 - Sun/Oracle "Infrastructure Readiness for lli" Web Seminar
- * Resources
 - Sun Developer Program for Solaris 8
 - Just Published from Sun Microsystems Press
- * International News, Events & Resources
 - Exponet 2002 Vienna
 - Sun Tech Days Developer Conference, Tokyo and Shanghai

=====

----- DOWNLOADS & SPECIAL PROMOTIONS -----

DOWNLOAD FORTE[tm] DEVELOPER 7 EARLY ACCESS 2 SOFTWARE

A second release of the early access Forte[tm] Developer 7 software for high performance application development on the Solaris[tm] Operating Environment (OE) is now available for download.

Experience the GUI's new look and feel that is based on the open source NetBeans[tm] Tools platform--the same platform used for the Forte[tm] for Java[tm] integrated development environment (IDE).
<http://sun.com/forte/info/features/fd7ea2.html>

DOWNLOAD THE JAVA[tm] TECHNOLOGY XML PACK

The Java[tm] Technology XML Pack is an all-in-one download of Java technologies for XML. The bundle includes current, publicly-available releases of Java APIs and architectures for XML, both production and early access versions.

SUN NEWS & ANNOUNCEMENTS

NT TO SOLARIS[tm] OE MIGRATION PROGRAM

Migrate to the future by expanding your UNIX[R] application market reach with Sun's NT to Solaris OE Migration Program, which provides complete resources and tools to evaluate, plan and complete a successful migration. The migration Web sites set out a roadmap to help you find the tools required for your specific migration needs.

Americas: <http://sun.com/migration/nt>

Europe, Middle East, Africa: <http://sun.com/migration/nt/emea>

Asia Pacific: <http://sun.com/migration/nt/apac>

EVENTS

JAVAONE[sm] CONFERENCE IN SAN FRANCISCO

The JavaOne[sm] Conference is the industry-recognized premier event for Java technology and innovative network computing strategies. Developers, technology creators, leading software and tools vendors, and many of today's most sophisticated users gather to teach and learn about Java technology.

WHAT: JavaOne Conference

WHERE: San Francisco, California, U.S.

WHEN: 25-29 March 2002

<http://java.sun.com/javaone>

SUN/ORACLE "INFRASTRUCTURE READINESS FOR 11i" WEB SEMINAR

If you're considering making the move to Oracle Applications R11i, you can't miss this free web seminar from Sun and Oracle on February 13. This interactive, 60-minute web seminar is designed to examine the typical IT structure for Oracle Applications and the best approach for a successful migration to 11i, including systems, sizing and capacity, and storage requirements during and after the upgrade.

WHAT: Sun/Oracle "Infrastructure Readiness for 11i" Web Seminar

WHEN: 13 February 2002, 9:00-10:00 a.m. PT

WHERE: <http://www.viewinfo.net/infrastructure>

Note: Pre-registration is required.

If you have any questions, call 1-888-283-9997, x409.

For further information on the Sun/Oracle Alliance, visit

<http://sun.com/oracle>.

RESOURCES

SUN DEVELOPER PROGRAM FOR SOLARIS 8

Verify your products' compatibility with the Solaris 8 OE with this free and easy program. After successfully self-testing your applications, Sun will help promote your products through a free corporate Web site listing.

JUST PUBLISHED FROM SUN MICROSYSTEMS PRESS

"Core Java[tm] 2 Vol. II--Advanced Features, 5th Edition"

An indispensable companion to the best-selling "Core Java 2, Vol. I--Fundamentals," "Core Java 2, Vol. II: Advanced Features" delivers the same real-world guidance needed to solve even the most challenging programming problems. Included is an all-new chapter on XML and Java technology, plus thoroughly revamped coverage of many advanced features--from collections to native methods, security to Swing.
