

Fantasies

Where sometimes they come true!

What's Up

Can you believe it is already AUGUST?? I know I have complained in every Newsletter so far about how fast time is going by – but I am truly amazed how fast this year is going! Maybe it is because I turned 35 this year... Ahhh who knows it obviously isn't going to slow down so I guess I should just stop bitching about it! ☺

The Meet and Greet for August is going to be on the 12th and a little bit different. We have hooked up with another lifestyle club for this one. The name of the other club is White Rose and they have worked a deal to rent the HUGS building on the weekends

HUGS has nothing planned. We will not be giving up our M&G's at Curley's. We just thought something different would be fun! This is a Free party for any couples who would like to join us. So all you will need is what you choose to drink and your personnel items... like condoms etc.. We will be showing up around 8:30 p.m. and have recently heard a live band will be playing. So let's go give White Rose our support and have a PARTY! The Address is: 11616 Montgomery – Montgomery E. Commercial Center Unit # 43. This is a little tricky to find: You want to turn in the driveway by the Garry's Auto sign.

But seduction isn't making someone do what they don't want to do. Seduction is enticing someone into doing what they secretly want to do already. . . .

Campout

Unfortunately Dave and I were unable to make Campout this year, but Heather and Dion have given us (who didn't make it) the low down on all the fun!

Campout is over and boy did we have fun. We saw many new people and found our old friends from the years past.

We had stargazing every night. A couple of nights were just too cold, but on the rest of the nights it was very warm and clear starry skies and as always Lots of fun. !!!

We did also the body painting by drumming with glow in the dark paints and black lights. OMG, what fun!!! We had lots of people join us for this activity. We painted for at least an hour with waves of people taking turns, when

one group was done and moved to the showers, another wave of people would do the painting. Then we made body prints on paper and hung them up. We did the drumming for 2 nights.

Now we are working on coming up with new ideas for next year! Mark your Calendars The Annual Original Circles *CAMPOUT...2007*

July 22ND to July 29TH

Theme: "CHRISTMAS IN JULY"

Joke

As a new, young MD doing his residency in OB, I was quite embarrassed when performing female pelvic exams. To cover my embarrassment I had unconsciously formed a habit of whistling softly.

The middle-aged lady upon whom I was performing this exam suddenly burst out laughing and further embarrassing me. I looked up from my work and sheepishly said, "I'm sorry. Was I tickling you?" She replied, "No doctor, but the song you were whistling was, "I wish I was an Oscar Meyer Wiener".

Seduction with **ASTROLOGY**:

ARIES

These cowboys or cowgirls are in for the adventure. So never ever be totally available to them. Always keep that mystery going, they need to chase you like a horny hound after a sports car! When you do have them, rub foreheads, massage their scalp, wear read underwear and prepare for marathon sexual episodes!

TAURUS

If you want a Taurus make sure you know how to cook. They know that good cooks often make sensual lovers. Combine food and fucking as much as you can! Nibbles on the neck, playing vampires, and expensive gifts grab their attention too! Play it rough, allow them to tie you up and possess you.

GEMINI

If you've got a brilliant story to tell, save it for seducing a Gemini, the more wild and crazy it is, the more exciting it is for that sexy twin. Change your mind, change positions, change everything, and always keep them guessing, their curiosity is their secret weakness. Kiss and massage their hands and fingers, that's their erroneous zone.

CANCER

These sensual lovers enjoy having their nipples sucked. Touching and admiring their chest works too, also make sure you expose you chest in a sultry manner. Buttons accidentally flying off will drive them crazy. Stroke their tummies as you read romantic poetry to them. If all else fails show up wet, sad and pathetic on their doorstep, they'll forgive you.

LEO

Leos love a long full back massage using expensive oils. Scatter rose petals over the sheets and serve champagne. Let them know they are king or queen of the world. Always say nice things to them. Mirrors on the ceiling turn them on. Expensive sheets and the best mattress is a must, if you don't have them, take them to the best hotel in town.

