

THE TINFOIL TIMES

THE MONTHLY NEWSLETTER OF THE GOLD COAST TREASURE CLUB, INC.

VOLUME 32 NUMBER 10

OCTOBER 2007

**THE NEXT MEETING WILL BE 7:30 P.M. OCTOBER 11
AT THE WEST PALM BEACH GARDEN CLUB IN DREHER PARK
IN WEST PALM BEACH, FLORIDA**

OUR CODE OF ETHICS: HAVE PERMISSION AND DO NO HARM

OCTOBER MEETING

John Lobota will treat us to a special DVD presentation on October 11th: *"The Search for the Real Mount Sinai,"* a documentary DVD covering the highlights of the true treasure adventure as written in the book *"The Gold of Exodus."* Spies, missiles, and secret military installations are just some of the obstacles that Larry Williams and his sidekick Bob Cornuke must confront in their unprecedented journey to find the lost treasures of Moses. They risk their lives sneaking into the Kingdom of Saudi Arabia to find the sacred mountain and live to tell about it.

The movie is 50 minutes long, so we will have an intermission for refreshments, to be provided by **Jan Smirnow**, and then we will watch the second half. Members may want to bring a cushion for their seats. **Donna Russo** volunteered to be our October Mystery Stumper. Thanks Donna!

JOIN US FOR SOME PRE-MEETING FUN!

Each month, a group of us gather for dinner at 5:30 p.m. before the meeting. Everyone is welcome! Join us in the back room of **PA BBQ**. Dinner is Dutch Treat, meaning, we each pay our own way.

**Park Ave. BBQ & Grille
2401 North Dixie Hwy (US 1)
Lake Worth, Florida**

Please remember to return any library books or videos that you checked out last month so that others can enjoy them. Thank you!

NOVEMBER PROGRAM

Our November 8 meeting will feature **Bill Landry** who will share his love of Antique Bottle Collecting, a form of treasure hunting that many of us have never tried. A self-proclaimed "bottle junkie" since 1969, Bill is an auctioneer who will travel from northern Florida to join us to share his passion for his hobby. Plan to be there for an interesting evening. More details will be in next month's newsletter.

CLUB HUNT

The October club hunt will be announced at the next meeting. Linda is still hoping that a member will volunteer to host a hunt this month. Just select a place to go hunt. You do not need to do a planted hunt or have prizes. PLEASE call Linda!

SEPTEMBER CLUB HUNT

Just before a beautiful sunrise on September 8, **Ben Smith** arrived at Jupiter Beach to secure picnic tables and plant over 500 objects on the beach. The few early birds talked with SeaHunter (his posted name on the Treasure Net forum). He belongs to the group that is working on the Jupiter wreck site.

Sixteen club members were able to complete the hunt and receive prizes before the storm began. Two items were found that were not part of the planted items. **Ken Lubinski** found a medic alert tag which he plans to try to return to the owner and **Frank Nash** found a gold and diamond ring. Frank had dug a hole that was at least halfway to China! **Mindy Spiroch** helped Frank to retrieve the item. Various planted items were exchanged for prizes. Each winner had a choice of an envelope or a cigar box which held different prizes.

EYEGASSES, CELL PHONES AND INK CARTRIDGES

Club members are encouraged to bring in prescription glasses and sunglasses, which will be donated to underprivileged people suffering from vision problems. **Stacey** collects these during our meetings so the club can donate them to the South Florida Lion's Club.

Jan Smirnow is collecting cell phones and ink cartridges. NOTE: All ink cartridges need to be kept enclosed in plastic baggies so the cartridges do not dry out. Donations can be placed in the box in the back of the room. Help save our planet AND raise \$ for GCTC!

BURIED COIN CACHE CLUE ONE

To find the cache you'd best take a stroll,
somewhere close by - how 'bout Lake O.
Not the one to the North and West,
look here in town, it'll be for the best.

Burial of cache and clues are provided by **Ernie Bouyoucas**. If found by a club member, that person will receive a prize of \$25.

INTERNET TIPS

This great tip comes from the TreasureNet forum: Wearing Polarized sunglasses while in the water increases your \$\$\$\$. Read the post made by *Sandman*, below:

"If you haven't started wearing Polarized sunglasses while water hunting, you should. I mainly hunt early mornings when the wind hasn't picked up much to ruffle the surface of the water. The glasses allow you to more clearly see the bottom for finding things like dollar bills, etc. that wash out of pockets. It's a little more difficult to catch the bills as they wash about in the waves in saltwater, but in freshwater they just lay on the bottom waiting for you."

