system that pays up to **\$7,843.00 a month** just in residual commissions while at the same time sending targeted, double opt-in leads to your website! You won't find one! And that doesn't even account for the money you will make from your affiliate sales of my eBooks!

Not only has this system proven **it can earn anyone up to \$7,843.00 a month**, keep in mind, that income is residual and will grow even bigger as time goes by! And what better way to get this information out to the open market than through a **FREE** informational report?!? I have a very nice surprise for you!

Now you can!

For a small **one-time fee of \$27** (plus tax where applicable), you will receive a copy of the **very same report** you are reading at this moment **with your affiliate links branded into it!** Because this is a **FREE** report, **you are authorized to pass it along to anyone you choose!** In fact, **I recommend that you do once your affiliate**

The information that I have provided you with so far is worth a solid, **six to seven figure yearly income**, and for you to benefit from that information, you aren't even required to create your own website to profit by sharing this information with others because I provide you with a **FREE** copy of mine to upload to your web space if you have your own!! I am granting the opportunity to a *select few* people to provide this report to others with their own affiliate links inside! **This means that when others read this report and sign up for any, or all, of the nine programs listed above through your affiliate links, you will automatically get paid. That's just from passing this **FREE** report onto someone else who you feel will benefit by learning about the “reverse marketing” technique!**

I could have easily placed a hefty price on this information and sold this Special Report for a very attractive fee, but I chose instead to give it away. Why am I doing this? **Bottom line: every internet marketer deserves to be successful and generate a solid income from his or her marketing efforts while working from the comfort of their own home.**

Most people simply don't know how to do it. This, my friend, is how the wealthy get that way! I have provided you with the vehicle for creating wealth; the instruction, and a ready-made business consisting of multiple streams of income. The rest simply depends on your commitment to your own wealth generation, your efforts in marketing this FREE Special Report and your own creativity.

Now, earlier I indicated that I had found a solution to the “search engine” dilemma that most marketers, including myself, have encountered in their failed marketing efforts. Despite the expense and challenges I previously experienced with my attempts to get premium listings for my websites in the search engines, I still believe that placement in the **MAJOR** search engines (Google, MSN, AOL, Yahoo and Overture) is **critical** for any successful internet marketer. While this massive traffic generating method that I have already disclosed to you provides me with **more than adequate** daily traffic to each of my websites, there are thousands of online consumers who have reached my sites through search engines as well.

“Classified Secrets to EXPLOSIVE Internet Traffic!”
How to Recruit Thousands of Daily Visitors to Your Website for
FREE.....AND GET PAID FOR DOING IT!

As a full-time professional marketer, I am obligated to instruct you to never place all of your advertising efforts into one medium, including this very system. While this system has proven to be highly effective in generating traffic, sales and income for me, the bottom line is:

The more aggressively you advertise this FREE Special Report, the more money you will make. Diversification in online marketing is essential to your own success. While this system will provide you with massive traffic, I highly recommend that you utilize any and all other affordable advertising avenues as well!

The results in this FREE Special Report are based upon my own personal efforts and results. Your results will depend on your own efforts, your ability and your willingness to follow this system in its entirety, as well as your own creativity in advertising. If you do not diversify, market aggressively, and follow this system exactly as I have outlined, you cannot expect to achieve the same results that I have.

I attribute my success in receiving steady traffic from the major search engines to **one secret tool I use within my business** - a tool that has allowed me to achieve competitive placement and page ranking in the major search engines without having to mortgage my house to pay for it! Without the assistance of this tool, the search engines would have been completely out of my league because I would have never been able to afford to place my sites in order to get search engine traffic to them!

Automated Engine Submission

This little tool is absolutely amazing and is responsible for 100% of the search engine traffic I receive to my websites.

"Classified Secrets to EXPLOSIVE Internet Traffic!"
How to Recruit Thousands of Daily Visitors to Your Website for
FREE.....AND GET PAID FOR DOING IT!

Since I have found this tool, I no longer pay for search engine listings, and I do not run pay-per-click campaigns.