VIRGO

Love to spank or be spanked, pinched on their bum, and doing it doggie style. Accidental seduction really works here, so take off your clothes because your "hot" and then start kissing them madly. Worship their sexy belly, by stroking it with a feather. They are into the beauty of love making, let them decide what to do next. They also love to play nurse.

LIBRA

They like kisses on their bum, or lower back massages. They love to be blindfolded and teased. Whisper sensual things to them, let them know how much you absolutely admire them. Soft music and sensual lighting gets to them too. Always look your best, and make sure your place sparkles. Lots of rose scented candles turn them on.

SCORPIO

They like it all, but don't be afraid to get down and dirty. If you're innocent you won't be for long! These magnetic masters of obsession take fucking to a whole new level. (Some say it's a religious experience) Love them completely, ecstatically, and yet don't quite surrender all of yourself, then need that challenge to keep them coming back. They outdo just about everyone when it comes to endurance, even an Aries! Oh and watch out for that sting, it can tear your soul to pieces.

SAGITTARIUS

They like to be the hero, so ask them to save you. Deep kisses on their inner thighs. Sometimes planning savage is fun too. Most Sagittarians are into spanking someone, anything from a playful smack to a down right paddle whooping. Sometimes they don't know their own strength so always agree on a safe word first.

CAPRICORN

A Capricorn loves it when you've got a business plan. These creatures are drawn to the office affair more than anyone. They love to have their legs massaged, and kissed. Show them your full of conviction and sensuality and you've got their number. Be prepared to show them your resume as well, they don't like slackers!

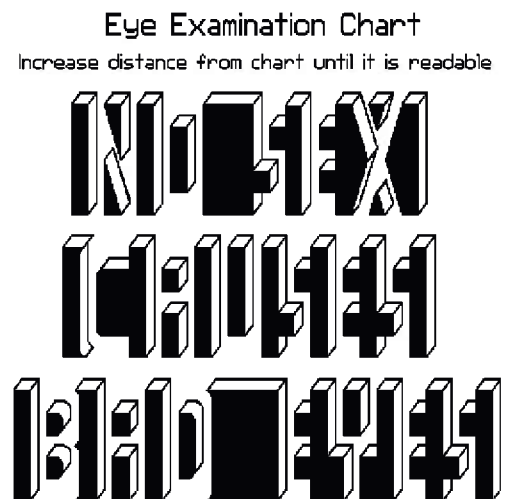

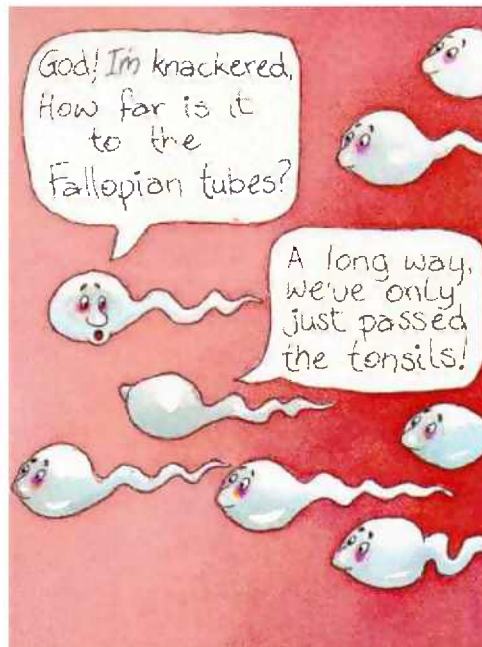

AQUARIUS

These wild and crazy types like to have their ankles chained to the bedpost. Tease them with a great new social ideal. Much like Gemini's they want to know you've got some deep thinking going on in your head, so be prepared for a contest of wit before getting them into the bedroom! Sex in strange places also excites them, the more public the better, many of them are avid members of the mile high club.

PISCES

Romantic whispers work for these ethereal creatures. They love the fantasy so be prepared to make several up, and tease them with dirty stories where they are the object of admiration. Soft music, comfy sheets, whispers in the dark and endless kissing works for them too! They've got a foot fetish too, so be prepared to suck a few toes.

