

Sad girl, poor girl  
Emotions running wild  
Don't talk, don't speak  
You'll make the others flee  
Be calm, be safe  
In your own world of unknown  
Kiss and love, maybe hug  
But keep your distance

Don't get involved  
Don't love someone  
Cause you don't know if they love you  
Too  
Speak soft thoughts  
Be a proper girl  
Don't let them  
Don't let them  
In

Hurt girl, good girl  
Best to keep your distance  
Don't go, don't leave  
Just bear the uncomfortable presence  
Be true, be there  
For the people you know you care for  
Sit and wait, don't hate  
Because you just don't know

Don't get involved  
Don't love someone  
Cause you don't know if they love you  
Too  
Speak soft thoughts  
Be a proper girl  
Don't let them  
Don't let them  
In

Grow up  
Get over it  
Get over yourself  
You should know it  
We don't care  
Get over it  
I've seen my eyes cry  
I see the blackened tears

I'll take to myself  
I'll leave the others be  
I have nothing to give  
Until you ask me

Don't get involved  
Don't love someone  
Cause you don't know if they love you  
Too  
Speak soft thoughts  
Be a proper girl  
Don't let them  
Don't let them  
In

Don't get involved (be a proper girl)  
Don't love someone (don't let them in)  
Cause you don't know if they love you (don't let them)  
Too (in)