***Click on the Image above to access the Traffic Seeker website.**

Second only to my Infacta Group Mailer Plus, this is the wisest software purchase **I have ever made** since starting my marketing endeavors on the internet. This software allows me to submit **unlimited URLs** to more than **800,000 search engines**, literally with the push of one button, **including GOOGLE, MSN, AOL, YAHOO and OVERTURE!** This software allows you to assign UNLIMITED keywords for your website's placement, and provides you with premium placement on the net's largest search engines. This software is worth, at minimum, 100 times its cost!

To demonstrate for you the power of this software, I have included below a screenshot of my page rank for the website from which you received this **FREE** eBook.

"Classified Secrets to EXPLOSIVE Internet Traffic!"
How to Recruit Thousands of Daily Visitors to Your Website for

Now, to fully understand the significance of this page rank at **311,760 (and climbing daily!)** as of this writing, I must also inform you I just submitted this website to the search engines using my Traffic Seeker software **for the very first time on March 13, 2005 (exactly 12 days ago!)** On that date, my website reflected a page rank of **4.9 MILLION**, hardly a competitive page ranking. So, as you can see for yourself, in a matter of only **11 days**, my page rank has jumped by **MORE THAN 4.5 MILLION!** Any questions about the power of Traffic Seeker?

The best part is, **you can view the web-based demo version of Traffic Seeker, known as "Engine Seeker", for FREE and see for yourself the power that this program will offer to your internet marketing business!** The higher your page rank in the search engines, the more traffic to your website and the more money you will

make. To view the web-based demo version of the software immediately, please click [here](#).

There is virtually **no difference** between Traffic Seeker and Engine Seeker, other than the fact that Engine Seeker is hosted by the makers of Traffic Seeker on *their* web space, and charge a monthly membership for your access to use the software from their server. I opted to purchase my own copy of the software, and it has proven to be one of the smartest business decisions I have **ever** made! It has paid me over and over again.

Once you are satisfied with the power that this *one* software program can bring to your internet marketing and decide that it is one of the smartest investments *you* could ever make to your business (and I am confident that you **will** after viewing the program for yourself!) **you can purchase your own copy by clicking on the image below:**

Next, we will talk about how you get started putting this all in motion and begin receiving monthly commission checks in amounts that most people only dream of!

“Classified Secrets to EXPLOSIVE Internet Traffic!”

Getting Started

The following is the step-by-step sign up process that you should follow to immediately begin generating **thousands** of quality and eager-to-buy visitors to your website or affiliate links.

You will first need to complete the sign-up process for each of the traffic programs before you purchase the rights to branding for the FREE Special Report, so please pay very close attention!

Step One

Step 1: Create a “junk box” email address.

What is a “junk box” email address? It’s simply an alternative email account, **separate from your regular email address**, that you establish with a **FREE** email provider (such as Yahoo or Walla) for the exclusive purpose of **joining paid members lists**. The reason that a “junk box” email address is important is that, as I previously stated, every paid member on each list can also send their advertisements to all members, to you! This can result in your receiving THOUSANDS of emails on a daily basis from most of the other paid members, whose advertisements you will never read! So, when you establish an alternative email address as a “junk box” you have accomplished two things:

1. All the advertisements you receive from other members will go directly to your “junk box” email, rather than to your important or private email boxes;

“Classified Secrets to EXPLOSIVE Internet Traffic!”
How to Recruit Thousands of Daily Visitors to Your Website for
FREE.....AND GET PAID FOR DOING IT!

2. Even though you never need to check your junk box email, (which must be a real address) as long as you are a paid member, you can still send your advertisements to all the other members on the list.

The bottom line is that you still get to send out thousands of your ads each day to all the other members and it's completely safe. These companies actually give you permission to email their entire list of members as long as you are a paid member yourself. With **My Mad Mailer** alone, that is more than **1.5 MILLION** members, so you can see why it would be important to set up a “junk box” email.

