“ **Tips Keberhasilan dalam belajar.** Jika ingin berhasil dalam belajar ingat disiplin, bersikap jujur dan pantang menyerah. Salah satu kunci penting untuk meraih keberhasilan adalah disiplin. Dengan membiasakan disiplin, berarti kamu menghargai betul waktu yang dijatah setiap harinya. Pelajar yang sukses harus mampu mengelola waktu untuk setiap aktivitas. Selain disiplin kamu harus bersikap Jujur, Contoh dari sikap tidak jujur adalah menyontek, atau curang, saat ujian. Ketika melakukannya, kamu secara tak sadar telah mengambil jalan pintas dengan rambu larangan. Jika kecurangan itu berjalan mulus, rasa bersalahmu akan memudar untuk melakukan kecurangan-kecurangan berikutnya. Jika ingin menjadi pelajar sukses, jadilah pelajar yang jujur dan memiliki prinsip yang baik.

”

“ Lebih penting lagi ada adalah sikap pantang menyerah. Kamu telah menentukan target, dan ingin meningkatkan kemampuanmu dari yang sebelumnya. Tetapi, setelah berusaha keras, hasil yang didapatkan melenceng dari sasaran. Akhirnya, kamu merasa hanya berkembang sedikit. Jika hal ini terjadi, jangan mudah menyerah. Banggalah terhadap apa yang sudah kamu lakukan. Kamu tidak gagal sama sekali, melainkan mengalami keberhasilan yang tertunda. Hal itu semata demi membuatmu paham akan pentingnya proses. ”

Lionel Messi, in full **Lionel Andrés Messi**, also called **Leo Messi**, (born June 24, 1987, Rosario, Argentina), Argentine-born football (soccer) player who was named Fédération Internationale de Football Association (FIFA) world player of the year five times (2009–12 and 2015).

Messi started playing football as a boy and in 1995 joined the youth team of Newell's Old Boys (a Rosario-based top-division football club). Messi's phenomenal skills garnered the attention of prestigious clubs on both sides of the Atlantic. At age 13 Messi and his family relocated to Barcelona, and he began playing for FC Barcelona's under-14 team. He scored 21 goals in 14 games for the junior team, and he quickly graduated through the higher-level teams until at age 16 he was given his informal debut with FC Barcelona in a friendly match.

In the 2004–05 season Messi, then 17, became the youngest official player and goal scorer in the Spanish La Liga (the country's highest division of football). Though only 5 feet 7 inches (1.7 metres) tall and weighing 148 pounds (67 kg), he was strong, well-balanced, and versatile on the field. Naturally left-footed, quick, and precise in control of the ball, Messi was a keen pass distributor and could readily thread his way through packed defenses. In 2005 he was granted Spanish citizenship, an honour greeted with mixed feelings by the fiercely Catalan supporters of Barcelona. The next year Messi and Barcelona won the Champions League (the European club championship) title.

During the 2009–10 seasons Messi scored 34 goals in domestic games as Barcelona repeated as La Liga champions. He earned the Golden Shoe award as Europe's leading scorer, and he was named the 2010 world player of the year (the award was renamed the FIFA Ballon d'Or that year).

Messi led Barcelona to La Liga and Champions League titles the following season, which helped him, capture an unprecedented third consecutive world player of the year award. In March 2012 he netted his 233rd goal for Barcelona, becoming the club's all-time leading scorer in La Liga play when only 24 years old.

A thunderstorm is a rain shower during which you hear thunder. Since thunder comes from lightning, all thunderstorms have lightning. Usually created by surface heating, convection is upward atmospheric motion that transports whatever is in the air along with it, especially any moisture available in the air. A thunderstorm is the result of convection.

Thunderstorms are most likely in the spring and summer months and during the afternoon and evening hours, but they can occur year-round and at all hours. Along the Gulf Coast and across the south-eastern and western states, most thunderstorms occur during the afternoon. Thunderstorms frequently occur in the late afternoon and at night in the plains states.

Many hazardous weather events are associated with thunderstorms. Under the right conditions, rainfall from thunderstorms causes flash flooding, killing more people each year than hurricanes, tornadoes or lightning. Lightning is responsible for many fires around the world each year and causes fatalities.

33. "Thunderstorms frequently occur in the late afternoon ..."

The underlined word has the similar meaning to

Lightning is one of Nature's most dangerous phenomenon. The average lightning flash could light a 100 watt light bulb for more than three months. The temperature of a lightning bolt may reach 27 .7600C which is hotter than the surface of the sun.

Lightning is not only an outdoor hazard. In house without adequate lightning protection, it can be dangerous to take a bath or shower. The electric shock could be delivered along the water pipes. There is also the risk of lightning shocks being transmitted via telephone or plugged in electronics in houses without protection. Thus, people who live in these houses should unplug telephones, computers, and televisions during storms, protecting them from damage in case of lightning strike. If that is too much work, it's much safer to at least install special socket inserts that protect against surges.

41. Who probably writes the text?

- A. A student
- B. A reporter
- C. A scientist
- D. A historian

42. The text is mainly about ... of lightning.

- A. the power
- B. the danger

- D. the definition

43. Which of the following is prohibited to do when there is lightning in a house without lightning protection?

- A. Sweep the floor
- B. Turn on the torch
- C. Turn on gas stove
- D. Vacuum the carpet

This text is for 44 to 46.

Penguins are torpedo-shaped, flightless birds that lives in the southern regions of the Earth. Though many people imagine a small, black-and-white animal when they think of penguins, these birds actually come in a variety of sizes, and some are very colourful.

For example, crested penguins spot a crown of yellow feathers. Blushes of orange and yellow mark the necks of emperor and king penguins. What look like bright yellow, bushy eyebrows adorn the heads of some species, such as the Foirldand, Royal, Snares and rock hopper penguins. The macaroni penguin's name comes from the crest of yellow feathers on its head, which looks like the 18th-century hats of the same name. A light yellow mask covers the face of the yellow-eyed penguin around the eyes.

<http://ainamulyana.blogspot.com>

44. What is the purpose of the text above?

- A. to describe about a Penguin
- B. to tell readers how penguins live
- C. to inform the readers the kinds of penguins
- D. to tell facts about Penguins

45. Paragraph 2 describe penguins in terms of its...

- A. shape
- B. habitat.
- C. sizes.
- D. colour

46. "Penguins are torpedo-shaped, flightless birds that live in the southern regions of the earth."