Hope you have liked the newsletter so far. The next couple of pages is my current story. I am sorry this one is a little long, but I am being encouraged by a friend from work to write collection of short erotic and nasty stories to be published in a book. Please let me know what you think of this story.... Or any pointers would be great as well.... Deb

Friday Morning ~ by Debbie of Fantasies

Looking around the dark room nothing seems out of place. I hold my breath to see if any strange sounds come from somewhere else in the house but nothing comes. What woke me up? My room is hot and my skin is sticky in the night air. It has been so hot lately; maybe that is why I have woke up today at 2:00 a.m.

As I start to relax and my heart starts to slow its pace I realize my nipples are hard and, thighs are wet, and I know what has woken me up. Another dream that must have been erotic as hell... too bad I can't remember it! This is starting to happen a lot. Ever since I met Tony and he introduced me to the swinging lifestyle, and I have started exploring my sexuality, I can't seem to get enough.

I know I can't call him, for a little one on one phone masturbation because it is way too early and I know he has not been asleep for very long, so what to do? I know sleep is out of the question and I can't go to work this early.... I am just so horny; maybe a cool shower, and I can take my time getting ready for work. Besides it is Friday morning, so all I have to do is make it through the workday, and the weekend is here! I can't wait for today to be over! This weekend is the start of our vacation and we are heading off to a lifestyle resort for a whole week, nothing but socializing, and hedonistic camaraderie.

As the cool water hits my skin it is almost orgasmic, the water runs over my shoulders and down my body. Removing the showerhead from the holder I lie back in the bottom of the tub and shave my legs and wash my hair. This would be a perfect time to trim a design into my pussy hair since I have all this time, so as I start the design my legs start quivering again and I shave a portion of the design off, shoot, oh well I will shave it off completely. Besides it will feel great under my skirt if there is any breeze today. Lifting my legs onto the sides of the tub I carefully shave the remaining hair from my sensitive skin. I have done this many times before, but this morning my body is responding to my touch and the touch of the razor. My pussy is feeling really wet and hot, and I know it isn't from the shower water. Using the showerhead to rinse, I find it irresistible not to let the water bring me to the orgasm I have been holding off. Pushing the head close into my wetness I feel the water fill me and the spray hit my clit, my heart is racing and my eyes can't focus as I relax and feel the electricity fill my stomach and move out across my body to my head, fingertips and toes.

Feeling much better I complete my mundane morning ritual and grab the paper a Marlboro and a cup of coffee, heading to the patio to relax before I head out for my day. Finishing the paper and coffee I get this nasty idea... Should I do it? Could I make it through my day? I am going to try it... I head to my room and pull out my hidden toy bag, digging to the bottom I find what I am looking for and head back into the bathroom to wash them. Stripping off my skirt I roll the steel balls around in my palm and debate whether I should attempt wearing them through out the day at work... why not I ask myself. If it becomes too much I will just take them out and put them in my purse.

I slip the balls inside of me and pull my panties and skirt back on. Well if nothing else it is going to be an exciting Friday. I get in my car and head to the hospital for my shift only ten hours to go till the weekend and with a secret that will keep me smiling through out my day.

Riding in the car was great, feeling the balls shift around and rub all the right places really was exciting – hell I should make this into an every Friday type of thing! Walking into the Emergency room I look around and I can see already I have picked the wrong day to attempt using my toys at work. Heading to the Ladies room I remove the balls and drop them into my purse and head to the floor.

The day stayed so hectic and I was so busy I really didn't miss the toys I had planned on using during this shift and I never even had a chance to think about the weekend once until the day was over. Clocking out I head back to the ladies room and grab my "friends" again from my purse and after washing them I slide them deep inside of me, feeling the coolness of the steel as my softness folds around them and welcomes them without protest.