Now, on the face of it, by knowing that you will never read the ads from other members, it may seem that you are taking advantage of the system and of the other paid members. **But that is simply NOT the case. In fact, just the opposite is true - you are doing them an enormous favor!**

By providing these members with the information contained in this report, you are *showing them for* **FREE** how it is that they are wasting their energy and efforts through their current advertising methods! Plus, you are handing them the solution to their problem by showing them how to advertise effectively, **for FREE by providing them with a copy of this report!**

Step Two

If you haven't already done so, click [here](#) to view the **web-based** demo version of Traffic Seeker, known as “Engine Seeker.”

After you have viewed the operations of the software, and you are as confident in its ability to launch your website's links to premium search engine placement as I am, return to this page and [click here](#) or on the image below to purchase your own copy of the software. While the free trial version of this software will not do it justice, it will give you a good feel for how it works so I recommend that you view it before you buy your own copy!

Traffic Seeker pays its affiliates commissions in not one, but two ways, and you will want to benefit from BOTH:

1. You will earn **40% commission** for each Traffic Seeker sale made through your affiliate link, as well as **10% commission** on sales made by your sub-affiliates! This plan pays on two levels, and is **very profitable!** You can [click here](#) to sign up now and begin earning commissions immediately. But even that's not the best part, so read on!
2. Traffic Seeker has also just launched a new and improved affiliate program **for its web-based version, entitled "WebMaster Leads."** This program *does not* pay commissions on the sales of the web-based software made through your affiliate link, **but instead will pay you \$1.00 for every single lead you bring to view the web-based version!** When others go to view the web-based version, they are required to complete an information form before being redirected to the download link. Each and every time someone completes that form, **you are paid \$1.00! And, when those leads return to purchase the Traffic Seeker software through your affiliate link, you stand to make the additional commissions outlined in Paragraph 1 above!**

Now, think for a moment what this internet traffic system alone could do for your bank account. In this report, I have clearly shown you how you can potentially generate **50,000 FRESH and TARGETED visitors** to your website every single day just as I do. And let's assume for one moment that of those 50,000 leads, you receive just a 1% response rate to your WebMaster Leads affiliate link. That 1% would equate to **500 people per day** filling out the information form on your affiliate site for Web Master Leads. **At \$1.00 for each person who completes the form, you have just made \$500 per day in lead commissions alone. You will also receive \$0.25 on each person who completes the form through your sub-affiliate's links! This**

one affiliate program alone could easily generate **\$228,125 per year** for you just by using the secrets to explosive internet traffic I have outlined in this **FREE** report, and having one sub-affiliate! **This doesn't even account for the 40% commission you will make when those leads return to purchase the Traffic Seeker software through your affiliate link!**

Want Proof?

No problem! Just scroll to the next page and look at what this *one program alone* has brought one of my affiliates in a matter of just 11 days!

"Classified Secrets to EXPLOSIVE Internet Traffic!"
How to Recruit Thousands of Daily Visitors to Your Website for
FREE.....AND GET PAID FOR DOING IT!

Step Four

Get your credit card ready, because we are now going to sign up for each of the **traffic exploding programs** we reviewed earlier! Remember, **each of these programs will pay you cash commissions** for each individual you share this Special Report with who decides that it's time to get serious about making money with his or her marketing efforts by advertising **effectively!** This will put you on the **fast track** to making enormous streams of residual income!

Now, **before we visit each of these sites, you will want to choose your user name and password.** It is important that you use the *same* user name and password for each of these programs wherever possible, as it will be far easier for you to remember one user name and password than it would be for you to remember several. Choose a user name and password that will be easily remembered by you, and make sure you enter it all in lowercase letters. Each company has its own unique sign up process, and some of them may assign your password automatically in the confirmation email they will provide to you. Further, each company will provide you with a confirmation email containing your affiliate link! **Be absolutely certain that you print off those confirmation emails and place them in a safe place.** You may need to reference them in the future in order to log into your account and check your traffic stats and commissions, and for obvious reasons, you will need to know what your affiliate link is!

