UPBEAT C+W
OR POP OR ROCK

Now I never planned
on no fancy abode
With a back talking woman
who don't love the road
I'm traveling light
And I'm traveling fast
Searching the sunrise
Forgetting the past

CHORUS

The hum of those big wheels
keeps taking me in
And taking me over
Those old roads again
Where's there's no backtalking
We always agreee
Doing things my way
The highway and me

I don't need no family
I go it by luck
I'll sleep in a palace
Or sleep in a truck
I'm born to the wind Lord
I give you my word
Just like that old highway
I'm free as a bird

REPEAT CHORUS

Now all the girls love me
And they come on strong
But like and job Lord
We never last long
Cause I'm always careful
To live by this code

Don't hug em too long
While you're huggin the road

REPEAT CHORUS
