

# *Santa's Shamanic Journey*

*By Santa's elf - Don Meinshausen*

According to Dr. Michael Harner PhD, author of "The Way of the Shaman", Santa Claus was a northern European shaman who used psychedelic mushrooms. These red and white mushrooms grew on droppings. They were found under evergreens by deer that were trained like the pigs that find truffles. Sometimes smoked in a pipe this experience has been compared to going up a hollow tree or chimney.

**Oh you better not shout  
'Cause narcs might come by  
You better watch out  
I'm telling you why  
Santa Claus comes in a mushroom**

**This mushroom is red and white  
Causing spirits to fly  
Eat it and you might take flight  
It's really an amazing high**

**What Shaman's are about  
Yule know if you try  
It will remove doubt  
As visions come nigh  
Santa Claus was always a high**

**Magic mushrooms grow in shit  
And found by reindeer  
With Santa's pipe go take a hit  
Just go check if narcs are near**

**Shaman goes up a chimney  
Along with his smoke  
If you want the mystery  
Just take one more toke  
Santa Claus; a shaman you see**