WARNING! As you begin visiting each of these websites for the first time, it is very easy to get distracted by the variety of services each of these companies offer in helping you to generate traffic. Each of these companies give you tons of members only reports, marketing software, books, ad trackers, lead generators, programs, and tons of other "great stuff." It's very easy to get caught up in trying to read and understand all the goodies on offer, but you don't need to understand it all just yet. **You can go back later after you have**

“Classified Secrets to EXPLOSIVE Internet Traffic!”
How to Recruit Thousands of Daily Visitors to Your Website for
FREE.....AND GET PAID FOR DOING IT!

completed the sign up process for each and review this information in further detail. In fact, I highly recommend that you do just that so you will have a full understanding of each company's benefits and features you can use in your advertising efforts! Right now, however, it is important that you *stay* focused on getting through the sign up process with each of these companies, so that we can get you up, running and making money immediately! The flood of traffic and the pay checks you now have the ability to receive are the most exciting and powerful parts of this whole system.

But just remember not to focus on setting up your message board or FFA website that these companies offer you. There's plenty of time to go back and do that later! At this point in time, all you need to focus on are two things:

1. Becoming a paid member of each one of these companies.
2. Getting your affiliate ID or reseller link from them.

If you happen to already be a paid member of one or more of these companies, that's great! You certainly won't have to sign up again. Just sign up with all the other companies that you're not currently joined up with so that you will be assigned affiliate links to those companies as well.

Also, not all of these companies automatically add you to their affiliate or reseller list. You may need to complete a two-step process of 1) signing up to become a paid member yourself and 2) joining each company's affiliate or reseller program. I know this means a little more work, but trust me, it's worth it! Your affiliate or reseller link is your ticket to receiving big fat commission checks from these companies, so be certain that you obtain an affiliate or reseller ID link from each!

You will access each company's website by clicking the hyperlink I have given below for the name of each company.

Okay, ready?

1. [TrafficWave Pro Membership - \\$17.95/mo](#)

Step 1: Click on the TrafficWave link above. You will be taken to page 1 of the TrafficWave website.

Step 2: At the top of page 1, you will see a hotlink that says "**30 Day Free Trial.**" Click on this link. You will be taken to page 2 of the TrafficWave website.

Step 3: Scroll to the bottom of page 2. You will see two large rectangular areas next to each other. The one on the left is a dark blue, and the one on the right is a dark green-blue. In the right hand rectangle click on the link at the end of the sentence, "If you would like to skip the trial period and join as an Active Affiliate or Customer, Click Here." You will be taken to page 3 of the TrafficWave website, the "**TrafficWave.net PAID Member Form.**"

on, in your member's area, you can change it to something easier to remember.

Step 6: Important Note: Enrolling as a TrafficWave MEMBER does *not* automatically enroll you as a TrafficWave RESELLER, which entitles you to earn commissions. **In order to now become a reseller (i.e. affiliate) you must log in to your "Member's Area." Input the username and password provided in the email you just received, and then click the gray "Login Now" button. You will now be on the Affiliate Sign-up Page.**

Step 7: Scroll down until you see two tiny, round check-blocks. Check the *SECOND* block, which begins, "I have read and agree....." Below that are two additional round check-blocks. Check the box that appropriately describes your citizenship. Then at the bottom of the page click on the blue link that says "Submit Form."

Your reseller URL will look like this:

Your TrafficWave ID, at the end of your reseller URL, is ALWAYS the name you chose when signing up. Your TrafficWave reseller URL will ALWAYS look like this: <http://www.trafficwave.net/members/XXXXXX> (your name will replace the XXXX.)

Special Note: Once you have completed the sign up process and branding of your Special Report, return to your membership area at Traffic Wave. Inside your member's area, you will find training articles written by Brian Rooney. Print these articles and read them. They will help you through the set up process, and the set up process for most of the programs is similar to Traffic Wave.

For the serious online marketer only, there is limited space for this program because of the automated emailing ability. For \$39/month, this program offers more than some marketing plans costing ***much more***. If it is feasible for you to do so, I would **strongly** recommend that you sign up for the **Pro Platinum** plan, as you will begin making much higher commissions immediately!

