

# **AFTER THE DANCE**

CTW OR POP  
MALE OR FEMALE

## **VERSE**

The evening air enchanted  
The two of us that night  
The stars spelled out a love song  
A poet couldn't write  
It all was orchestrated  
Not one thing left to chance  
A million ever afters  
From one night at the dance

## **VERSE**

The world will find us dancing  
As years drift slowly by  
I'll keep the fires in your heart  
And embers in your eyes  
I'll always stand beside you  
No matter where you turn  
'Cause I know I'll be getting  
That same love in return

## **CHORUS**

After the dance  
We'd never recall  
What life would be like  
In the real world at all  
When two missing pieces  
Slipped into a rhyme  
To another dimension  
Forgotten by time

## **VERSE**

Each night when I'm in dream land  
Again I'll hold you tight  
We'll walk off with that trophy  
The way we did that night  
We'll glide on magic carpets  
In sequined dance arcades  
Remaining on the dance floor

'Til our last waltz is played

## **REPEAT CHORUS**

The music still plays  
And we both know it will  
For the rest of our days
