

A TALK ON

G N O S I S

**Wednesday 10th May 1995
7 p.m.**

**Woodside Halls
Room 2
36 Glenfarg Street
(St. George's Cross)**

Gnosis is knowledge - real knowledge. ("Real" is what we consciously experience within).

It is the enlightened knowledge of divine mysteries, which used to be reserved to a few.

Gnosis is the key for each individual to achieve genuine freedom and independence, and to fully develop his/her own particular nature.

The talk will be an introduction to Gnosis as well as to AGEAC'S courses on it.

No fees but contributions are welcome
