"SMILE THAT COULD MELT THE MOON"

V1)

Oh he was so smooth
He held out his hand and said would you
Dance with me till we fall in love
I thought what a line
I tried to resist his charms all night
Finally I folded up

CHORUS

He's the kind that could get by just on his good looks
But his heart's big like bluebonnet fields in Texas in June
It wasn't his muscles or tan I fell in love with
It's his smile that could melt the moon

V2)

We dated two months
Then one night on one knee he said hon'
I love you please become my wife
I called my girlfriends
To tell them the news and brag a bit
They all asked me what is he like

CHORUS

He's the kind that could get by just on his good looks
But his heart's big like bluebonnet fields in Texas in June
It wasn't his muscles or tan I fell in love with
It's his smile that could melt the moon

BRIDGE

My daddy warned me
Watch out girl he's too pretty
He's probably stuck on himself
I know he loves me
I'm the one he wants to marry
Oh daddy you'll see for yourself

CHORUS

He's the kind that could get by just on his good looks
But his heart's big like bluebonnet fields in Texas in June
It wasn't his muscles or tan I fell in love with
It's his smile that could melt the moon