Toward the bottom of page 3, you can review each level of membership, the cost, and what each package provides for you by clicking on the applicable links (i.e. Entry, Basic, Gold and Platinum.) Select your desired package. **Again, I recommend that you go with the Platinum package right from the beginning due to the higher commission payout, but if you are unable to do so, be sure and sign up as a Gold Member.**

Step 8: Click the button at the bottom of the page to join.

Step 9: You will then be routed to a screen with your Affiliate Link.

Step 10: Your login and password will be emailed to you, however, **please note that it can take up to 24 hours to receive, but it is well worth the wait! Be sure to check your junk folder for this email in case it lands there!**

Step 11: Once you receive your login information, go to your account and sign up for the safelists that you want to send mail to. You must verify your subscription to each one time before you are able to set up your ads and send mail. Would You Like Us to Manage Your Webpage?

YES or NO

[Why do you ask?](#)

If you want me to host your webpage select yes. Or, if you want to manage all your HTML and PDF files, arrange your own host, and upload to your FTP server and URL then select no.

FREE.....AND GET PAID FOR DOING IT!

If you click yes, you will be taken to a page where you **select the length of subscription** you wish to begin with for your web hosting. You will then need to proceed to the brander tool and enter your affiliate links.

When you see this page...

1. Enter Your Affiliate Information	
<i>(Enter as many fields as you can now; you may return and add/change links later.)</i>	
NoJobNeeded.com	<input type="text" value="http://your affiliate links go here"/>
AffiliateMarketingMuscle.com	<input type="text" value="http://your affiliate links go here"/>
YourIncomeTaxSavingsSecret.com	<input type="text" value="http://your affiliate links go here"/>

...you have successfully reached the brander tool!!!

STEP 1.

Enter your affiliate links in each of the boxes provided. You may type them, but I recommend that you copy and paste them in each corresponding box for accuracy. ***If you did not sign up for some of the programs (which I DO NOT recommend as you would not only be limiting your marketing abilities, but also missing out on income streams), leave the box for those programs blank!!***

When you have finished entering all of your affiliate links in the appropriate boxes, **push the button to save your links!**

“Classified Secrets to EXPLOSIVE Internet Traffic!”
How to Recruit Thousands of Daily Visitors to Your Website for
FREE.....AND GET PAID FOR DOING IT!

IMPORTANT NOTE: *Do not skip this step!* If you do not push this button to save your links, your links will not be branded to the PDF and you will have to re-enter them in order to brand your PDF!

Okay, now that you have saved your links, let's move on to Step 2.

If I am going to host your site you may skip the next 3 steps. Continue reading where it says, "STEP 2 IF I AM HOSTING YOUR EBOOK:"

STEP 2.

Once your links are entered and you have told the brander to save them, you will see a button that says "Create Branded PDF Now. Click Here". **Click this button to create your branded FREE Special Report!** When the tool completes, you can save the PDF file and upload it to your server. I strongly suggest that you have the file emailed to you to avoid browser conflicts. You or your Webmaster can then build a webpage to promote your PDF file. Or if you would prefer, as an added bonus, **I will give you an HTML file created for free**, using the tool in step 3, which you would then upload to your website.

You are now ready to move on to the third and final step to put you in business! Ready?

STEP 3-a.

This is important, so pay very close attention! *If you have your own website and will be uploading your replicated web page that you create in this step, you **MUST** enter the direct link to your PDF file at your website! (If you do not have your own website you should have me manage your files.)* You will need to tell the system the **absolute URL** of your PDF eBook file where it will be placed on your server. "Absolute URL" means you enter the *entire* URL, **beginning with http://** instead of just **www**. *It would look something like this:*

http://www.yoursite.com/yourlogin_texp.pdf

3. (optional) Do you need an html page to serve your pdf?

Your ebook was branded successfully. Scroll Down.