Heading for Tony's, I knew he would be getting home in about an hour. This will give me time freshen up and maybe do some vacuuming. Tony walks in and I watch him slide into his chair, exhausted from his long day. How was your day? I ask - it was all right he tells me real busy though I am beat. Thanks for vacuuming that was very nice of you. I smile at him and he gets this knowing look and says through his smile oh so you have your balls in. I shake my head affirmative and slide to my knees in front of him. Unzipping his pants I tell him, I had an interesting morning, and I would like to tell you all about it but I really need to get you into the right frame of mind first. He looks down at me as I smile up at him and lifts his hips off of the chair to give me access to his swollen shaft. Hmm looks to me like you are in the same frame of mind as I am in already, but I can't let this go to waste. I slide my mouth over the tip and rub my tongue around the edge. I just love the feel of him on my tongue. He is just so soft and yet hard at the same time. I ease the rest into my mouth and down into my throat to feel his stomach rest against my nose and chin. He lets out the groan I have learned to love so well. I start sucking on him like I am trying to drink from him instead of a bottle, then I move back up to the top to tease a little more, I can't take it any longer and start moving him in and out of my mouth enjoying every movement across my tongue and the roof of my mouth knowing with the right coaxing I will get the fluid I am so desiring.

After an hour or so of teasing and me telling him of my morning, we fix dinner and climb into the shower. He soaps my body for me as I stand at the back of the shower, feeling his hands move across my skin sets my body on fire, do me bent over with the shower drumming down on us. Please Tony just a quickie I just need to have something in me now! I lean over and rest my hands on the handles of the shower, he pushes himself all the way in and stops...why did you stop? I ask, please don't stop. He leans over and rests his stomach on my back. You still have your balls in he tells me, am I hurting you? Shocked I tell him no It is feeling really good! No wonder I am so insatiable I forgot I still had them in. Please don't stop moving, I will tell you if it starts to hurt. He slides in and out slowly and then

more rapid, my orgasm slams into me and I feel the rush of liquid pour out of my pussy, around Tony's dick and down my legs. ... I am sorry I am going to cum I can't hold it with the feeling of the balls rubbing on me inside of you. Yes cum for me let me feel you cum. When Tony filled me with his cum I came hard again and he held me up so I didn't collapse to the floor. Squirted more than I have ever done in my life (thankfully we were in the shower) I was totally exhausted and we headed for bed.

Finally climbing out of bed the next morning, we gathered up the rest of our stuff and head for the resort. It was a great beginning to what I am sure it will be a great vacation! Leaning over and kissing Tony's mouth have I told you lately I love you and thank you everyday for introducing me to such a wonderful lifestyle? Yes but I never get tired of hearing it though and I love you too.

The resort was beautiful and there were people everywhere. As we stood at the front doors looking around a cute blonde and brunette in bikinis came up and introduced themselves and pointed us in the direction of the check in counter. I look at Tony and see the appreciative look in his eyes (as I am sure was also written all over my face) and he whispers I think this is going to be a very fun week.

The first day we relaxed, unpacked and wandered around meeting other couples and figuring out what was where and all the normal logistics you always do going to a lifestyle function. The second day while I was sitting out by the pool, and Tony was in with some of the other guys talking. The brunette who we saw when we arrived came over and asked if she could sit by me. Of course I replied, and I am sorry I have forgotten your name. She smiles and tells me I am Julie and I have forgotten your name as well... I am not great with remembering names, unless I get to know them really well. Then she winks. I'm Tanner and my boyfriend's name is Tony. Julie smiles yes I met Tony just a bit ago actually that is why I am here. You see John my husband and Tony are in the club watching some show on TV and I was wondering if you would like to join me in interrupting their afternoon. Smiling I stand and tell Julie sounds great let's go. Hold on one moment lets see if Lisa and Tami want to join us. In my head I am thinking this can't be happening! I am totally in heaven, but I tell Julie, yeah that would be great.