Has anyone here ever used something like this to sift a beach?

<http://www.hbarber.com/Cleaners/SandMan/Default.aspx>

Safety first! Many of us hunt during the evening hours using only a headlight to see a limited area of the beach. Unfortunately, this increases our chances of crossing paths with unsavory type of characters. We all think that this will never happen to us. But it did happen to a metal detectorist at Daytona Beach. *"It was dark at that section of the beach because of the sea turtle nesting season. I was leaving the beach and was walking up the driving ramp towards my jeep. Without any warning, I was hit over the head by punks looking to rob an "easy" mark. I went down to the ground and was really "woozy" & seeing stars. Somehow I didn't lose consciousness and was able to start swinging my long handled scoop. I guess that they weren't expecting their victim to fight back so they ran off. I was able to call 911 on my cell phone and stumble to a local hotel and wait until help arrived. At the hospital the test showed that my injuries are minor (slight concussion and neck strain)".*

The above was posted on the Treasure Net Forum.

You need to be aware of what is going on around you at **ALL** times, day or night, no matter where you are hunting. Hunting with a buddy is wise; stay near each other at night! Many partners wear walkie talkies and cell phones. Blinking red lights that are used on bikes as a safety feature are a great way to keep track of each other in the dark. **Cheryl Petenbrink** wears one on her back. That way her family can see either her headlight from her front or the red blinking light on her back.

SEPTEMBER PROGRAM

September's meeting started off with a presidential greeting to 35 members, two guests and new member **Jose Paredes**. Welcome Jose!

Our program, "What I Did on My Summer Vacation," started with President **Ernie Bouyoucas** telling about his vacation in Virginia, where he did some *legal* Civil War hunting. Ernie reported that he found lots of shotgun shells, a few musket and pistol balls, and lots of "ticks, gnats and barbwire!" According to Ernie, "The really neat part of finding Civil War Relics is being the first to handle the items since the combatant!" Later he and his wife, Sharon, were traveling in the Biloxi, Mississippi area when he noticed flashing lights gaining on him. A bit unnerved, he pulled over only to find out they were not chasing him; but were just a caravan of State Troopers, black limos and more State Troopers. "It was President Bush's motorcade heading to New Orleans!" Not to be intimidated, Ernie joined the caravan for about ten miles.

Jim Sharp, who serves as Director of Security for The Breaker's Hotel, reported that while cleaning up stuff from the year 2000 he tripped over two five-gallon buckets of coins in the storage area. Turns out the coins had been collected from 1995 to 2000 from the hotel's fountain. He tried to donate the coins, but several charities refused them, due to the fact that "they had been in water." Jim is now busy cleaning the coins for charity!

Frank Nash and his family did an RV trip last year. Pauline managed to collect a five-gallon bucket of pennies from Alabama to Phoenix for a total of \$100! Good Work Pauline!

Paul Hamlin – our money man, found a leather bracelet with a \$100 bill hidden inside! Paul and Marjorie traveled by van from Florida to Ohio, stopping along the way to collect shells (for their store) and to do a little metal detecting. First stop was Ivy Island off the coast of Georgia. Paul headed for the beach down the sandy path and right off the bat found an 18K pendent with 19 diamonds! After really putting a lot of effort into searching for the chain, he only found 2 junk rings. The beach filled up, so he had to continue the trip – but he promised himself "I will go back." Paul reports that he had always wanted to hunt Dr. Sam Sheppard's home (behind it) and he finally did. Result? Paul found an unbelievable amount of shotgun shells, a platinum ring, his first watch and a small gold ring. Sounded like Marjorie and Paul had a great trip!

John Lobota – went to visit with club members **Gerard** and **Geri Beaulieu** in New Foundland. John said "Plan a detecting vacation! It is a great way to have fun and find interesting things." He and Gerard camped out on a deserted island for five days metal detecting. They found a lot of 1800's coins and took great pictures of whales and icebergs.