Enter the location (absolute URL) of your pdf

[Create HTML Page Now. Click Here.](#)

"Classified Secrets to EXPLOSIVE Internet Traffic!"

When you have entered the correct absolute URL of your PDF eBook file located on your server, click the button, "Create HTML Page Now. Click Here".

I'm confused, will you manage my files for me?
2. Create Your Custom Branded PDF

(IMPORTANT NOTE: If this is all too confusing then click on the line that reads, "I'm confused, will you manage my files for me?" This will take you to the auto hosting option. All of these steps will be done automatically for you when you press one little button.)

STEP 3-b.

Your screen will now show this after you scroll down, save that file as your replicated HTML page.

<p>Create HTML Page Now. Click Here.</p> <p>The following link will be available for 1 hour. Need more time?</p> <p>http://www.ebookcosmos.com/aff/aklump_bookhtml.html</p> <p><i>(right click to save the file)</i></p> <p>Click Here to Receive This File Via Email</p>

Your data (PDF and web page) will be deleted from my server after only **1 hour, before which you must download them**

“Classified Secrets to EXPLOSIVE Internet Traffic!”

FREE.....AND GET PAID FOR DOING IT!

immediately and upload them to your server. If you choose my hosting option, your files will not be deleted. (You can do this now by clicking [Need more time?](#) From within the brander tool.) Therefore, if you intend to place the PDF and replica HTML page on your own web server, you should have both files sent to you by email (options provided on my brander page) as they will purge themselves from my web server after only 1 hour! If you do not move your files within one hour, you will have to repeat the branding process in order to access your branded PDF and replicated web page.

Now that you have both your PDF file and your HTML page you or your Webmaster can upload these files to your website. You can then start promoting your branded Special Report!

(If I am hosting your Special Report continue reading here.)

STEP 2 IF I AM HOSTING YOUR EBOOK:

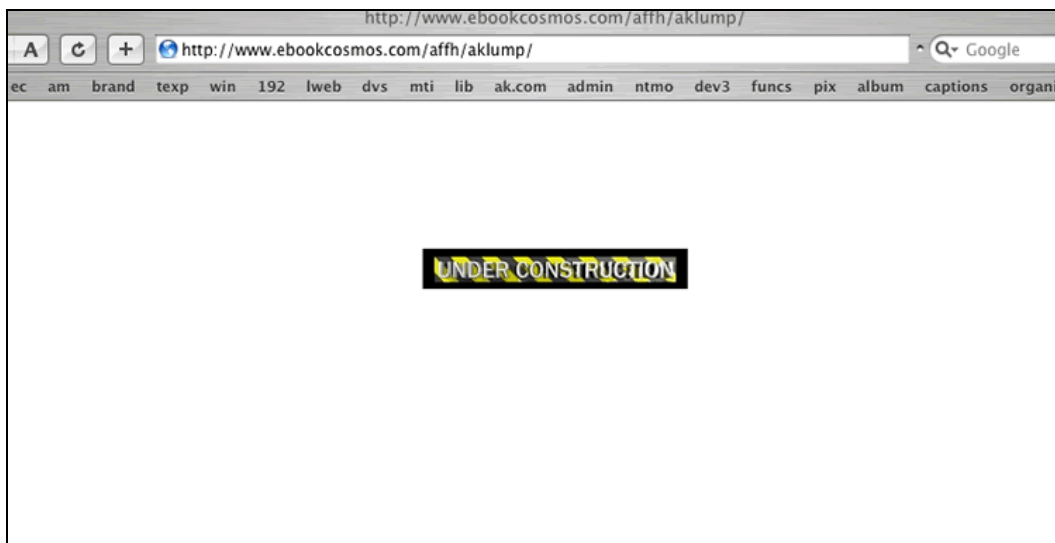

After you have entered all of your affiliate links and saved them, click the button marked, “Click to Build”. You will find this button at the bottom of the brander tool page. The rest is done for you automatically and you will receive an email with your custom website address that you should begin promoting immediately. That’s it!

With this option, one click does it all. You’re now in business!

The email will look something like this:
