
I have written down certain words that I did not know while questions popped up on the SuperVoca Synonyms/Antonyms Test. The following list is a compilation of such words [not in an alphabetical order].

Some of these words have "(NB)" immediately following them. 'NB' stands for 'Non-Barron'. Of course these markings are memory dependent to a certain extent and some Barron © words may have been marked inadvertently; A "!" 'may' indicate this.

saurov @ Indian Institute of Technology Madras, India