Stacey deLucia – combined a visit with her brother, Mike in Virginia Beach, and metal detecting. "We got up

in the middle of the night for low tide hunting each of the five days I was there. We got to the beach as early as 1 a.m. Didn't find anything good until the *final* day when I found a plain silver ring, but I did capture photos of the most beautiful sunrises! Had a *great* time riding with my brother on his motorcycle and I must admit I was scared at first – but before long, I really wanted to speed! Wouldn't you know it, soon after I got home to West Palm I went to a local beach and my *very first beep* and in my *first scoop* was a 14k gold chain with a medallion!"

Good girl gone bad! Stacey shows off shoulder tattoo!

Treasurer **Ken Lubinski** asked the members to start bringing in their pulltabs. We will donate them to the Ronald McDonald House, but first we have a special project coming up with them. So help clean up the beach and pick up those pulltabs!

Frank and **Pauline Nash** provided a great refreshment feast with fried chicken, potato salad, cheese cake and chocolate cake. Thanks, guys!

Ben Smith won the current raffle items: an \$80 pin pointer; \$30 soil digger; a \$20 plastic scoop and a \$25 certificate to the Juno Beach Fish House.

September birthday celebrants **Ernie Bouyoucas**, **Sam Frost**, **Jonathan Lobota** and **Gary Spiroch** received a silver quarter for attending the meeting during their birthday month.

HAPPY BIRTHDAY THIS MONTH TO:

Geri Beaulieu (10/17)

Karl Bennett (10/9)

Wayne Daniels (10/17)

Eva Gorzkowski (10/10)

Kurt Herring (10/28)

Gail Hoskins (10/21)

Jerry Laur (10/18)

Jan Smirnow (10/27)

Robert Smirnow (10/6)

James Smith (10/31)

What do the above people have in common? If they come to the meeting during their birthday month, they each will receive a gift of a silver quarter!

Helpful Tips from John Lobota Cleaning Copper & Bronze Coins Part 2

First I would like to make a short addendum to Part 1 of coin cleaning. Cleaning coins by the methods previously noted can take much time and patience. The process is not one to rush; neither can one expect quick and easy results. However, there is a way to save time and effort.

Electrolysis is a simple, quick and extremely effective way to clean copper and bronze coins. It is used for heavily encrusted coins and is the method preferred by treasure salvors and for ancient coin hoards. Every detectorist should make and use their own electrolysis unit.

See a full tutorial on how to make and use an electrolysis unit here:

http://gometaldetecting.com/electrolysis_cleaning.htm

Any method of cleaning copper or bronze coins that leaves only the bare metal surface of the coin may warrant toning to bring back a more natural and appealing patina. I will cover some methods for making a cleaned coin more appealing in Part 3 next month.

CLUB T-SHIRTS

Sign ups for a club t-shirt began at the September meeting. Orders will be placed after the December meeting. The shirts, which will feature an 8 inch silk screened club patch on the front, will be crew neck style made out of 50/50 cotton and polyester. You have a choice of white or royal blue. Sizing is based on men's sizes. Cost will be \$12 for small, medium, large and extra large. XX large and larger sizes will be \$15. Shirts should be available by the January meeting. Either sign up at the club meetings or contact **Linda Bennett** by email or telephone to place your order.

HOLIDAY RAFFLE

Ed Weston is at it again! He has made another one of his fabulous Holiday Trees and donated it to the club to be raffled off at the Holiday Party. Tickets are \$1 or 6 for \$5.

Ed said "There is a secret message written on the tree somewhere." **Linda Bennett** offered a Silver Quarter to the finder. **Pauline Nash** found it right away!

MEMBER TIPS

John Lobota - This is the treasurenet.com Shipwreck Forum....Scroll down the page; there are about 40 images of crew, boat and finds from the Jupiter wreck.

<http://forum.treasurenet.com/index.php/topic,52846.0.html>

Bob and Jan Smirnow report that undercover police are staking out South Beach and taking pictures of all beach goers in order to create a database to help solve crimes. These undercover police are posing as couples on vacation.

Pauline Nash wrote a poem this summer while visiting family in Italy and missing her metal detector and friends at the club:

A DAY ON THE BEACH METAL DETECTING

When you wake up at five,
You start to drive.
With an enormous temptation,
You go to your destination.

When you see your buddy,
You both go out to look for money.
When you hop on that beach,
You wait to hear a beep!

While digging up your prize,
You get a high five.
With your bud next to you,
He remembers he's only found a shoe.

When you fill the hole up,
After claiming your cup.
You hop back on your feet,
And hunt the rest of the beach.

But when the day is over,
You say bye to rover,
Get in your car,
And go to the bar.

Once you make it home.
You give the dog his bone.
Cause after finding a diamond ring.
You want to sing.

HUNT MASTER'S PAGE – Linda's Rants & Raves

RULES FOR PLANTED CLUB HUNTS

- No Pulse Metal Detectors
- No coils bigger than 12 inches; No Big Foot coils
- Must use headphones
- When you get interference from other metal detectors, either move or wait till the hunter moves. It is impolite to tell the other hunter to move or even that you have interference
- Each hunter must retrieve their own signal
- No sharing of finds
- Other rules may be made for a particular planted hunt and will be posted before the hunt

METAL DETECTING ETIQUETTE

- When approaching another hunter, turn off your metal detector in case there is interference. Some machines screech, which can make other hunters very irritable.
- When hunting among crowds, be sure to keep your distance from their belongings. A reasonable distance is around 6 feet. You do not want to be accused of stealing.
- When hunting on the beach, be careful about scooping up the sand and shaking it out. If it is very windy, the sand can blow onto beach goers and their sun screened-slathered skin.
- If a friend takes you to one of his or her digging spots, it doesn't necessarily become your spot as well. This is especially true if it is private property that the friend has obtained permission to hunt. Check with your friend, then the landowner, before going back to the spot alone. Definitely check with them before you bring your friends to the spot as well.
- If you see a club member hunting a privately owned site, do not assume that you do not have to get permission.
- Treat kids as you would your own. They are the future of our hobby.
- Helping another hunter retrieve his signal means just that – *help* - not "finder's keepers." An offer to help is just that. Without an agreement made in advance, no one can claim rights to the find by helping.
- Give credit where credit is due.

CODE OF ETHICS

Treasure hunters abide by a standard Code of Ethics (our Ten Commandments). Our club has shortened the Code of Ethics to one sentence that is posted on the front page of the newsletter - ***Have permission and do no harm.*** Each club has its own version, but all have similar views. Some clubs even state that if a member can't abide by the Code of Ethics, then that member will lose club membership.

THE TEN COMMANDMENTS OF METAL DETECTING

- 1) Thou shalt not leave behind unfilled excavations.
- 2) Thou shalt not trespass or defy in any way the lawful decrees of thy city, county, state, province, or country.
- 3) Thou shalt not harm vegetation, the creatures of the field, natural resources, or the personal property of others.
- 4) Thou shalt not covet the finds of thy companion. Nor shall ye covet his metal detector, digging tool, or the hallowed place in which he diggeth.
- 5) Thou shalt not neglect thy family and friends whilst in the endless pursuit of this hobby.
- 6) Thou shalt assist the distraught owners of lost goods and the archaeologist, the enforcers of law, and all others who may need thy skill as a metal detectorist.
- 7) Thou shalt return found treasures to the proper owners whenever their true identity can be rightfully determined.
- 8) Thou shalt report to the proper authorities any find related to criminal activity or of archaeological significance.
- 9) Thou shalt be considerate of others on the beach and in other public places whilst waving thy search coil and digging holes in the sand and soil.
- 10) Thou shalt speak out against the unjust laws and stand firm against the Philistines who would cast out all those who would use detectors of metal.

And, if thou dost not abide by these Commandments, may ye be plagued with mineral-bearing rocks, hard-packed soil, pestilence, serpents, locust, poisonous vegetation, and great multitudes of pulltabs, bottle caps, and rusty nails. May ye spend the remaining years of thy wretched life digging signals of false origins. For thine iniquities shall surely bring the overzealous wrath of the ignorant, heathen bureaucrats down upon those of us who are innocent. For we are the righteous and the just, and ye who do not obey the Ten Commandments of Metal Detecting are doomed to bad luck. - Author Unknown

The above Code of Ethics comes from the Beaver State Coinshooters in Albany, Oregon. For more information on this club, visit their site at www.beaverstatecoinshooters.com

Good Will Ambassadors Performing Random Acts of Kindness

The Gold Coast Treasure Club recognizes members who go out of their way to provide selfless service to our community. The first time a member returns an item, that individual receives a metal detecting pin (crafted by Steve Hoskins) to wear on their hat in addition to a certificate. Future returns are recognized by a certificate. Kudos to you for advancing our hobby by returning items to their owners!