Lisa, Tami, Julie and I all gather and start discussing what we should do to get their attention, deciding on the blunt approach, we all walk into the club house and look around to see who is all around, not seeing anyone we all remove our clothes and move in front of the TV and start reaching for each other as we sink to the floor. It wasn't long before I was spread out on the floor with all the women around me and Tony by my ear asking me if I was enjoying what was happening, of course I had problems answering, but he understood I was having a very good time, when I moaned through my first orgasm. Thankfully Tony was thinking and told the girls to hold up a bit because I tended to squirt and we would make a mess on the clubhouse floor if we didn't move this party to our room. We stood and started heading for the door, when John tells us he already had made plans with one of the other couples for the afternoon. Go have a good time. Hey Tony don't let them wear you out so you are no good for the rest of the week, there are a lot of other people you two haven't met yet. At that point I knew we had been swooped by a veteran Swinging couple who had been to this resort many times before... but I didn't care (not that I have ever cared about being swooped – it is usually really fun!) Tony, Lisa, Tami, Julie and I headed for our room; I walked a little slower back by Tony and asked him if he was going to be ok with all four of us, I had to smile when he responded hell yeah!

Stepping into our room, everyone started shedding any clothing they had left and headed for the large king sized bed. It didn't take long before Julie took charge of the situation...

Lisa and Tami why don't you two take Tony into the shower and clean him up real good, I would love to hear him moan from here if you two know what I mean, and Tanner and I are going to get things started in here and will be waiting for you three when you return. Everyone was just fine with this idea and we all headed to our designated areas.

Julie climbed on to the bed and laid on her side motioning me to join her. Any thought I had about being the "giver" vanished as I climbed up beside her. She placed her hands on my cheeks and brought my lips to hers kissing me lightly when I responded to her kiss she slid her tongue into my mouth and I melted in her arms. The next moment I realized I had changed positions and Julie was licking my nipples and running her hand across my stomach. Her hand is so soft it feels like velvet sliding across my stomach and hips. She brings her face up and looks me in the eye telling me before we start getting to carried away lets look in on how the girls are doing with Tony. We slide off the bed and walk to the bathroom where the door is open. Standing there and looking at the most erotic sight I have ever seen, I feel my pussy tingling and starting to get wet again.

Tony is in the shower with Lisa and Tami, the shower walls are made of these beautiful clear glass blocks and Lisa's face is pressed against the glass in the most excruciatingly erotic way just looking at her as Tony stands behind her with his dick buried as far as it will go and Tami kneeling on the floor below them licking and sucking them both as Tony's dick moves in and out makes me cum and I have to hold onto the door frame as not to crumble to the floor. It is absolutely incredible, I tell Julie. She looks over and smiles, and tells me lets go play and leave this to finish so they can come join us in a bit.

Following her I head back to the bedroom and she gently shoves me onto the bed, climbing in between my thighs I feel her nipples rub across the outer edges of my pussy and up across my stomach. Sliding one of her fingers up inside of me I feel my body start to tremble, it isn't going to take much to get me to cum again. I am so sticky and wet I can hear her finger move in and out of my hole. Gently she adds another finger and moves them back and forth opening my pussy wide and allowing it to close again. I cum so hard from her attention I feel the rush of liquid pour out from my pussy, and I hear her moan as she slides three fingers back into me and starts moving them in and out. The room is spinning and my eyes are blurry and I feel like I am going to cum again, I tell her god I am going to cum again. She tells me to cum and I fill her hand with fluid as she leans down and bites softly on my clit, with this the room explodes and cum again and again. As I am calming down I hear Tony, Lisa and Tami come into the room.

I feel Tony kneeling beside me and I turn towards him and take his dick into my mouth. Looking up I watch Julie kiss him and I feel his dick get harder in my mouth. I moan with the sensation and he pushes deeper into my mouth. As I suck him even deeper into my mouth I feel fingers on my nipples and in my pussy all at the same time. I am feeling like I am on a roller coaster and I unable to stop cumin. It is the most erotic situation I have ever been in.

When Tony is about to cum he pulls out of my mouth, and kisses me. I collapse backwards onto the pillows and Lisa stands and straddles my face and eases down onto my waiting lips and tongue. Her pussy is hot, wet and filled with Tony's cum. I eat her like I am starving. The taste of her and Tony together is mind blowing and I can't get enough. I really didn't things could get any hotter when I felt Tony's dick slide into my sloppy pussy as Lisa and Tami traded places, Tami eased her cum filled pussy onto my mouth, and I heard Julie moan under Lisa's attention. Tony's dick was so deep and hard and Tami's pussy was hot and sloppy. It was one of the best times of my life!
