VERSE

One day I just stopped by to see my grandpa  
And I noticed he was acting kind of strange  
He was dancing in the arms of a younger lady  
He was so excited he didn't know her name

VERSE

I pulled him aside and asked him what was goin' on  
And I'll never ever forget what he said  
Just 'cause I'm old don't mean my life is over  
And I won't let how I feel go to my head

CHORUS

He's doin' the Viagra Boogie  
It's the dance that made me write this song  
Since viagra's come around, he's the talk of the town  
He's doin' the viagra boogie all night long

VERSE

I can't remember Grandpa ever actin' this way  
When I look I can't believe my eyes  
I never thought that a man his age can do the things he does  
When he told me I didn't realize

CHORUS

He was doin' the viagra boogie  
It's the dance that made me write this song  
Since viagra's come around he's the talk of the town  
He's doin' the viagra boogie all night long

BREAK

REPEAT CHORUS
