**This year the Parent Association takes its first steps toward realizing a long-time dream of establishing an endowment to recognize Packer's exceptional faculty. The Parent Association is proud to announce the creation of the Packer Parent Association Excellence in Teaching Chair. Envisioned as a year-long position of honor, it will be bestowed annually to recognize teachers who have demonstrated excellence in instructing and inspiring our children. Our goal for the next two years is to raise \$150,000 as an endowment for this Chair, ensuring our on-going commitment**

**to our outstanding teachers—after all, they are Packer's greatest asset. As we work toward raising the funds for this goal, the Parent Association has established a special subcommittee, chaired by Packer parent Deborah Marks, to solicit input from the Packer community, including parents and teachers, and to structure the necessary criteria for the nomination and selection of the honorees. This endowment will be formally transferred to Packer and implemented after we successfully complete our fundraising efforts for this special gift.**

# Letter from the Packer PA President

Dear Friends,

I am delighted and proud that the Parent Association is dedicating its major fundraising efforts over the next two years to endowing the Parent Association Chair for Excellence in Teaching. We believe that Packer's real strength is its teachers and are honored to recognize them.

The participation of numerous people is required for a successful evening of this magnitude. Many thanks to the trustees, parents, past-parents, alumni and friends who purchased tickets to this event and continue their support by buying auction items. Thanks also to the many donors as well as the Packer faculty and staff who have helped throughout. Special heartfelt thanks to a wonderful, hardworking committee chaired by the incredible Margaret Leung and Michele Newman.

I hope you enjoy the evening and the reason we're all here.

Sincerely,

Carol Lieb Himes  
Parent Association President

My Packer teachers taught me not just how to write, but to believe that with hard work I could be a good writer, to stand for what I believe in and to voice my opinion (no matter the opposition to it). They also first opened my eyes to archaeology and the ancient world. I am still amazed at how much I remember of what I learned at Packer and how much I still use it.

In the mid 1950s, Mrs. Katherine Clingan asked all of us to fulfill ourselves as individual human beings and not to think "within the box" about what women were supposed to achieve. The two Miss Burgers started me thinking about what was going on in the USA at the time of McCarthy and asked me to decide in my own mind if he was promoting the values of our country or not. I know I would not be the person I am today if it hadn't been for those wonderful guides.

In 11th grade I had the opportunity to undertake an independent study supervised jointly by two teachers. I remember most vividly their commitment to my growth--moral, intellectual, and personal. At the time I may have taken their generosity and engagement for granted. It is only now that I can fully appreciate the gifts they gave to me. They showed me how the heart and the brain can and should work in conjunction both to analyze and change the world.
